RAC Bulletin 2010-009E:RAC Section Manager Election Results - Manitoba.
2010-03-15

Congratulations are extended to Jan Schippers VE4JS who was recently returned as Section Manager for Manitoba for a two year term of office that will begin on July 1, 2010. Jan was unopposed eliminating the need for a balloted election.

GMFF News:
**
MMØDGR/p will be working from *Caerlaverock* National Nature Reserve (*GMFF-011*) on Saturday, *20th March, 2010*. The station will be located at the Caerlaverock Castle south of Bowhouse on the north coast of the Solway Firth (NY018651). WAB Square: NY06; QRA Locator: IO84GW; Latitude: 54°58′16″N; Longitude: 03°32′07″W, EU Area: SC06 (Dumfries and Galloway), IOTA: EU-005, WLOTA: LH-1234. Bands: 40 - 10 metres. Modes: BPSK63, CW, and SSB. QSL cards should be sent via MMØDFV. More information is available at www.gmff.org <http://www.gmff.org>

Our team has applied for official permission to visit *Rùm* National Nature Reserve (*GMFF-058*) located on the same name Isle of Rùm (IOTA EU-008). We are planning our trip from *30th April *to* 3rd May, 2010*. We have applied for a *GB8RUM* special call sign to be used from the island during our expedition. We will keep you informed on the progress of this WFF New One expedition organizing by the tireless GMFF Team. If anybody would like to take part in this project please contact us beforehand so that we can carefully plan our trip. More information is available at www.gmff.org <http://www.gmff.org>

Full photo and video report about *MMØDGR/p* activation on 13th March, 2010 from *Kirkconnell Flow* National Nature Reserve (GMFF-040) has been uploaded to www.gmff.org <http://www.gmff.org> (Click on *Reports* tab). After approximately 10 hours of operation on CW, SSB and BPSK31 we made 1034 QSOs in total. Thanks to all who called and spotted us. The QSL-card for this DX-pedition has been already designed and printed (please see its sample on our website). All who made a QSO with us will receive this QSL-card shortly via the QSL-bureau. The ADIF log has been uploaded to the WFF LogSearch database on 14th March, 2010. If you have any additional questions or concerns of any kind, please do not hesitate to contact us. Your comments in our *Guestbook* are very welcome!

We would like to introduce the *European Flora and Fauna mailing list (reflector)*. This reflector has been created for English-speaking people to share their news and reports about planning and past WFF DX-peditions, to discuss various questions related to the World Flora and Fauna activity, especially in Europe. Everybody will be heard and answered there!

To post a message to the mailing list, send email to
euff@... <mailto:euff@...>
To unsubscribe from the mailing list, send email to
euff+unsubscribe@... <mailto:euff+unsubscribe@...>
For more options, please visit http://groups.google.com/group/euff?hl=en

We would like to invite you to join this mailing reflector, and we very hope that it will be useful to all *Flora and Fauna* "activators" and "hunters".

And the last bit... The issue arose from disgusting behaviour of Konstantin Starostin, RNØQQ in the WFF reflector has been positively solved tonight. This guy has been removed from the group. Our respect to Valery, RW3GW for his manly decision! All what we do is for all of us guys, and we would like to thank all of you for your great support! It's our honour to be part of a great amateur radio community appreciating people and nature.

Of TAG QSL BURO in Russia, Box 21, 392000, Tambov, Russia.

I have been deceived into sending all Russian qsl cards to that buro
only to find that they will not pass them onto Russian Hams unless each
person pays for their cards.
I am now trying to have the cards picked up from them and taken to Box 88.

Please pass this around as i do not want others caught in this same

Folks,

I will be QRV as HR2/NP3D and HQ2T from San Pedro Sula, Honduras from March 19th until March 29th, 2010.

Will be happy to work Every one on any mode. I am particularly looking for Delaware, Maine and Wyoming to complete WAS RTTY all via LoTW from HR-land.

Will be looking for you guys during BARTG RTTY Spring, and also during RDXC and WPX SSB Contests.

All logs will be uploaded into LoTW right away.

Note: HQ2T operation during March ARRL SSB Contest - all QSL's should go to K2BB only. Olexandr used HQ2T during that Contest.

On March 18, 1910, Harry Houdini made the first powered flight of an aircraft in Australia at Diggers Rest in Victoria.

To commemorate the centenary of aviation in Australia, the Sunbury Amateur Radio Group (SARG) are offering the Centenary of Aviation Award. Available for all bands and all modes (including Echolink and IRLP), the award is available for those who make five contacts with SARG members. Contact with the same member is permissible but on different days, between 0000UTC March 14 to April 4, 2010. QSL cards are not needed for the award. Applications for the award need to list the call, date and time of contact, and can be sent by e-mail to _vk3tkk@...3tkk_ (mailto:vk3tkk@...) . The award can either be awarded in an electronic form or in a printed format. Contact Peter VK3TKK at the above e-mail address for further details.

BRAND-NEW PREFIX LAUNCHES FOR CQ WPX CONTEST

March 27-28 Weekend

For the first time, the Azores Islands will be active under the callsign
CQ8X in this weekend's WPX Contest, featuring a multinational team of CU2CE,
CU2DX, DL6LAU, N6RC, OH1TV, OH2BH, OH2UA, OH6KN, OH6RM and OH8NC.
They may even put another station on as CR2X to push for more Xtremes. Please
kindly update your CTY file.

This not only marks Arcala Extreme's (OH8X) Annual Meeting, now
held in the Azores, but also forms part of their 3rd anniversary activity -
OH8X, from
Arctic Circle will be there as well courtesy of Marko, OH4JFN.

As part of the upcoming festivities, the 2nd phase DX Summit will be made
available to limited Beta testers for Easter. If you wish to be one, please
kindly contact Radio Arcala by email <oh8x@...>

GMFF Team [www.gmff.org] will be working as MM0DGR/p from Den of Airlie National Nature Reserve [GMFF-021] on 27th March, 2010. This is a «new one» entity for the WFF [World Flora and Fauna] award program [www.wff44.com]. At the moment we don't know exact location of the station's position, but it's going to be quite close to the Airlie Castle located in the Angus Glen.

The Den of Airlie National Nature Reserve covers a relatively small site but is the largest area of ancient woodland in Angus [EPC EU Area SC03]. It comprises a mixed deciduous gorge woodland which supports a high number of woodland flowering plants, mosses and liverworts, many of which are rare. Several species of invertebrate which are rare or very local in their distribution occur. Significantly the site is relatively undisturbed and has a continuous history of woodland cover. Its significance is in regional or national terms rather than in international importance.

Approximate location references are - OS National Grid Reference: NO293520; WAB Square: NO25; Grid Locator: IO86KP; Latitude: 56°39′16″N; Longitude: 03°09′17″W; IOTA: EU-005; WLOTA: LH-1234. We will be working CW, SSB, and BPSK63 on all bands between 7 MHz and 28 MHz. Because of the CQ WW WPX SSB Contest held on this weekend, we will take part in the contest for a while working SSB on 40, 20, and if propagation allows, on 15 and 10 meter bands. QSL-cards should be sent via MM0DFV.

Hi friends
For this issue thanks to: Bernie/W3UR & the Daily DX, Bill/NG3K,
Christophe/F5UBH, François/F5JNE Augusto/I2JJR/HB9TZA, AT international, John/K1XN
and the Golist, Jurij/MM0DFV, Federico/IW1QN, Joan Sauri/C31US
France – BREHAT Island EU-074
A team composed of both Union Française des Telegraphistes UFT and
Clippertton DX Club CDXC members , is heading to Brehat Island, EU-074, WLOTA
2010, and will stay there between April 7th to 12th.
The crew includes Jean/F5IRC, Christophe/F5UBH, François/F5JNE and
Jean-Claude/F5IL.
A ssb/digit modes operator is needed to day. If interested, please
contact quickly Christophe/F5UBH at _f5ubh@orange.fr_ (mailto:f5ubh@orange.fr)
As many HF bands as possible, in SSB, CW and digit modes.
The callsign used will be that of the UFT : F8UFT
QSL for this operation only via F5UBH, either direct (SAE + return funds)
or bureau.

T32 IOTA DXpedition , last news :

The T32MI team has landed on Malden Island (OC-279) and has begun setting
up
their stations. They hope to be QRV around mid day (their time) today.
Remember they will begin with more than one station on the air to avoid
pirate activity. Mike sounded much better now that his feet are on land
after being in the boat for the last five days.

SCOTLAND:
GMFF Team [www.gmff.org] will be working as MM0DGR/p from Den of Airlie
National Nature Reserve [GMFF-021] on 27th March, 2010. This is a «new one»
entity for the WFF [World Flora and Fauna] award program [www.wff44.com]. At
the moment we don't know exact location of the station's position, but
it's going to be quite close to the Airlie Castle located in the Angus Glen.

SWITZERLAND:
Dear DCS-SSD Castles Friends,

We have changed some rules and updated the pages of the Awards.
You may see it all here:

_http://castles.ham-radio.ch/DAS_Intro/DAS_Menu.htm_
(http://castles.ham-radio.ch/DAS_Intro/DAS_Menu.htm)

We also need your help to update or verify or find new References Data .
Residents hams are welcome to write us the possible References that are not yet listed, or not correctly listed.
Reference Fotos very welcome: they should be proprietary snapshoots! No copyrighted or published Images may ne admitted.
To translate or correct the Rules in the F DL EA GB languages, we need help of ham operators.
They will preferably be mother-tongue and experienced in the Ham Radio jargon, hi.
As you as an Ham are certainly aware, some translations by non - hams may result to be funny if not comic, so we really appreciate your help.

The job is not heavy, indeed.

Many thanks to all that will contribute on this.

(http://castles.ham-radio.ch/DAS_Intro/DAS_Menu.htm)

Nous avons besoin de tous pour mettre à jour les bases de données. Des
photos nous intéressent également.
Vous avez remarqué que les pages de règlement en Français, Anglais,
Espagnol, Allemand sont toujours « en construction »
Des OM dont l'une de ces langues serait la langue maternelle et au fait du
jargon radioamateur, pourraient nous être utiles pour permettre la
publication des traductions de règlements dans ces langues et ce à partir de l'
Italien.
L'aide de ces personnes serait très appréciée.
Merci de votre aide.

We also need your help to update or verify or find new References Data .
Residents hams are welcome to write us the possible References that are
not yet listed, or not correctly listed.
Reference Fotos very welcome: they should be proprietary snapshoots! No

copyrighted or published Images may ne admitted.
To translate or correct the Rules in the F DL EA GB languages, we need help of ham operators.
They will preferably be mother-tongue and experienced in the Ham Radio jargon, hi.
As you as an Ham are certainly aware, some translations by non - hams may result to be funny if not comic, so we really appreciate your help.
The job is not heavy, indeed.
Many thanks to all that will contribute on this.

No problem with RAC or GoWin and Win-Eqf under Win764 prof. The only problem is I can't get DX telnet to talk to Win-Eqf. I suspect that Microsoft did something to the FTP ports that they don't understand. I don't see any error messages though.

Hi friends
For this issue thanks to: Bill/NG3K, François/F5JNE, Claude/F5MCC, Jean-Yves/F8LDX, IRTS,
Claude, F6DJB, SK – RIP
Vincent F5MJV, President of the Union Française des Telegraphistes UFT and the staff have to report with sadness the Claude/F6DJB's passing on last Friday, March 26th.
Claude died at 82, at the end of a long illness.
He begun his CW operator carreer just after the WWII, in Africa as member of the French Forces, in the subsaharian countries which became in the 60's the Niger, Mali, and South Algeria.
For long years he belonged to the Camel Units, so having to traffic oftentimes on camel backs, he took the habit a of certain very musically rythm of CW which some ones called "à la Saharienne".
When retired of the Army, in the 70's, he got back to the French Ministry of Interior CW crews and spent about 20 years at the Seine et Marne department Prefecture, as member of the local Transmission unit.
In the 85's with 29 other friends, he was one of the founders of the Union Française des Telegraphistes, UFT, the only one French CW Society belonging to the EUCW Federation. He was a member of the UFT to the end.
Among other activities he was also for some whiles, a French IARU Society REF-Union trustee, and Regional director for the Midi Pyrenées area.
Fond of CW on VHF and UHF Bands, a lot of hams had in the past, thousands of contacts with him either from his home in Montlezun (Gers Department) where he retired in the 90's, then in St Perdon (Landes Department) or also from numerous locations he visited with Marie Jo his XYL/F5SEL, onboard of his camper.
Claude's funeral service was done on Monday March 29th , and after the cremation his rests were burried in his village of St Perdon cimetery.
Sympathy messages can be sent to

GB10GKA Special Event Station

To mark the 10th Anniversary of the closure of the World's largest
Maritime Radio Station Portishead Radio / GKA, a special callsign GB10GKA has been
granted.
GB10GKA is being activated for a period of one month from 30th April 2010
through 27 May 2010.

Hours of operation will be dependent on individual operator's free time
however, it is intended that the
callsign will be active extensively throughout the licensed period.
Operation will be primarily on CW.
Operations will be on all HF bands from the following stations, each
manned by an ex-GKA RadioOfficer.

The operational schedule is as follows :
G3YEC Rick 30 April thru 6 May QTH near Colchester, Essex.
G3ZRJ Tony 7 May thru 13 May QTH near Hereford, Herefordshire.
GW3UOF Mike 14 May thru 20 May QTH near Treorchy, Mid Glamorgan, Wales
G3TJE/G4HLN Pete/Larry 21 May thru 27 May QTH Nr Burnham on Sea, Somerset.

Special Anniversary QSL cards will be produced to mark this historic
event, eQSL will also be used.
Certificates for contacting GB10GKA on more than 4 HF bands will be
available via soft copy thus at no cost to the winners. If you work us on more
than 4 bands please contact G3ZRJ as shown below so that your certificate can
be sent to you via email.

Bonjour à tous
Pour ce bulletin, merci à : Bill/NG3K, François/F5JNE, Claude/F5MCC, Jean-Yves/F8LDX, IRTS,
Claude, F6DJB, SK – RIP
Vincent F5MJV, Président de l' Union Française des Télégraphistes UFT et le Conseil d'Administration ont le regret d'annoncer avec tristesse le décès de Claude/F6DJB, le vendredi 26 mars.
Claude est décédé à l'âge de 81 ans à la suite d'une longue maladie.
Il commença sa carrière d'opérateur télégraphiste juste après la seconde guerre mondiale. Il intégra les unités méharistes, et opéra dans les zones désertiques subsahariennes des régions d'AEF qui devinrent le sud Saharien Algérien, la Niger et le Mali.
Nous en parlions souvent, et le fait d'avoir du trafiquer parfois à dos de chameau lui avait fait prendre l'habitude d'une certaine manipulation, dont la musicalité particulière était dénommée « A la Saharienne ».
Retraité de l'Armée, Claude se reconvertit dans les années 1970 dans les unités d'opérateurs CW du Ministère de l'Intérieur. A ce titre il fera partie du STI de Seine et Marne pendant une vingtaine d'années.
Il participera à la fondation du Radio Club de Provins, F6KOP en 1978.
En 1985 avec 29 autres passionnés, il sera l'un des fondateurs l' Union Française des Télégraphistes, UFT, la seule Société CW française appartenant à la Fédération EUCW.
Il aura été membre d e l'UFT jusqu'au bout.
Parmi ses autres activités, if fut en son temps l'un des animateurs de la station F8REF avec Dominique F2AI.
DR de Midi Pyrénées il fut aussi membre du CA du REF-Union.
Féru de CW en V et UHF, beaucoup de pratiquants de ce mode sur ces bandes se souviendront des centaines de QSO effectués avec lui, soit depuis son domicile de Montlezun (Gers) où il avait pris sa retraite dans les années 1990 ou ensuite depuis St Perdon (Landes), ou encore depuis les nombreuses régions d'Europe, qu'il visita avec Marie Jo son XYL/F5SEL, à bord de son camping-car.
Les funérailles de Claude ont eu lieu lundi 29 et après l'incinération, ses cendres ont été déposées au cimetière de la commune de Saint Perdon.
Condoléances et messages de sympathie peuvent être adressés à :

The following is from W5GAI, Skip, in reference to the status of VY0V, Cezar.

Bernie, W3UR

VY0V
DXpedition to East Pen Is. (NA-231 New)
3 days between March 26 - 31, 2010
Nunavut (CQ Zone 4), Canada
http://www.qrz.com/db/vy0v (http://www.qrz.com/db/vy0v)
I saw this spot about 0330z and went to 10107.5. VY0V was on frequency, asking for help. Others had marginal copy so I joined and had several QSO's
with Cezar VY0V between. 0330-0500z. He said that rain and wind was fierce,
visibility poor, he had no water, no fire, no gas for generator, battery getting low, and native guide had abandoned him 38 hours ago. He was worried and seemed delirious, rambling on while running down his battery.I got Cezar to give me his GPS coordinates 56" 44.854 N 88" 37.812 W and relayed this to Ralph VE7XF who said Frank VE7DP was working to get a rescue
and they passed it on to a rescue team coordinator by phone who will get it to them by sat phone next comm they have. The rescue team supposedly left Fort Severn on a 7/8 hour trek at 4pm EDT which would have been 3PM CDT, so they should have been near him by 10-11 PM CDT or 03-0400z. Cezar said at 0500z he had low visibility and no contact with the rescue team yet. Told Cezar to conserve battery, get some sleep and try 10107.5 again at 1100z just before his sunrise at 1130z if not rescued. Later Ralph VE7XF informed
me that guys that went to try to get Cezar today had to turn back according to VE7DP, as their ski doo kept bogging down due to the rise in temp in the area. I tried 10107.5 at 1100 and 1130z and got no reply from VY0V. So I
started looking on the internet for RCMP phone numbers. I called RCMP's Ontario Division HQ 24/7 . At 11:45z they patched me through to Jason at the North Bay Comm Center of the Ontario Provincial
Police . He said that the Fist Nations Policing team from Fort Severn was working on the rescue and that they were in communication
with North Bay Comm Center. He said would relay any new information to me for broadcast to the concerned amateur radio community. At 1215z Jason called me to say that the rescue team hads a visual sighting of Cezar's location and should be arriving at his location shortly. I continue to monitor 10107.5 and 7007. Let's hope for a positive outcome.

Bernie, W3UR

VY0V
DXpedition to East Pen Is. (NA-231 New)
3 days between March 26 - 31, 2010
Nunavut (CQ Zone 4), Canada

http://www.qrz.com/db/vy0v (http://www.qrz.com/db/vy0v)

J'ai remarqué ce spot à environ 0330z et me suis calé sur 10107.5. VY0V
était en fréquence appelant à l'aide.
Parmi d'autres, je suis intervenu et j'ai eu plusieurs QSO avec Cezar VY0V
entre 0330 et 0500z.

Il signalait la violence du vent et de la pluie ainsi que la visibilité
quasi nulle. Il n'avait plus d'eau, ni de possibilité de faire du feu.
Il n'avait non plus de pétrole pour son groupe et ses batteries
s'affaiblissaient terriblement.

Il n'était pas parti seul, mais son guide indigène l'avait abandonné plus
de 38 heures auparavant.

Il était hors de lui et paraissait délirer, notamment sur
l'affaiblissement de sa batterie. Au milieu de ses incohérences, j'ai réussi à lui faire
indiquer ses coordonnées GPS : 56" 44.854 N 88" 37.812 W .
J'ai ensuite relayé à Ralph VE7XF qui m'a indiqué que Frank VE7DP
travaillait à faire partir une équipe de secours à qui il avait transmis les
informations par téléphone.

Ils allaient essayer de le contacter par téléphone satellite.

L'équipe de secours est partie à 4h EDT, pour un trek de 7/8 heures. Ceci
devait les amener sur place vers 03-0400z.

Cezar indiquait encore à 0500z qu'il n'y avait aucune visibilité et qu'il n'avait aucun contact avec l'équipe de secours.

On a dit à Cezar de limiter l'usage de ses instruments au strict nécessaire pour économiser sa batterie, sur 10107.5 de nouveau à 1100z, juste avant le lever de soleil de 1130, s'il n'avait pas encore été secouru.

J'ai essayé sur 10107.5 à 1100 et 1130z sans réponse de VY0V.

J'ai commencé à rechercher sur Internet les numéros de téléphone ., j'ai contacté la division de l'Ontario du RCMP, à son quartier général .

A 11:45z ils m'ont transféré sur le centre comm de North Bay n Centre Ontario, de la Police provinciale.

On m'a rapporté que l'équipe de secours de Fort Severn était en charge du sauvetage et qu'ils étaient en communication permanente avec le centre de North Bay comm .
Ils transmettront toute information par radio à destination de la communauté Radioamateur.

A 1215z, à 13215z une information en provenance del'équipe de secours indiquait qu'ils étaient en vue de l'endroit où avait été signalé Cezar et qu'ils pensaient le rejoindre très rapidement.
Je reste en veille sur 10107.5 et 7007.

Espérons une fin heureuse.

US COUNTY HUNTING - USA-CA

W0BH - Bob - 3 Apr to 4 Apr - SSB and CW
Missouri QSO Party
Lorna (K0WHY) and I will run 27 counties in southern Missouri. Look for
us CW/SSB on 20/40 during the day and on 40/80 on Saturday evening.
We'll also check 15 and 10 from time to time. The exchange is signal
report, serial number, and state/province/DX.
Here are the counties in the order visited:
Saturday, 3 Apr (1800-0500Z)
Vernon/VRN, St Clair/SCL, Cedar/CED, Hickory/HIC, Camden/CAM,
Dallas/DAL, Polk/POL, Webster/WEB, Wright/WRT, Douglas/DGL, Texas/TEX,
Shannon/SHA (bird-watching stop for Lorna), Carter/CAR, Reynolds/REY,
Butler/BTR.
Sunday, 4 Apr (1800-0000Z)
Ripley/RIP, Oregon/ORE, Howell/HOW, Ozark/OZA, Taney/TAN, Christian/CHR,
Stone/STN, Barry/BAR, Lawrence/LAW, Newton/NWT, Jasper/JAS, Barton/BTN.
Note the similarity between BARry and BarToN.
On Sunday morning, we'll be in Wayne county for awhile but I won't be
QRV from there during the QSO Party. I'll plan to run Wayne on CHN both
CW and SSB.
For a downloadable schedule, county-line info, frequency info and
last-minute changes, go my QRZ.COM listing: http://www.qrz.com/db/w0bh.
Hope we put you in the log many times! QSL via home call. [County Hunter
Web]

K7DM - Don - 1* - April 5 to April 8 - CW Only
I'll be in San Juan, WA from April 5th-8th. I may be able to run Island,
Jefferson, and Clallam, WA on the 8th. QSL via home call. [County Hunter

BITS & PIECES -

The following is from W5GAI, Skip, in reference to the status of VY0V, Cezar.

Bernie, W3UR

VY0V
DXpedition to East Pen Is. (NA-231 New)
3 days between March 26 - 31, 2010
Nunavut (CQ Zone 4), Canada

http://www.qrz.com/db/vy0v

I saw this spot about 0330z and went to 10107.5. VY0V was on frequency, asking for help. Others had marginal copy so I joined and had several QSO's with Cezar VY0V between. 0330-0500z. He said that rain and wind was fierce, visibility poor, he had no water, no fire, no gas for generator, battery getting low, and native guide had abandoned him 38 hours ago. He was worried and seemed delirious, rambling on while running down his battery. I got Cezar to give me his GPS coordinates 56" 44.854 N 88" 37.812 W and relayed this to Ralph VE7XF who said Frank VE7DP was working to get a rescue and they passed it on to a rescue team coordinator by phone who will get it to them by sat phone next comm they have. The rescue team supposedly left Fort Severn on a 7/8 hour trek at 4pm EDT which would have been 3PM CDT, so they should have been near him by 10-11 PM CDT or 03-0400z. Cezar said at
0500z he had low visibility and no contact with the rescue team yet. Told Cezar to conserve battery, get some sleep and try 10107.5 again at 1100z just before his sunrise at 1130z if not rescued. Later Ralph VE7XF informed me that guys that went to try to get Cezar today had to turn back according to VE7DP, as their ski doo kept bogging down due

to the rise in temp in the area. I tried 10107.5 at 1100 and 1130z
and got no reply from VY0V. So I started looking on the internet for
RCMP phone numbers. I called RCMP's Ontario Division HQ 24/7. At
11:45z they patched me through to Jason at the North Bay Comm Center
of the Ontario Provincial Police. He said that the First Nations
Policing team from Fort Severn was working on the rescue and that
they were in communication with North Bay Comm Center. He said would
relay any new information to me for broadcast to the concerned amateur
radio community. At 1215z Jason called me to say that the rescue team
hads a visual sighting of Cezar's location and should be arriving at
his location shortly. I continue to monitor 10107.5 and 7007. Let's
hope for a positive outcome.

Looks like a good ending to the VY0V/VE3LYC, Cezar, story!
Bernie, W3UR

Please forward this or publish as needed to inform all concerned.

At 9:45PM CDT/0245z April 2, I spoke by phone with Cezar VY0V/VE3LYC's wife Lucy.
Lucy had convinced RCMP that an air rescue was needed because the ground team was way
overdue. She said the 2 man ground rescue team arrived (after 27 hours) about the same time the twin otter plane did around 8PM local. Cezar called Lucy upon arrival back in Fort Severn, about 120km from East Pen Is. NA-231. One of the two guides who took Cezar to the island was aboard the plane to assist in exact location. He was one of the two who abandoned Cezar approximately 8am on Tuesday, saying they had business back in the village of Ft. Severn and would return. Cezar put out his SOS for Rescue Wednesday afternoon after they didn't return after 38 hours and he had run out of generator fuel, had no fire, battery running low for radio, rain and wind howling.

A good ending to a really tense time!

New Zealand Amateur radio operator licence change

New Zealand Amateur radio operator licence change

The General User Radio Licence for Amateur Radio Operators has been amended to allow operators to use the frequency band 505 kHz to 515 kHz on a temporary basis from 1 March 2010.

Requirements of the licence include a maximum radiated power of 25 watts e.i.r.p., maximum bandwidth of 200 Hz, and the requirement not to interfere with other services licensed to use that band.

Historically, this part of the radio spectrum was used for maritime communications in Morse Code until satellite communications recently made the technology obsolete. Morse Code was a capability required by radio officers on ships travelling internationally up until the late 20th century.

The licence amendment will make it possible for amateur radio operators involved in restoration of historical radio equipment, for example at the Coast Station at Musick Point in Auckland, to test un-modulated transmission (carrier wave) signals from the equipment and demonstrate their Morse Code skills.

98th Anniversary of the Titanic Disaster!

98th Anniversary of the Titanic Disaster!
From 8am Saturday April 10th until 5pm Sunday April 11, the call sign WØS will be operating from the steps of the Titanic Museum in beautiful

downtown Branson Missouri.
This event will commemorate the heroic efforts of Harold McBride and John “ Jack” Phillips as they sat at the Marconi radio in the Titanic sending the first ever SOS. Jack perished while continuing to send the SOS. Harold was rescued and went on to operate the radio on the ship Carpathia until it reached dock. Thanks to their efforts, 706 people were rescued from the Titanic when that mighty ship sank.

Most contacts will be via phone, but there will be several amateurs operating with CW as they participate in this historic event.

Fin heureuse après le SOS de Cezar, VY0V/VE3LYC,
A 9:45PM CDT/0245z le 2 avril, j'ai peu parler au téléphone avec Lucy, l'
épouse de Cezar VY0V/VE3LYC.
Elle a fini par convaincre le RCMP qu'un sauvetage aérien était devenu
nécessaire car l'équipe de secours au sol était en retard.
Elle a indiqué que les deux hommes partis au secours de Cezar, étaient
arrivés (après 27 heures) pratiquement en m$ême temps que le bimoteur, aux
alentours de 0800 PM locales.
Maintenant, Cézar a pu parler à son épouse, à son arrivée à Fort Severn,-
environ 120 km de l'île East Pen, NA-231.
Un des deux guides qui avait emmené au départ Cézar, était à bord de l'
avion et a pu donner des indications sur sa localisation.
C'était l'un de ceux qui abandonnèrent Cézar aux environs de 0800 du
matin locales mardi, prétextant qu'ils avaient du travail à effectuer à Ft.
Severn et qu'ils devaient absolument y repartir.
Cezar a lancé son SOS mercredi après midi, après un retour impossible
après 38 heures sans fuel pour le groupe, sans feu, et une batterie de plus en
plus faible, rendant très difficiles les communications radio. Le temps
épouvantable pluie et vent ont accéléré la décision de lancer le SOS.
Tout est bien qui finit bien

Nouvelle Zélande; changement dans les licences radioamateur.
La licence Général a été modifiée afin de permettre l'utilisation des
fréquences 505 kHz à 515 kHz sur un statut temporaire.
Maximum 25 watts e.i.r.p., et largeur de bande maximum de 200 Hz, sans
interférences avec les autres services qui utilisent cette bande.
Historiquement c'était une bande réservée aux communications de la marine
en morse, jusqu'à ce que les satellites rendent ces moyens obsolètes.

Le Morse était obligatoire jusqu'à la fin du XXème siècle pour les officiers radio de la Marine au long cours.

Cette modification permettra aux radioamateurs, impliqués dans la maintenance et la restauration des stations historiques, d'utiliser cette bande de fréquence, tel que cela se passe en ce moment à la station côtière de Musick Point à Auckland, pour tester le matériel ancien et sa capacité à envoyer des signaux Morses aujourd'hui encore.

PACIFIC (T31) TOUR

Dragan, YT3W, sent out the following press release about the Sept./Oct. T31 DXpedition (edited): "It is with great regret that David/K3LP (Co-Leader) and I (Hrane/YT1AD Leader) must inform the DX Community that after 16 months of planning our DXpedition trip to Canton Island (T31) http://www.yt1ad.info/t31, slated for 11 days in October 2010, will be cancelled. We planned 6 stations fully equipped for HF plus two additional stations for UHF/VHF/Satellite plus 13-14 operators. Our goal was to make 100,000 plus QSOs much like our N8S - Swains Island DX-pedition in 2006.

This decision is based on the March 7, 2010, announcement by the T31X team planned for June 2010 http://www.uz1hz.com/pacificodyssey.html. Unfortunately, it is cheaper to send a smaller crew with three radios and two amplifiers.

In light of this recent announcement, the total cost of the trip versus the uniqueness will evaporate prior to our arrival. For this reason, we will pick another location for a future date. Minus some team member partial cash contributions and planned equipment sponsors, there were no cash donations made that need to be refunded. We will forfeit our $40K cash deposit on the boat and seek other places in 2011..... Sincerely, T31F team 2010"

MM0DGR/p will be operating from the Cragbank Woods National Nature Reserve (GMFF-018) on Saturday, 27th February, 2010. At the moment we don't know exact (precise) location of the station, but it's going to be at the foot of Wolfehopelee Hill along B6357 road. Grid locator IO85QI, WAB NT50, EU Area SC26 (Scottish Borders), IOTA EU-005. For more info please have a look at http://www.srars.org/wff-reports/gmff-018.htm

Equipment will be used - Icom IC-706MKIIG (100W on BPSK125) with HLA-300 Plus HF Power Amplifier (300W on other modes). We will use our multiband vertical antenna with a 9 meter vertical radiating wire mounted on a fiberglass pole and matched through the CG-5000 automatic antenna coupler at the bottom, earthed to 8 x 10m elevated radials. This time we are going to use the Radio Works T-4 Line Isolator along the RG8 coaxial cable, and a heavy earth rod mounted at the mobile shack to prevent RF feedback.

The main goal of this trip is to activate a new WFF nature reserve and to participate in the EPC WW DX Contest [www.epcwwdx.srars.org] on BPSK125 mode. There will be a possibility to operate other modes for short periods according to the following frequencies ? QRM: 15 m (CW

21.044 MHz, SSB 21.244 MHz); 20 m (CW 14.044 MHz, SSB 14.244 MHz); 30 m (CW 10.124 MHz); 40 m (CW 7.024 MHz, SSB 7.144 MHz). QSL-cards should be sent via MM0DFV, preferably through the QSL-bureau.

The Cragbank Woods National Nature Reserve (NNR) is located in Scottish Borders, a few miles southeast from Hawick. This expedition is organized under the WFF (World Flora and Fauna) award program [www.wff44.com]. The sponsor of this mini DX-pedition is Radioarena [www.radioarena.co.uk]. We are looking forward to see you on the bands, and especially in the EPC WW DX Contest on BPSK125 mode.

All the very best from Scotland and our warmest 73!

MM?DGR/p will be operating from the Loch Lomond National Nature Reserve (GMFF-046) on Saturday, 6th February, 2010. The portable station will be located at the Shore Wood (southeast corner of Loch Lomond). Equipment: Icom IC-706MKIIG with HLA-300 Plus (300W) HF Power Amplifier. Antenna: 9m high Vertical with CG-5000 Automatic Antenna Coupler. Grid locator IO76RB, WAB NS48, EU Area SC31 (West Dunbartonshire), IOTA EU-005. Bands, modes and frequencies ? QRM: 20 m (BPSK63 14.072 MHz, CW 14.044 MHz, SSB 14.244 MHz); 30 m (BPSK63 10.142 MHz, CW 10.110 MHz); 40 m (BPSK63 7.044 MHz, CW 7.014 MHz, SSB 7.144 MHz). QSL-cards via MM?DFV (preferably RSGB QSL-bureau).

Loch Lomond National Nature Reserve (GMFF-046) lies in the southeast corner of Loch Lomond, in the southern part of the Loch Lomond and Trossachs National Park (GMFF-002). This portable expedition gives you two WFF reference numbers GMFF-046 and GMFF-002 simultaneously. The Reserve includes some of the woodlands for which Loch Lomond is

renowned, including the wooded shores on the mainland and on the islands of Inchcailloch, Clairinsh, Torrinch, Creinch and Aber Isle and the wetlands at the mouth of the River Endrick.

Massillon Amateur Radio Club, Massillon, Ohio will be sending a team July 23rd, 2010 to North Bass Island (OH006), Lake Erie. Our callsign is N8B. This team will attempt to qualify the island for the US Island Award Program. Only transportation is either by private plane or private boat, We will travel by boat.

We have created a website with the times and operating frequencies and information about the island. We are still adding our equipment list to the website. This is the first expedition the Massillon Club has attempted.

We are also seeking financial donations to help with the expenses of this expedition.

Website: www.North-Bass-Island.com

For further information or questions, please contact Tom, WD8MBE at wd8mbe@...

Hope to hear everyone on the air in July.

Hello DXers:

Oh Oh, that ?A Index? ran way up the last few days. However, the next few days look much better for all those looking to make as many Q?s as possible with YI9PSE, and others as well.
Today calls for SFI of 85 with the A Index dropping to around 15 and tomorrow looks even better with the same SFI but the A Index dropping to 7.

Speaking of YI9PSE, I note cluster spots this morning for them on 20 CW, 17 CW/SSB/RTTY. I also see a note that the on-line log has been updated.
They are expected to stay active until next Monday, April 12.

Until next week, enjoy the chase, but HAVE FUN !!!

Carl, N4AA

Hi friends
For this issue thanks to: Bernie and the Daily DX, Pete’s DX Desk,
Bill/NG3K, Toze/CT1GFK and Algarve Star DX Team, DXNL,
If you have a 70 cm rig and a small 70 cm yagi antenna, here's your chance
for an EME QSO with the Areceibo Observatory in Puerto Rico:
****
In less that two weeks the Arecibo Observatory Amateur Radio Club will
again put the 1000-foot radio telescope on the air for 432 MHz EME.
The scheduled times of operation are:

April 16: 1645 - 1930 UTC
April 17: 1740 - 2020 UTC
April 18: 1840 - 2125 UTC

Callsign: KP4AO
Tx Frequency: 432.045 MHz
Rx Frequency: 432.050 to 432.060+
Tx power: 400 W
Antenna gain: 60 dBi
System noise temp: 120 K (cold sky)
System noise temp: 330 K (when pointed at moon)

KP4AO can be heard with a small hand-held yagi pointed at the moon, and
a good receiver. A 15 dBi antenna and 100 W will be enough to work us
on CW.

Operators at KP4AO will do their best to work as many stations as
possible. Each session will start with a brief announcement and CQ in
SSB. SSB QSOs may continue for 30 minutes to an hour, if the QSO rate
remains high. The mode will be shifted to CW as soon as it is judged
that higher QSO rates would result.

We will listen for calls at frequencies 5-15 kHz higher than our own,
and even higher if QRM warrants. Callers who s-p-r-e-a-d o-u-t are
more likely to be copied.

If you've already worked us in any mode, please do not call again --
give others a chance.

If we call "CQ QRP", we will listen for stations running 100 W or less
to a single yagi. Please do not answer such a CQ if you are running
more power or have a larger antenna.

On April 18, if we reach a condition where most calling stations have
been worked, and we judge that operating in the digital mode JT65B would
produce a higher QSO rate, we will switch to JT65B.

Note that any of these planned operating strategies may be changed as
circumstances dictate.

We are extremely fortunate to have been granted access to the world's
largest radio telescope for this amateur radio good-will event. We look
forward to working as many stations as possible in the alloted time!

Bonjour à tous
Pour ce bulletin, merci à : Bernie and the Daily DX, Pete’s DX Desk, Bill/NG3K, Toze/CT1GFK and Algarve Star DX Team, DXNL,
Si vous avez un émetteur 432 MHz et une petite antenne Yagi, voici votre opportunité de réaliser votre premier QSO EME avec l’observatoire Areceibo de Porto Rico:
****
En moins de deux semaines, l’ Arecibo Observatory Amateur Radio Club mettra sur l’air le radiotélescope de 333 mètres en 432 MHz EME.

Plan de trafic :
16 Aril: 1645 - 1930 UTC
17Avril: 1740 - 2020 UTC
18 Avril : 1840 - 2125 UTC

Indicatif : KP4AO
Fréq émission: 432.045 MHz
Fréq réception: 432.050 to 432.060+
Puissance : 400 W
gain Antenne: 60 dBi

KP4AO peut être entendu avec une petite yagi tenue à la main, pointée sur la lubne et un bon récepteur.
Une antenne de 15 dBi et 100 W suffisent pour contacter la station en CW.

Les opérateurs KP4AO feront leur possible pour contacter un maximum de stations . Chaque ession démarre par une annonce brève et CQ en SSB? La SSB durera pendant 30 minutes , si le nombre de QSO est suffisant, avant de

passer en CW.
Nous écoutons 5-15 kHz au dessus et plus si QRM.
Les appelants qui changent de fréquence ont de meilleures chances de nous contacter.
Si vous nous avez contactés sur un mode, merci de ne pas nous rappeler.
Si nous lançons "CQ QRP", , c'est à destination des stations de moins de 100 watts, dans une simple yagi.
Si vous avez plus, merci d'attendre un autre tour.
Le 18 avril, fonction du nombre de stations dans le log, nous passerons en JT65B.
Le planning peut changer en fonction des conditions de trafic.
Nous avons eu une chance inouïe d'avoir pu obtenir l'autorisation d'accéder au téléscope le plus grand du monde pour cette opération radioamateur.

SPECIAL EVENTS -

10/04/2010: On 10 April 2010 GB100GLD will be on the air to commemorate the first recorded SOS message from the Lizard Wireless Station, England (EU-005, WLOTA LH-1841). QSL via the RSGB Bureau. [GB2RS]

10/04/2010: Over the weekend 10th and 11th April 2010 GB2NOR will be on the air as part of the Norbreck Amateur Radio Rally in Blackpool, England (EU-005, WLOTA LH-1841). QSL via the Bureau. [GB2RS]

10/04/2010: Operators Jacques F5LON, Jean-Francois F6CNM, Nicolas F8FKD and Claude F9OE will activate TM4FFU from the French radio maritime coast station "Brest-Le Conquet Radio (FFU)" on "2010 Radio Maritime Day" between 1200z Saturday, 10th April, and 1200z Sunday, 11th April. Activity will be on 160/80/40/20/15/10 metres using CW only with 100W into a dipole and vertical. Suggested frequencies are (+/- 5 kHz): 1824, 3520, 7020, 14052, 21052 and 28052 kHz. QSL via F8FKD. [OPDX Bulletin]

10/04/2010: From 8am Saturday April 10th until 5pm Sunday, 11 April 2010, the call sign W0S will be operating from the steps of the Titanic Museum in beautiful downtown Branson Missouri. This event will commemorate the heroic efforts of Harold McBride and John "Jack" Phillips as they sat at the Marconi radio in the Titanic sending the first ever SOS. Jack perished while continuing to send the SOS. Harold was rescued and went on to operate the radio on the ship Carpathia until it reached dock. Thanks to their efforts, 706 people were rescued from

the Titanic when that mighty ship sank. Most contacts will be via phone, but there will be several amateurs operating with CW as they participate in this historic event. Frequencies: 3950, 7250, 14250 kHz and others. DX Stations: Please send your QSL card along with either one large style VALID IRC or at least $1 U.S. dollar. USA Stations: Please send your QSL card and a self-addressed stamped business size envelope (SASE) along with $1 or $2 dollars. All stations, please send your QSL requests to this address only: Rod Kittleman K0ADI, 604 Cascades Drive, Nixa, MO 65714, U.S.A. [ARRL]

11/04/2010: On 11 April 2010, GB4AFS will be on the air from the Norbreck Rally for the Air Formation Signals, in Blackpool, England (EU-005, WLOTA LH-1841). QSL via the RSGB Bureau. [GB2RS]

SIX METERS & UP -

Arecibo Observatory - KP4AO:
If you have a 70 cm rig and a small 70 cm yagi antenna, here's your chance for an EME QSO with the Areceibo Observatory in Puerto Rico:
In less that two weeks the Arecibo Observatory Amateur Radio Club will again put the 1000-foot radio telescope on the air for 432 MHz EME.
The scheduled times of operation are:
April 16: 1645 - 1930 UTC
April 17: 1740 - 2020 UTC
April 18: 1840 - 2125 UTC
Callsign: KP4AO
Tx Frequency: 432.045 MHz
Rx Frequency: 432.050 to 432.060+
Tx power: 400 W
Antenna gain: 60 dBi
System noise temp: 120 K (cold sky)
System noise temp: 330 K (when pointed at moon)
KP4AO can be heard with a small hand-held yagi pointed at the moon, and a good receiver. A 15 dBi antenna and 100 W will be enough to work us on CW.
Operators at KP4AO will do their best to work as many stations as possible. Each session will start with a brief announcement and CQ in

SSB. SSB QSOs may continue for 30 minutes to an hour, if the QSO rate remains high. The mode will be shifted to CW as soon as it is judged that higher QSO rates would result.
We will listen for calls at frequencies 5-15 kHz higher than our own, and even higher if QRM warrants. Callers who s-p-r-e-a-d o-u-t are more likely to be copied.
If you've already worked us in any mode, please do not call again -- give others a chance.
If we call "CQ QRP", we will listen for stations running 100 W or less to a single yagi. Please do not answer such a CQ if you are running more power or have a larger antenna.
On April 18, if we reach a condition where most calling stations have been worked, and we judge that operating in the digital mode JT65B would produce a higher QSO rate, we will switch to JT65B.
Note that any of these planned operating strategies may be changed as circumstances dictate.
We are extremely fortunate to have been granted access to the world's largest radio telescope for this amateur radio good-will event. We look forward to working as many stations as possible in the alloted time!

Hello Folks,

Kevan 2E0WMG is out camping again this year, with the following proposed activations.

Kevan is an ISWL member, so will count for the ISWL's Monitor award if heard or worked.

Lundy Island Activation

5th - 8th June 2010 Kevan 2E0WMG will be active from Lundy Island IOTA Ref EU-120. Operation will be on 80/40/20/17/15m SSB.

Herm Island Activation

11th - 17th June 2010 Kevan 2U0WMG/P will be active from Herm Island EU-114 . Operation will be on 80/40/20/17/15m SSB. QSL Via Home call 2E0WMG

Herm is quite interesting as there are no less than four WAB squares on the Island. North East WV48 North West WV38 South East WV47 and South West WV37.

Kevan (Like everyone who visits these Islands), may have restrictions as to where he can operate from, but is hoping to try and activate all the WAB areas on the Islands.

This trip is ahead of a possible larger scale trip there next year with a few others.

Vy 73 to all

François/F5JNE, Bill/NG3K,
In January, 2011, 27 to February 8, the Microlite Penguins DXpedition
Team will be heading to the South Orkney Islands, Antarctica, one of the
world's most wanted DXCC entities. As with all trips to the planet's
extremes, this DXpedition presents it's own unique set of logistic and
environmental challenges. But with our experienced ship, crew and team of operators we
aim to make this one of the most exciting and enjoyable DX events of the
year.

Operators are K9ZO, ND2T, 9V1YC, K0IR, N1DG, W3WL, N6MZ,

LOOKING AHEAD -

29/04/2010: Look for special event station 8J6DON to be active between 29 April and 5 May 2010 to celebrate the Hakata Dontaku Port Festival, Fukuoka-city, Fukuoka prefecture, Kyushu region, island of Kyushu (AS-077, JIIA AS-077-001, WLOTA LH-0963), Japan. The festival originates from the local custom dating back to the Heian period (13th century), called 'toka' or 'matsubayashi,' during which the local people praised the feudal lord on the occasion of New Year. It is said that the upper class people of Hakata walked around the town on their way back from the

castle. The word 'Dontaku' comes from the Dutch word 'Zontag', meaning holiday. The festival was first referred to as 'Dontaku' in the Meiji period (late 19th century) when the once-prohibited 'matsubayashi' was revived. Today it is celebrated as a citizens' festival and many people from in and outside Fukuoka city, including from overseas, get together on May 3rd and 4th to celebrate. The whole city eagerly awaits the start of one of the most exciting carnivals in Japan. QSL via the JARL bureau. [JJ1WTL/AC6IM]

Leonard H. Elster, VE3LA of Nepan, Ontario, Canada passed away 2 April 2010.

ZS8M/ZS1HF UPDATE: April 14

* With the SA Agulhas arrived <http://www.sailwx.info/shiptrack/shipposition.phtml?call=ZSAF> at Marion Island, the ZS8M website is also now in the public domain. Although very much under construction, it can be found here <http://www.zs8m.com/>. With limited internet access, it's conceivable Pierre will update when time permits.

March 19 from Pierre, ZS1HF/ZS8M

* In true tradition, we have an idiot pirating my callsign - ZS8M. Shame on you! Please note: ZS8M will only be operational from approx 15 May 2010. Before I get operational, I will notify you all once ready. Please do not entertain any idiot pirating my callsign before I make further announcements. My technical training is progressing well. The complete team gathers on Tuesday 23 March in Cape Town to start team training - fire fighting, first aid and cooking etc.

March 14, 2010 [OPDX]

Pierre informs that he is currently still very busy with some technical and team training. Training includes maintenance on the Wx equipment and hydrogen generator, with team training including fire fighting, cooking and first aid. The ship leaves Cape Town on April 8th, and he will arrive on Marion Island some 6 days later. The ship that take him there will unload food and cargo, and then leave 4 weeks later once the scientists have completed their work.

Once the ship and scientists leave, he will be on the air. Pierre tells that this is his first long voyage. He has sailed before, but on some of the SA Navy ships and usually on much shorter trips. On Marion Island, Pierre's job will be the resident radio and electronics technician for; HF, VHF, Wx station, Hydrogen generator, IT LAN, satellite system and all the other smaller systems that use 12 or 220V. He will be assisting the engineers with technical support. Pierre states, "One of the engineers will be writing her exam on the island, which will be a first for the island."

At it's annual board meeting at the Visalia (California) International DX Convention last weekend, the Northern California DX Foundation elected two new directors, W6SZN and K6MM, bringing the board compliment back to eleven members. W6OAT and K6ANP recently retired after many years of dedicated service to NCDXF.

Kip Edwards W6SZN Kip was a board member of NCDXF in the 80's. He is a Life member of ARRL, DXCC Honor Roll, 5BDXCC and 5BWAS. Kip has been on a number of DXpeditions including Rotuma, and Clipperton. He has also been past president of the Northern California Contest Club and is currently the secretary/ treasurer of the YASME Foundation. Kip is an attorney and resides at Kings Beach, Ca.

John Miller K6MM John is both an active DXer and very much into contesting as past President as well as secretary/treasurer of the Northern California Contest Club. John's other hobbies include antenna experimentation, music composition and Harley Davidson motorcycles. John and his wife live in San Jose. John is retired from a large corporate consulting firm.

Effective immediately, NI5DX is the QSL manager for the radio club
station in Martinique. The club call sign is FM4KA. All QSL requests
for contacts made with the club station in the past or in the future
should be sent to NI5DX. Buzz is waiting for past logs to be sent.
Cards will either be shipped to Buzz from Martinique or will have to be
printed. A very nice website for the club is available for viewing at

Northern California DX Foundation - Press Release 20 April 2010

At it's annual board meeting at the Visalia (California) International DX Convention last weekend, the Northern California DX Foundation

elected two new directors, W6SZN and K6MM, bringing the board compliment back to eleven members. W6OAT and K6ANP recently retired after many years of dedicated service to NCDXF.

Kip Edwards W6SZN Kip was a board member of NCDXF in the 80's. He is a Life member of ARRL, DXCC Honor Roll, 5BDXCC and 5BWAS. Kip has been on a number of DXpeditions including Rotuma, and Clipperton. He has also been past president of the Northern California Contest Club and is currently the secretary/ treasurer of the YASME Foundation. Kip is an attorney and resides at Kings Beach, Ca.

John Miller K6MM John is both an active DXer and very much into contesting as past President as well as secretary/treasurer of the Northern California Contest Club. John's other hobbies include antenna experimentation, music composition and Harley Davidson motorcycles. John and his wife live in San Jose. John is retired from a large corporate consulting firm.

Jan DJ8NK and Paul F6EXV are happy to announce their upcoming joint adventure as follows :
Callsign : TL0A (guest operation at Christian's station). 2 stations on simultaneously.
Dates : 13th to 26th of May
Modes : big emphasis on RTTY by Jan, and CW by Paul, Chris will continue his SSB operation and CW/RTTY from time to time after 26th of May.
Bands : 40 through to 6m, maybe some 80/160 (late in the season for low bands, plus it is the rainy season in TL with daily storms). Standard DX frequencies, always SPLIT.
QSL info : direct to qrz.com TL0A's address. Neither Jan nor Paul will be able to confirm any contact, so we repeat, QSL info is ONLY via TL0A.
We are unlikely to have internet access from the station.
There will be no online log.
This operation could not have taken place without Christian's full support, help and cooperation. We already want to thank him a lot for making this possible to happen. So see you from the Central African Republic.

Chris, TL0A, should definitively leave the Central African Republic in July 2010 and probably turn over to Niger (5U5U) next September.

REPUBLIQUE CENTRAFRICAINE
Jan DJ8NK et Paul F6EXV sont heureux de vous annoncer leur prochaine
aventure commune :
Indicatif: TL0A (opération en tant qu'invités de Christian/TL0A). 2
stations simultanément.
Dates : 13 au 26 mai
Modes : Grosse insistance sur le RTTY par Jan, et CW par Paul, Chris
continuera d'être présent en SSB et de temps en temps en CW/RTTY de temps en
temps après le 26 mai.
Bandes : 40 à 6m, peut être un peu de 80/160, mais il est tard en saison
et la saison des pluies en TL amène des orages quasi quotidiens.
Fréquences : Fréquences DX standard et Split.
QSL: directes à l'adresse qrz.com de TL0A .
Ni Jan ni Paul ne seront en mesure de confirmer de quelconques QSO, aussi
nous répétons, uniquement via TL0A.

Nous n'aurons malheureusement pas de liaison Internet ni de log en ligne.
Cette opération n'aurait sans doute jamais pu avoir lieu sans les efforts,
l'aide et la coopération de Christian.
Nous le remercions chaleureusement d'avoir rendu cette expédition

possible, aussi à bientôt depuis la République Centrafricaine.
Chris, TL0A, devrait quitter définitivement la République Centrafricaine en juillet prochain, pour retourner au Niger d'où il sera de nouveau 5U5U, à partir de Septembre.

Folks,
There is still a problem with the web order form, however you
can make it work correctly. In the last information table (see below)
there is a line that is labeled "Type in NA in the box". You must type
this in for the order form to complete. Failure to type this in and the
result is an error message and the order will not complete.

Some advice for posters: DO NOT USE YOUR SELECTION OF FONTS.
Your reader has his/her MUA set up for the font he needs for readability.
If you select a font for him/her, he may or may not be able to read it.
I cannot read Times Roman in small point sizes. Just let the font default.
I can read the font that appears in most posts because the poster does
not assume he knows better than I do what font(s) I can read.

Respect your reader, or lose him. I delete posts from F5NLQ unread.

That has got to be one of the most asinine posts I've ever
read. Since when is it my responsibility to format my posts using
large fonts just because you don't know how to control your own
e-mail client. Eudora has the ability to display posts in whatever
font and size you like. Go to Tools-Options-Fonts and make them as
big as you like.

Making sure you can read my posts has got to be one of my smallest priorities.

Hi Dave
Hope u well. Just for your info..Pierre ZS1HF is now on Marion Island. I have spoken to him on 20m and 40m. He is currently signing ZS8/ZS1HF until 12 May 2010. He is just waiting for the re-supply ship, the SA Aughulas to leave and then he will be using ZS8M. He is using the opportunity to set up antennas etc. I am not sure what antennas he will be using, but it wont be yagi type antennas due to antenna restrictions imposed by the government ... due to the island being a reserve and the tree huggers worrying about the bird life. The weather will also be a factor due to the prevailing winds that tend to blow any antennas to pieces. I am hoping he will be erecting some vertical antennas..I know he was trying to get hold of a SteppIR vertical. He has a Icom Transceiver (not sure what model) and an amp capable of running about 500 watts I believe. I am now also in touch with him on Skype.
I will keep you informed.

GMFF team will be working as GB8RUM from the Isle of Rum (GMFF-058) from 30th April until 3rd May, 2010. We have received an official permission to visit this island from Ms. Sarah Bentley, the SNH Operational Manager of the Rum National Nature Reserve. On 26th March, 2010 we have received an Ofcom Notice of Variation of an amateur radio full licence authorising the use of the GB8RUM special call sign from the island during our DX-pedition.

The Isle of Rum is the largest of the Small Isles, and the fifteenth largest Scottish island, but is inhabited by only about thirty or so people, all of whom live in the village of Kinloch on the east coast. The island has been inhabited since the 8th millennium BC and provides some of the earliest known evidence of human occupation in Scotland. There is a spectacular array of internationally important habitats. A range of heaths from wet and dry to montane cloak the hillsides and mountain tops. Unusual grasslands, influenced by metals in the soil, fens, blanket bogs, lochs and lochans all contribute to this rich open ground habitat mosaic.

Our team consists of Jurij, MM0DFV and Alan, GM4TOQ. The portable station will be located on the top of the hill of Coire Dubh. We will be fairly high up though still a bit sheltered, we are not too far from the village of Kinloch if we want to come down for provisions, and there's a good eastward line of sight so it seems a good spot to transmit from. The most important location references are - OS National Grid Reference: NM388978; WAB Square: NM39; Grid Locator: IO66UX; Latitude: 56?59'51''N; Longitude: 06?18'07''W; IOTA: EU-008 (Inner Hebrides); IOSA: NH02; SCOTIA: DI20; EU Area: SC17 (Highland). We will be working CW, SSB, and BPSK63 on all bands from 3.5 MHz to 28 MHz. The QSL-manager is MM0DFV.

SPECIAL EVENTS -

29/04/2010: Look for special event station 8J6DON to be active between 29 April and 5 May 2010 to celebrate the Hakata Dontaku Port Festival, Fukuoka-city, Fukuoka prefecture, Kyushu region, island of Kyushu (AS-077, JIIA AS-077-001, WLOTA LH-0963), Japan. The festival originates from the local custom dating back to the Heian period (13th century), called 'toka' or 'matsubayashi,' during which the local people praised the feudal lord on the occasion of New Year. It is said that the upper class people of Hakata walked around the town on their way back from the castle. The word 'Dontaku' comes from the Dutch word 'Zontag', meaning holiday. The festival was first referred to as 'Dontaku' in the Meiji period (late 19th century) when the once-prohibited 'matsubayashi' was revived. Today it is celebrated as a citizens' festival and many people from in and outside Fukuoka city, including from overseas, get together on May 3rd and 4th to celebrate. The whole city eagerly awaits the start of one of the most exciting carnivals in Japan. QSL via the JARL bureau. [JJ1WTL/AC6IM]

SILENT KEY. It is sad to report that well-known DXer and doctor Vince Thompson, K5VT, became a Silent Key (SK) at the age of 67, 11:30 AM Saturday, April 24th. He was diagnosed with acute myeloid leukemia (M5) four weeks ago and has been in the hospital since early March. Vince will not only be remembered as a great doctor, but as an avid DXer who was on many DXpedition teams and activated many rare locations.

Hi Dave
Hope u well. Just for your info..Pierre ZS1HF is now on Marion Island. I have spoken to him on 20m and 40m. He is currently signing ZS8/ZS1HF until 12 May 2010. He is just waiting for the re-supply ship, the SA Aughulas to leave and then he will be using ZS8M. He is using the opportunity to set up antennas etc. I am not sure what antennas he will be using, but it wont be yagi type antennas due to antenna restrictions imposed by the government ... due to the island being a reserve and the tree huggers worrying about the bird life. The weather will also be a factor due to the prevailing winds that tend to blow any antennas to pieces. I am hoping he will be erecting some vertical antennas..I know he was trying to get hold of a SteppIR vertical. He has a Icom Transceiver (not sure what model) and an amp capable of running about 500 watts I believe. I am now also in touch with him on Skype. I will keep you informed.

KH5 - Founded by Eric Scace (K3NA) and Carsten Esch (DL6LAU) in 2007, Radio Expeditions, Inc is a permanent, non-profit organization of volunteers whose first project was the 2008 VP6DX record breaker expedition to Ducie Island. The second project is a DXpedition to Jarvis Island (OC-081), which is planned to take place between 17 November and 1 December (depending on weather and sea conditions). The dates were chosen to maximize propagation openings on both low and high bands to Europe. A large group of operators will staff 12 stations on CW, SSB and RTTY on 160-6 metres. Applications for the required government permits have been submitted to the US Fish & Wildlife Service. No individual contributions are being solicited until the permits have been received. GB2HFF is a Special Event station operating from Holmfirth Festival of Folk, Holmfirth, Yorkshire, England, by myself Andy M0GGR and Chris 2E0XLG.

The event is an annual celebration of traditional music, dance and arts and features live music, dance performances and sessions throughout the town and in the local public houses of Holmfirth over the event weekend.

Our station will be QRV from 6th - 9th May 2010 inclusive and will be operating on an 'as and when' basis depending on conditions. Due to the location, in a camp site at the bottom of a steep valley, we will concentrate mainly
on low band NVIS, 160, 80 & 40m. We hope to work as many stations as possible under the given conditions so if you hear us give us a call . . . If we hear you we
will reply.

QSL manager for the the event is Chris . . . 2E0XLG . . . Direct QSL only at the moment. Please include return postage, IRC, etc for direct QSL.

Hi friends
For about ten years I've managed the DX list of the Union Française des Télégraphistes, UFT.
Due to some personal reasons, I cannot continue to maintain it active.
Several months ago, I've asked to my Society , the UFT, to search an assistant who could continue alone after several months with me, with no results.
So with a big sadness, I have to inform you that I have to stop to organize and to put aside, the DX information list for a long while .
It will be effective on May 2010, 4th.
Along these years, it was always a great pleasure to inform you and If sometimes I've helped you to enhance your DXCC or other diplomas it was my reward.
I hope to be able to continue to do some ham traffic in the future, so if one day you hear me on the bands, thank you for your calling me

Maurice, F5NQL

Bonjour les amis
Pendant environ dix années j'ai assuré la rédaction et la diffusion de la liste bilingue d'info DX de l'Union Française des Télégraphistes, UFT.
Pour des raisons personnelles je ne peux plus continuer à la maintenir active.
Il y a plusieurs mois, j'ai demandé à l'UFT, de me rechercher un remplaçant qui aurait pu la reprendre seul , éventuellement après quelques mois en tandem avec moi. Cette recherche n'a donné aucun résultat.
Je vous informe donc avec une très grande tristesse de la mise en sommeil de la liste d'informations DX de l' UFT .
Ce sera effectif le 4 mai 2010.
Au long de ces années, ce fut toujours pour moi un grand plaisir de vous informer et de transmettre vos propres informations. Si parfois j'ai j'ai pu vous permettre d'améliorer votre DXCC ou d'autres diplômes , ç'aura été ma récompense.
J'espère malgré tout pouvoir à l'avenir continuer à trafiquer un tout petit peu. Si un jour vous m'entendez sur les bandes, merci de m'appeler.

They plan to operate CW, SSB, PSK and RTTY on HF bands (WARC included) with 100 watts and vertical antennas. QSL via home calls. Note: QSL cards will be printed within 3 months after DXpedition. [DE0MST]

13/05/2010: Operators Curt/W3HQ and Don/VK2DON will be active as FK/W3HQ from Ile Lifou (DIFO FK-012, WLOTA LH-0578), Loyalty Islands (IOTA OC-033), between 13-16th May. Their activity will be on 40/30/20 metres using CW only. QSL via W3HQ (QRZ.com). [OPDX Bulletin]

13/05/2010: Jan, DJ8NK and Paul, F6EXV will be active from the Central African Republic on 13-26 May 2010. They will be guest operating as TL0A from Christian's QTH (WW Loc. JJ95DS), and will concentrate on RTTY (Jan) and CW (Paul) with two stations. Look for them on 40-6 metres, with some possible activity on 80 and 160 metres (but it is "late in the season for low bands, plus it is the rainy season in TL with daily storms", Paul says). They are unlikely to have Internet access from the station and there will be no on-line logsearch. QSL direct to Christian Saint-Arroman, Chemin de Mousteguy, 64990 Urcuit, France (please note that neither Jan nor Paul will be able to confirm any contact). Chris, TL0A expects to leave definitively the Central African Republic in July and probably go to Niger (5U5U) next September. [425 DX News]

LOOKING AHEAD -

15/05/2010: Look for special event station 8N5T will be activated between 15 May and 15 June 2010 for the 2010 Shikoku(-district) Information Telecommunication Month (T: Tosa, an old name of Kochi, one of four prefectures in Shikoku), Shikoku region, Kochi prefecture, island of Shikoku (AS-076, JIIA AS-076-001, WLOTA 2015). QSL via the JARL bureau. [JJ1WTL/AC6IM]

15/05/2010: Tomi, HA4DX will take part in a sailing trip on the Tyrrhenian Sea (part of the Mediterranean Sea off the western coast of Italy) with a yacht on 15-22 May 2010. On the sea he will operate as HA4DX/mm. He will visit and operate from the following islands: 15 May from Elba Island (EU-028, IIA LI-001, MIA MI-022, WLOTA 0609) as IA5/HA4DX; 16 May from Capraia Island (EU-028, IIA LI-020, MIA MI-013, WLOTA 0545) as IA5/HA4DX; 17-18 May from Corsica Island (EU-014, DIFM TK-001, MIA MCO-001, WLOTA 1390); 19 May from Giraglia Island (EU-164, DIFM TK-007, MIA MCO-006, WLOTA 0511); and 20 May from Elba Island (EU-028, IIA LI-001, MIA MI-022, WLOTA 0609). Tomi will use a TS450SAT and vertical antennas. QSL via home call, bureau or direct. [HA0HW]

08/06/2010: John, K9EL will be in French St. Martin (NA-105, DIFO FS-001, WLOTA 0383, Grid Loc. FK88) from 8-17 June 2010 on a family vacation and will be operating whenever possible as FS/homecall. He will be using an IC7000 and verticals for 80-6 metres plus he will try to bring a yagi for 6m. QRV using CW, SSB and RTTY. QSL via home call, bureau cards OK. [K9EL]

09/06/2010: John, KB4CRT (SMIRK #4732) will be active as VP2MRT on 9-19 June 2010 from Gingerbread Hill, St Peters Parish, the island of Montserrat (NA-103, WLOTA 1475, WW Loc. FK86VS). QRV 40-2 metres using QRO 100w, QRP 5w, HFpack 5w or 10w. He plans to operate CW, SSB and maybe PSK and to participate in the ARRL June VHF QSO Party (12-14 June). Occasional internet for skeds at: vp2mrt2010 -at- windstream.net

. QSL direct to home call; No eQSL! Logs will be uploaded to LoTW. [NG3K]

10/06/2010: Dennis, K7BV will head back to San Andres Island (NA-033, ARLHS SAP-002, WLOTA 2990, WW Loc. EK92DM) for a third time in June 2010 to see if the old saying "Three Times is a Charm" is really true. He will again have the new M2 6M8GJ 8 element 42' boom yagi. That yagi combined with a functional KW amplifier will ensure that many more of the Deserving put this DXCC entity in their log. The two openings to Europe last year with only 100 watts convinced me coming back in 2010 was a must-do. QRV as 5J0BV on 10-21 June 2010, with focus on the 6 metre band. HF activity will also be possible. Equipment will be Yaesu FT-950, Yaesu FT-450AT, ACOM - HF/6, HF - Wire & Vertical, 6M - 8el 42.5' boom. 6M - Breakable Beacon 50.106.2 MHz - "CQ de 5J0BV K"; WSJT MS Random CQs 1st-50.260 MHz; WSJT EME JT65A 1st 50.198.5 MHz. Every June, the Yosakoi Soran Festival is held. The sites of the festival are centered in the Odori Park and the street leading to Susukino, but other festival sites also exist. In the festival, many dance teams dance to their music which are composed based on a Japanese traditional song, Soran Bushi. Members of the teams wear special costumes, and compete their dancing skills on the roads or stages constructed on the festival sites. QSL via the JARL bureau. [JJ1WTL/AC6IM]

06/05/2010: Special event station GB2HFF will be active 6-9 May 2010 from the Holmfirth Festival of Folk, Holmfirth, Yorkshire, England (EU-005, WLOTA LH-1841). Operators will be Andy, M0GGR and Chris, 2E0XLG. QRV mainly on the low bands - 160, 80 and 40m. The event is an annual celebration of traditional music, dance and arts and features live music, dance performances and sessions throughout the town and in the local public houses of Holmfirth over the event weekend. QSL via 2E0XLG, direct only with return postage, IRC, etc. [Pete's-DX-Newsdesk]

06/05/2010: Special event station 8J4BARA will be aired on 6-16th May 2010 for the Fukuyama City Bara (or Rose) Festival, Hiroshima prefecture, Chugoku region, island of Honshu (AS-007, JIIA AS-007-001, WLOTA LH-2376), Japan. In the middle of May, when the roses across the city begin to bloom, a variety of events are held, primarily at the Rose Park and Midori-machi Park. These events include a rose contest, flower arrangement, a rose music festival, a plaza festival and a rose parade. QSL via the JARL bureau. [JJ1WTL/AC6IM]

07/05/2010: Morse town 100th anniversary 1500z 7th May to 2000z 9th May 2010 - GACW members activity from MORSE (WW Loc. UFT DX INFO LIST -
Hi friends

For about ten years I’ve managed the DX list of the Union Française des Télégraphistes, UFT.

Due to some personal reasons, I cannot continue to maintain it active.

Several months ago, I’ve asked to my Society, the UFT, to search an assistant who could continue alone after several months with me, with no results.

So with a big sadness, I have to inform you that I have to stop to organize and to put aside, the DX information list for a long while.

It will be effective on May 2010, 4th.

Along these years, it was always a great pleasure to inform you and If sometimes I’ve helped you to enhance your DXCC or other diplomas it was my reward.

I hope to be able to continue to do some ham traffic in the future, so if one day you hear me on the bands, thank you for your calling me.

Romania amateurs gain access to 70MHz -
All radio amateurs in Romania can now apply for access to the 70MHz band. They can run up to 20 watts output between 70 and 70.3MHz on a Secondary basis with a maximum emission bandwidth of 12.5kHz. It is understood that individual requests must be made to the regulator prior to operation. [RSGB]

May and June will be the last chance for anybody to work GB50ATG, the Golden Jubilee station representing the British Amateur Radio Teledata Group, BARTG. For both May and June the station will be operated by Arthur Bard, G1XKZ. Arthur will be very active during the last two months so look for him on all HF bands. Special QSL cards will be available and also plaques and certificates for reaching certain targets. The special call will cease operations on 30 June. Arthur will try to use both RTTY and PSK for those that would like contacts on both modes. QSL direct to M5AEX (QRZ.com). [GB2RS]

Folks,
I have made a change to the order system on the web site.
I have added a shopping cart system that uses a PayPal interface
for your orders and renewals
When you log onto the http://golist.net/ click on the GOLIST STORE
link of the left side of the home page. This will open the GOLIST STORE
and you can find all the products/services I now offer .
Check it out and give me some feedback. I want the new Store to be
non-confusing and easy to use.
Thanks
John K1XN

Fred F5OZK, Paul F8DVT, Christian F8HJV will be TM5KD from
Levant island (IOTA EU070, DIFM ME12) from May 13 to 15.

Arnault F4GAJ will use the special call as TM6OVE from June
5 to 19 to commemorate the Overlord Operation on June 6
1944. QSL F4GAJ direct or bureau.

Jacky 3B8CF (secretary of Mauritius Amateur Radio Society (MARS)"
inform us that the station 3B8BOA and/or 3B8/F4BOA is illegal.
The real owner F4BOA confirm that he was never active
from Mauritius.

Best wishes

Campbell Island expedition TX059 in Parker County on the Brazos River is planned
to be first activated and attempted qualified during a joint expedition by the
Amateur Radio Club of Parker County W5PC and the Tri-County Amateur Radio Club
of North TexasWC5C for May 22, 2010, operating as W5PC. A commemorative QSL card
will be sent to each contact, paper qsl is requested. The island should be QRV
with one or more radios by 1400UTC on May 22, and continue into the wee hours of
May 23.
Campbell Island is near the City of Weatherford, Texas.
The group will approach the island in their traditional fashion, by canoe and
kayak. Will attempt 14.250 plus or minus and 14.340 plus and minus are areas to
look for 20M, but will be equipped to work all HF bands. Sked requests will be
considered and attempted, QSY requests for contact via any relay will be
considered and attempted. Look for us on 7.250 during the operation, and maybe
around 3.950 later in the afternoon and evening. Higher bands will be checked
and attempted.
PSK31 is possible, as well as phone and CW contacts.
Look for us on APRS as W5PC.

LATEST NEWS FROM THE DX SUMMIT DESK OF RADIO ARCALA

A small group of people noticed the soft launch of the first in a series of two-way communications with the renowned DX Summit of OH8X, allowing masses of people to specify their desired information out of the DX data flow after registration. As it was expected that the system might face some kind of a bottleneck, given a sudden surge of traffic, a total of 500 users were taken onboard in the first wave. This number of users came in just a moment after the service was opened. The soft launch was successful and now at 1000 UTC, May 15, 2010 on the hour of the Dayton DX Dinner the function will be opened for an unlimited number of users - welcome on board at www.dxsummit.fi

Now that we have the needed platform and capacity, we will be seeking new application ideas. Please note that there is a new discussion forum at the above address thrashing out and seeking new application ideas - this forum is monitored by the software folks of Radio Arcala.

NEWS OF RADIO ARCALA'S EXTENDED MEMBERSHIP

While radio contesting represents the spearhead of Radio Arcala activities as a showcase of another "Extreme Sport", their innovation base runs much deeper. It includes bringing Amateur Radio into the Internet in a new way but also bringing the Internet into the core of Amateur Radio with the aim of revitalizing Amateur Radio among today's youth. Also the sights are set on remote control technology which represents a welcome option for new communities to establish a remotely controlled station. Radio Arcala's three locations are now remotely operable by their membership. They are busy partnering with those entities that can handle and productize needed components for a remote system; see OM Power Internet controlled amplifiers as well as Microbit remotely controlled radio devices at www.om-power.com

Radio Arcala is pleased to have seven gentlemen and fine operators to boost Radio Arcala's several innovation ideas and radio competitions as well as their presence in the IARU community in the Azores, USA, Japan, Germany and Sweden respectively.

Hans Blondeel Timmerman, PB2T is joining Radio Arcala in their mission of revitalizing Amateur Radio with a youth dimension. Hans is President of IARU Region I and President of EUDXF - not a stranger to operating radio in the heat of competition.

Mike Styrefors, SM2O is an expert of IP controlled radios and accessory applications. Mike is a developer of natural taste and straight driven radio controllers with no PCs involved. Next in line is a S/W driven radio and making two contest-graded radios talk to each other over the Web; see http://remoterig.com/

Jose Melo, CU2CE, is the original founder and host of CR2X/CU2A operations from the Azores. He is a 160M powerhouse and always ready for a good Top Band run but also an asset for making sure that the operator in motion feels comfortable and can enjoy an uninterrupted run. Jose is busy with his bank's wealth management operations and rarely gets home for sunset openings.

Francisco Gil, CU2DX, knows how to get his own super-station up to satisfy his professional telecoms appetite, and you just cannot miss his huge 80M beam along the highway. Call Francisco and there will be an immediate solution to everything with a smile! Francisco likes contesting as it ties in well with his analytical approach. Now back on his island of origin, Francisco is in charge of real-estate development.

Jeff Steinman, N5TJ, three-time WRTC winner and current holder of both CW and SSB SOAB World Records for CQWW will return now to the European scene. Jeff is a telecoms professional, based in Texas but now working for a telecom company with HQ in Northern Europe.

Carsten Esch, DL6LAU will bring RTTY activity to Radio Arcala, and both CR2X and OH8X will soon hit the digital front. Carsten is a multi-talented contester and seasoned visitor to the North and resonates well with the harsh life and frozen landscapes of the Far North.

Kazunori Watanabe, JK3GAD will activate OH8X in Asian-based contests, such as the All Asia and JDX contests, adding a Japanese flavor to the OH8X signal and into the hearts of his countrymen and Japanese media. Kazu is a seasoned traveler and comes from the fine AH2R team.

Radio Arcala is pleased to have these people joining its ranks in many interesting endeavors.

Please take note of the Radio Arcala mission, their member roster and station locations at www.radioarcala.com Two of their members, Toni, OH2UA and Pasi, OH6UM - Finland's WRTC captains - were interviewed today at http://www.helsinki.fi/~korpela/PU/PU.html

OH8X will again be active in the CQ WPX Contest SOAB operated by Toni, OH2UA.

"Islands, Castles & Portable Operations"
Listing is by calendar date (day/month/year)
==========

D2 - ANGOLA - Andrew, G7COD has been issued with the callsign D2AK and will be operational nearly every day from the Ilhe Do Cabo, Luanda, the capital of the Republic of Angola from the 7th May 2010 for the next 12 months, while on a work assignment there. Expect transmissions to take place throughout both day and night with no fixed times on 80 to 10 metres, including WARC frequencies, using SSB and CW. Working conditions are an Icom IC7000, 100 Watts output, MFJ 929 Auto Atu and Inverted Vee. SSB: 7.063 MHz, 14.190 MHz, 18.133 MHz, 21.253 MHz, 24.953MHz and 28.500 MHz. CW: 3.503 MHz, 7.003 MHz, 10.103 MHz, 14.003 MHz, 18.073 MHz, 21.003 MHz, 24.893 MHz and 28.003 MHz (+/- to allow for QRM). QSL via G7COD, direct only (Andrew Kitchen, 4 Dairy Cottage, Newton Hall Farm, Bank Newton, Skipton, North Yorkshire, BD23 3NT, England - U.K.). For comprehensive details, please check D2AK on QRZ.com.
[Pete's-DX-Newsdesk]

F - LEVANT ISLAND - Fred F5OZK, Paul F8DVT, Christian F8HJV are now QRV as TM5KD from Levant Island (IOTA EU-070, DIFM ME-012, WLOTA 1083) until 15 May 2010. Expect activity on the HF bands, on or near the usual island and IOTA frequencies. QSL via F5KKD. [LNDX]

13/05/2010: The Modena DX Italy Team (www.modxit.it/) is organizing a new DXpedition to Sveti Nikola Island (EU-110, ACIA IC-516, IOCA CI-118, MIA MC-414, WLOTA 3152, WW Loc. JN65TF) on 13-17th May 2010. Operators and callsigns will be Sergio 9A/IZ4BBF, Augusto 9A/IK4RQJ and Tony 9A/IK2SNG. They plan to operate CW, SSB, PSK and RTTY on HF bands (WARC included) with 100 watts and vertical antennas. QSL via home calls. Note: QSL cards will be printed within 3 months after DXpedition.
[DE0MST]

13/05/2010: Operators Curt/W3HQ and Don/VK2DON will be active as FK/W3HQ from Ile Lifou (DIFO FK-012, WLOTA 0578), Loyalty Islands (IOTA OC-033), between 13-16th May. Their activity will be on 40/30/20 metres using CW only. QSL via W3HQ (QRZ.com). [OPDX Bulletin]

13/05/2010: Jan, DJ8NK and Paul, F6EXV will be active from the Central African Republic on 13-26 May 2010. They will be guest operating as TL0A from Christian's QTH (WW Loc. JJ95DS), and will concentrate on RTTY (Jan) and CW (Paul) with two stations. Look for them on 40-6 metres, with some possible activity on 80 and 160 metres (but it is "late in the season for low bands, plus it is the rainy season in TL with daily storms", Paul says). They are unlikely to have Internet access from the station and there will be no on-line logsearch. QSL direct to Christian

Saint-Arroman, Chemin de Mousteguy, 64990 Urcuit, France (please note that neither Jan nor Paul will be able to confirm any contact). Chris, TL0A expects to leave definitively the Central African Republic in July and probably go to Niger (5U5U) next September. [425 DX News]

13/05/2010: Fred F5OZK, Paul F8DVT, Christian F8HJV will be signing TM5KD from Levant Island (IOTA EU-070, DIFM ME-012, WLOTA 1083) on 13-15 May 2010. Expect activity on the HF bands, on or near the usual island and IOTA frequencies. QSL via F5KKD. [LNDX]

14/05/2010: Dale, BA4TB and Rene, DL2JRM along with BD4TT (YL), BD4TJ, BD4TR, BD4TQ, BD4QH, BG4TYQ, BG4TMM (YL) and BH4QAK will be activate Tantou Shan Island (AS-137, WW Loc. PL19AE), Xiangshan County in East China's Zhejiang Province, from 14-16 May 2010 on CW and SSB, maybe some digits. BA4TB and DL2JRM will be signing BA4TB/5, the others use homecall/5. QSL via homecall respectively. [BA4TB]

14/05/2010: Rick, K8GI will activate Middle Hooper Island (NA-140, USi MD016S, Dorchester County), State of Maryland, from 2200z 14 May to 1600z 16 May 2010, using the callsign K8GI/3. Expect activity on or near the usual island and IOTA frequencies. QSL via home call, bureau or direct. Logs will be uploaded to LoTW. [rsgbiota.org]

Hi folks,
Since the first of the year I have been making an abnormal amount of
Qsl Manager changes to the Golist GoData data files. Many of these changes
are due to the Qsl Manager becoming a Silent Key. Old timers like me are
checking out in large numbers it seems.
Although I make daily changes to the Online database and Golisters have
unlimited access to this data 24/7 it leaves a void for users of GoWin
and third
party Logging systems like DX4WIN, WINLOG32 and many others. Although I
make daily changes/updates to the Online database, I only send out a message
of a change when a large amount of data is updated.
Starting today, I will also be making daily changes to the data file
and uploading
it to the Golist download page for GoWin and Logging users. The file
number will
remain the same for the current week, but the date of the file will
change. It will not
be necessary for you to download each update as the weekly upload will
have all
the changes/updates included. I am doing this for those of you that are
very active
and want the latest info I have received. I will not change the data
file for the computer
each day, only as the data comes in. I will send out an Alert that I
have made a major
data update to the GoData file for GoWin as it happens. This should not
be a daily thing.
If you wish to download the data file daily, that is just fine, or you
may want to download
the file weekly and when the special alert is sent out.
The bottom line is.....the GoData file will change and be
uploaded to the download page
daily. Some of these changes will be minor, but some times it will be
major and I will alert these uploads to you.
You deserve the best information I can find and I am going to try to
have it for you daily.
Thanks to all of you for your continued support in this down period of
DXing.

I have just made and uploaded a new GoData computer
file for your GoWin program. This update has several new/changed
Qsl Manager information. The is a supplement upload to the current
release of the GoData data file for this week.
This Alert will only be issued when a large number of records are
affected by the daily information collected.

Using a special event call sign, 9A0GEO, founders of Croatian Flora Fauna Program (9A2MF, 9A2WJ, 9A6NDD, 9A6AA, ...) will be active during the event named Geoparks Communication Weekend, 22/23.05.2010 in order to bring awareness and importance of Croatia's first proclaimed beautiful Geopark "Papuk". The main goal will be to establish contacts with other radio stations around Europe and the world from bases set up in or around Geoparks. The main transmitting freq's to be used are 3.680, 7.080, 14.180, 21.180, and 28.180MHz.
Look for 9A0GEO on the main freq's but also on other bands on CW and PSK31.
QSL's are welcome via 9A2MF (via bureau).

I would like to inform that I am slowly uploading my QSOs as EA6/LU5FF
from Baleares islands, to eQSL and LOTW.
Those contacts were logged on paper and they are close to 10.000 QSOs,
if you are in a hurry to confirm these QSO's via LOTW or eQSL you
would have to send me an email request to lu5ff@...
<mailto:lu5ff@...>.
Paper QSLs will be handled only via EA5KB.

Thanks again -

I have just made and uploaded a new GoData computer
file for your GoWin program. This update has several new/changed
Qsl Manager information. The is a supplement upload to the current
release of the GoData data file for this week. This update will differ
by the date of production and not by file name.
This Alert will only be issued when a large number of records are
affected by the daily information collected.

I have just made and uploaded a new GoData computer
file for your GoWin program. This update has several new/changed
Qsl Manager information. The is a supplement upload to the current
release of the GoData data file for this week. This update will differ
by the date of production and not by file name.
This Alert will only be issued when a large number of records are
affected by the daily information collected.

For the first time *GM4FFF <http://www.qrz.com/db/GM4FFF>* will be working from *Flanders Moss* National Nature Reserve (*GMFF-024*) on *29th* and *30th May, 2010*. Flanders Moss National Nature Reserve (NNR) <http://www.snh.org.uk/peatforpeople/improve_flanders_resource.asp> is one of the largest areas of relatively undisturbed lowland raised bog in the European Community. Because of its natural heritage importance, it has been designated a European Special Area of Conservation (SAC) <http://www.jncc.gov.uk/page-23> and a Site of Special Scientific Interest (SSSI) <http://www.snh.org.uk/about/ab-pa01.asp>. Quite simply, it is probably the biggest and best remaining raised bog in Western Europe. It is one of the last remaining natural landscapes in Scotland and is home to many plants, insects and birds. It also tells a fascinating story of the social and cultural history of people living in this part of Scotland. There is much to interest people. Our team consists of *MM?DFV*, *GM?WRR*, and *GM?EZP*. We are going to contact the reserve's manager to make sure that we can have a place over there to stay overnight. The most important location references are - WAB Square: *NS69*; Grid Locator: *IO76VD*; Latitude: 56?09'12''N; Longitude: 04?10'39''W; IOTA: *EU-005*; EU Area: *SC30* (Stirling <http://en.wikipedia.org/wiki/Stirling_%28council_area%29>). QSL-manager is *MM?DFV <http://www.qrz.com/db/MM0DFV>*.

01/06/2010: From 1st to 30th June 2010 our club is organizing the "EPC Fourth Year Celebration Month" (EPC FYCM). There will be many special event stations working with the "EPC" suffix from all over the world. We are looking for EPC operators in various countries to apply for the special event station call signs locally to be active during the June, 2010. Please contact us if you are willing to apply for such special event call sign in your own country so that we can make an accurate list of all the participating stations beforehand, and inform PSK enthusiasts all over the world through various DX news resources including our own website. The only requirement is that the suffix of the special event station must be "EPC", such as GB1EPC, GB0EPC, etc. Please don't concern regarding the QSL design and printing expenses, our club will do that. Even if you don't have a QSL manager, we can offer you our help.

We plan to issue a special series of EPC awards for contacts made with EPC club and special event stations from 1st to 30th June 2010. This will be the 4th anniversary celebration of the European PSK Club with more than 11000 members at that time. Please contact us as soon as possible if you wish to run an EPC special event station in June 2010 since it's going to be a great event amongst PSK enthusiasts. For the first time GM4FFF will be working from Flanders Moss National
Nature
Reserve (GMFF-024) on 29th and 30th May, 2010. Flanders Moss National
Nature
Reserve (NNR) is one of the largest areas of relatively undisturbed lowland
raised bog in the European Community. Because of its natural heritage
importance, it has been designated a European Special Area of
Conservation (SAC)
and a Site of Special Scientific Interest (SSSI). Quite simply, it is

probably
the biggest and best remaining raised bog in Western Europe. It is one
of the
last remaining natural landscapes in Scotland and is home to many plants,
insects and birds. It also tells a fascinating story of the social and
cultural
history of people living in this part of Scotland. There is much to
interest
people. Our team consists of MM?DFV, GM?WRR, and GM?EZP. We are going to
contact
the reserve's manager to make sure that we can have a place over there
to stay
overnight. The most important location references are - WAB Square:
NS69; Grid
Locator: IO76VD; Latitude: 56?09'12''N; Longitude: 04?10'39''W; IOTA:

THE NETHERLANDS, SPECIAL EVENT STATION
Frans,PC2F, will activate the special callsign PC100AR from May 29
until Jun 26. This call stands for 100 years Alfa Romeo. Frans is
collecting everything by Alfa Romeo and so it was clear for him to
activate a special callsign for this anniversary. The QSLs will be
printed after Jun 26 and can be requested via bureau or direct or eQSL.

DXCC: Once again you will have the possibility to use the DXCC field check
at the ARRL booth on the HAM RADIO fair in Friedrichshafen.

SILENT KEY: The wellknown DXer and DXpeditioner Jakob Laib,HB9TL (VK6CTL),
passed away on Apr 24, at the age of 82. Jakob was Honor Roll #1 member
of the DXCC and among others he activated also the neutral zone (mean-
while deleted) in former years.

PIRATE: ZK3T was ative in CW in December 2009 and announced DK8JB as his
QSL manager. After the first QSLs have arrived DK8JB states that he
cannot answer those requests because this wwas the work of a pirate.

LINKS: Current SOTA activities (mountain summits) are announced at:
http://www.sotawatch.org

Detailed information about current VHF activities can be found on the
VHF DX portal "Make More Miles on VHF" at: http://www.MMMonVHF.de

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, NC1L, KH6BZF, A35A and various sources for the following DX information.

3C9B AND 3C0C DXPEDITION (Update). Dates have been announced for the upcoming Bioko Island (AF-010), Equatorial Guinea, and Annobon Island (AF-039) DXpedition. Both operations will only be manned by two Spanish operators. Operators mentioned are: Elmo/EA5BYP (SSB and RTTY) and Javi/EA5KM (CW and SSB). The team is expected to leave Thursday, June 3rd, for Bioko Island, and be on the air the very next day as 3C9B. Activity will last until June 7th. They state, "We will spend as much time as possible on the radio. There we will pick up our supplies to live on the island of Annobon for 14 days." The operators also mention that (edited) "they have undertaken a great effort, both physical and financial, in preparing this DXpedition, but unfortunately, for reasons beyond our control, we have been unable to go in April." Look for activity to be on 160-6 meters using CW, SSB and RTTY. The team states (edited), "We know the importance of an activation on 160m from the island of Annobon." Suggested frequencies are:
CW - 1830 (Asia/Oceania RX 1820-1825), 1832 (Europe RX 1835-1840 and North/South America 1833-1835), 3524, 7024, 10115, 14024, 18071, 21024, 24892, 28024 and 50104 kHz
SSB - 1850, 3790, 7065/7165, 14195, 18140, 21275, 24940, 28475 and 50140 kHz
RTTY - 3582, 7038, 10140, 14082, 18102, 21082, 24922 and 28082 kHz

The team will have three HF stations, but will only have two stations on the air. Antennas to be used are: Spiderbeam (20/17/15/12/10m), 80 meter vertical, 160 meter Inverted L, Cushcraft 5 element yagi on 6m and SteppIR (80-6m). They will also use beverages and K9AY for RX on the lower bands. During their operation from Annobon Island, they will not have an InterNet connection, so the logs will be published after their DXpedition. QSL via EA7FTR. For more details and updates on the 3C0C and 3C9B DXpeditions, visit the Web page at: http://www.3c0c-annobon.com

A3, TONGA. Paul, A35A (A35RK), informs OPDX that David Lee, W6ZL, arrived on Tonga last week. He reportedly skippered the "SV Summer Sky" from New Zealand to Nuku'alofa. He brought his K3 and a Buddipole antenna. He renewed his A35KL license. He is on Tongatapu (OC-049) right now. No QSNs have been reported yet, but Paul hopes to see him on Ha'apai (OC-169) in a week or so. He's bringing Paul repair parts, so he hopes to be active again soon.

Effective immediately, Buzz, NI5DX, is the QSL manager for A41OO, Khalid.
QSL cards will need to be designed and printed and logs transferred.
It will be 6-8 weeks before the new cards are at NI5DX's QTH. It is hoped
that A41OO may be able to ship some of his current cards for Buzz to use
until the new cards arrive, but this is not certain.

08/06/2010: Elmo EA5BYP and Javier EA5KM will be active from Annobón Island (IOTA AF-039, WLOTA LH-0174) on 8-20 June 2010 as 3C0C. QRV 160-10 metres, using CW, SSB and RTTY, with an emphasis on the low bands

and CW. QSL via EA7FTR, direct or bureau. Further information will be available at: www.3c0c-annobon.com/ [NG3K]

08/06/2010: John, K9EL will be in French St. Martin (NA-105, DIFO FS-001, WLOTA 0383, Grid Loc. FK88) from 8-17 June 2010 on a family vacation and will be operating whenever possible as FS/homecall. He will be using an IC7000 and verticals for 80-6 metres plus he will try to bring a yagi for 6m. QRV using CW, SSB and RTTY. QSL via home call, bureau cards OK. [K9EL]

08/06/2010: Andrea, IK1PMR and Claudia, PA3LEO will be active as PJ7/homecall from Sint Maarten (NA-105, WLOTA LH-0711) on 8-12 June 2010. QRV holiday style, with 100W and focus on the WARC bands. Andrea will be on CW, while Claudia works RTTY. QSL via PA3LEO, direct or OQRS (see QRZ.com). [NG3K]

09/06/2010: Dennis, K7BV (SMIRK #6680) will head back to San Andres Island (NA-033, ARLHS SAP-002, WLOTA 2990, WW Loc. EK92DM) for a third time in June 2010 to see if the old saying "Three Times is a Charm" is really true. He will again have the new M2 6M8GJ 8 element 42' boom yagi. That yagi combined with a functional KW amplifier will ensure that many more of the Deserving put this DXCC entity in their log. The two openings to Europe last year with only 100 watts convinced me coming back in 2010 was a must-do. QRV as 5J0BV on 9-23 June 2010, with focus on the 6 metre band. HF activity will also be possible. Equipment will be Yaesu FT-950, Yaesu FT-450AT, ACOM - HF/6, HF - Wire & Vertical, 6M - 8el 42.5' boom. 6M - Breakable Beacon 50.106.2 MHz - "CQ de 5J0BV K"; WSJT MS Random CQs 1st-50.260 MHz; WSJT EME JT65A 1st 50.198.5 MHz. QSL via K7BV, direct only (QRZ.com). [UKSMG]

09/06/2010: PX8J - IOTA DXpedition - Lençóis Island SA-041. This DXpedition will take place from 9-15 June. It will be carried out by a group of 4 experienced DX operators who will be on the air around the clock. This will give the worldwide IOTA community the opportunity to confirm this rare IOTA group. Operators will be Ciro PY7ZY (Team Leader), Fred PY2XB, Jim PY7XC and André PY0FF. Lençóis Island will be activated for the first time. Likewise, a new DIB and a new Grid Square will be activated (GI78nq). After returning from SA-041, the group will activate São Luis Island (SA-016, DIB 07, DFB MA-07, WLOTA LH-0299), from 16-18 June. The call will be PX8L. They are not sure if they will have internet connection during the operation from SA-041. If it is not possible to have a log on line in real time, the QSOs will be avaiable as soon as possible during the return to the continent. QSL via PY7ZY, direct only (P.O. Box 152, 58010-970 - Joao Pessoa - PB, BRAZIL). Full info can be found at: www.pw8j.com/ [PS7AB]

09/06/2010: John, KB4CRT (SMIRK #4732) will be active as VP2MRT on 9-19 June 2010 from Gingerbread Hill, St Peters Parish, the island of Montserrat (NA-103, WLOTA 1475, WW Loc. FK86VS). QRV 40-2 metres using QRO 100w, QRP 5w, HFpack 5w or 10w. He plans to operate CW, SSB and maybe PSK and to participate in the ARRL June VHF QSO Party (12-14

June). Occasional internet for skeds at: vp2mrt2010 -at- windstream.net . QSL direct to home call; No eQSL! Logs will be uploaded to LoTW. [NG3K]

10/06/2010: Jose CT1APE, Carlos CT1EPJ, Jose CT1FMX (team leader), Antonio CT1GFK, Goncalo CT1GPQ, Miguel CT1IUA, Armando CT2GFJ, Sergio CT2HQS, Rui CT2IHP, Nuno CT2IRY, Pedro CT2JMW and Mike CU3HY will be active as CQ7OA from Ilha da Berlenga Grande (IOTA EU-040, DIP ES-001, PIP NT-029, PFFP FP-031, DPRN FF-15, WFF CTFF-015) and lighthouse (DFP FES-02, ARLHS POR-004, TWLHD WLH CT-001, WLOTA LH-1054, WCA CT-01001, DMHP LR-086 between 10-13th June 2010. QSL via CT1FMX, direct or bureau. [RN1CW]

10/06/2010: Members of the Portuguese DX Group (GPDX) will be active 10-13 June 2010 as CT3/CS1GDX from the island of Madeira [Forest Island] (AF-014, DIP MA-001, WLOTA LH-0053, DPRN FF-101). QRV on all HF bands and modes. QSL via GPDX (CS1GDX), eQSL, bureau. [NG3K]

10/06/2010: Andre, F4ELK and Christophe, F4ELI will be active as TM5Q from Ile de Quemenes (EU-065, DIFM AT-039), Department Finistere/29 and Province Brittany (DPF 06), on 10-12 June 2010. QSL via F4ELI, direct or bureau. [425 DX News]

10/06/2010: Jim, WB2REM and Glenn, KD2JA will be operating the special call VQ5M from the Turks and Caicos Islands from 12-14 June during the ARRL June VHF Contest. This operation will be from Providenciales Island (IOTA NA-002, WW Loc. FL31VS). Operation for the contest will be on 6 metre SSB and CW only, with 7 element M2 antenna. QSL via KD2JA (QRZ.com). Other than the contest operation, from 10-17 June, Jim and Glenn will be operating on 160-6 metres, CW and SSB with their respective calls, VP5/WB2REM and VP5/KD2JA. QSL via home calls. [NG3K]

10/06/2010: Chris, HG5XA is to be on air as ZA/HA5X between about 10-24 June 2010 from Albania, holiday style. Operation is planned from the town and the beach of Orikum in the Bay of Vlora (WW Loc. JN90RH). Some lighthouse and/or WFF activity might also take place in this period, please listen for operator's comments on possible LH or WFF references, if any. Chris has received military and PTT authorizations to visit and operate from Sazan Island (EU-169, MIA MA-001, WLOTA LH-0028) signing ZA0/HA5X. He will attempt to be QRV from Sazan Island for about a day between 11-23 June, as it depends on WX, whether or not he can get hold of a generator or he needs to run battery only, etc. This is not a DXpedition, but a family holiday with XYL Marta, ZA/HA9WM and two 5 year old daughters, so time for amateur radio is limited and of lower priority. 50 MHz and portable battery operation will get some special focus. QSL via LoTW and eQSL. If possible, please do not send QSL cards, paper QSL (both direct and bureau) will be available by an OQRS (Online QSL Request System) to be launched and announced later. Bureau cards will be sent out using GlobalQSL. [NG3K]

11/06/2010: Look for Kevan, 2E0WMG (ISWL G-21098 [good for ISWL Monitor Award], WAB Book Number 18247) to be active from Herm Island (EU-114) as

2U0WMG/p between Friday 11th June and Thursday 17th June 2010. QRV on 80/40/20/17m SSB, using low power. WAB: North East WV48, North West WV38, South East WV47, South West WV37. QSL via home call, direct with Green Stamp or via the bureau. Sorry, No e-QSL. [rsgbiota.org]
==========
LOOKING AHEAD -

12/06/2010: Karen, DL8HK will be active on 12 June 2010 as homecall/p from the Hambacher Castle (RPB-039, WCA DL-00718). QRV on 80-20m using SSB and CW. Rig: FT817 or FT857 - mobile operation possible. Antenna: FD4 or mobile whip. QSL via home call, bureau or direct. [WCA Announcements]

12/06/2010: Within the framework of the commemoration of the 70th birthday of rendering on order of the Line Maginot special callsign TM70LM will be active from the following locations: 12-13 June from the Fort of Hackenberg (DFCF 57-025, WCA F-02450), located in Veckring (CP 57970). 26-27 June from the Fort of Bambesch (DFCF 57-027, WCA F-02452), located in Bambiderstrof (CP 57690). Activity on all bands according to conditions, primarily CW and SSB. QSL via F8KGY for QSOs with Fort Hackenberg. QSL via F8KOI for QSOs with Fort Bambesch. [F8BNN]

26/06/2010: Mike, CU3HY will be active as homecall/p from Ermida Espirito Santo (WCA CT-01560, DMHP AZ-094), located on Ilha Terceira (EU-175, DIP AS-003, PIP AC-003, WLOTA LH-0524), Azores, during the UDCF-2010 (26-27 June). Plans are to be QRV on all HF bands, propagation permitting. QSL via home call, direct or bureau. [RN1CW]

04/07/2010: Patrick, WD9EWK will be signing VA7EWK from Vancouver Island (NA-036, CIsA BC001, WLOTA LH-0858) on 3-11 July 2010. QRV on the satellites from various locations in several grids. Satellites: AO-51, SO-50, AO-27, HO-68, AO-7, FO-29, VO-52, possibly SO-67 if it is back in service. QSL via WD9EWK, direct or bureau. Website: july2010.wd9ewk.net/ [rsbgiota.org]

June is known for the return of three remarkable daytime showers. Major showers Arietids and Zeta-Perseids, peaking respectively on June 7th and June 9th in 2010, are both characterized by a broad maximum (with possible submaxima) and high ZHR value, thus making first half of June one of the best periods of the year for MS-Dxing Even Beta-Taurids, peaking June 28, is characterized by fairly good ZHR. Have a look to shower predictions for June 2010 at our MMM MS Propagation page: www.mmmonvhf.de/ms.php [MMMonVHF]

M-V ISLAND - NEW AGREEMENT SIGNED

On May 27, 2010 an agreement on the lease of the Russian part of the Saimaa Canal zone to Finland was signed in Lappeenranta, Finland by the Prime Ministers of the Republic of Finland and the Russian Federation. The new 50 year agreement supersedes the initial lease of 1963 which is due to expire in 2013. The new lease no longer includes Malyj Vysotskij Island,
the present R1MV DXCC entity.

The coming into effect of the agreement is subject to ratification by the parliament of Finland and the Russian duma later this year.

12 e 13 de Junho

To be held at Montemor Park near the city of Loures

Since the creation of A.R.V.M., Emergency Communications have an important role in the activities of this Association.

In 1989 we participated in a simulated rail accident in a nearby village---Sacav?m.

With the implementation of the Municipal Emergency Plan, we promoted a study of Emergency Communications.

In 1991 we organized our first Field Day which, not being a simulation, includes the creation of procedures and routines for emergency situations.

A report of this activity is elaborated, contemplating an analysis of the new situations posed each new year.

We will be operative for 24 hours starting at 12:00 Zulu of Saturday 12.

This year, we expect to introduce new operating modes; we will be operative on all bands in the following modes: PHONE, CW, RTTY, TVA.

Join us and bring the Family to this beautiful place or if you can't be present, give us a call. We will be QRV.

More news will be posted soon.

9522. GOWIN and RAC 2010 Summer not working?

Date: 2010-06-10 15:45:28 UTC
From: Jim Reisert AD1C
Topic: 9522 Message: 9522

I tried to get GOWIN (latest 2.21?) and RAC 2010 Summer working a couple of days ago, but I couldn't get the callbook lookup to work.

I believe I set up the disk drive properly, but got an error (I don't have info here at work).

The callbook CD was installed to D:\Radio Amateur Callbook (so that's the directory that contains the DATA directory).

Does installing it this way break the program? Does it have to be installed to D:\RAC or D:\ instead?

Thanks - Jim

All band, all modes with 4 stations in parallel if possible. QSL via CT1FMX, direct or bureau. [RN1CW]

10/06/2010: Members of the Portuguese DX Group (GPDX) will be active 10-13 June 2010 as CT3/CS1GDX from the island of Madeira [Forest Island] (AF-014, DIP MA-001, WLOTA LH-0053, DPRN FF-101). QRV on all HF bands and modes. QSL via GPDX (CS1GDX), eQSL, bureau. [NG3K]

10/06/2010: Roar, LA1EOA will be active 10-15 June 2010 as JW1EOA from Longyearbyen, Spitsbergen Island (EU-026, WLOTA LH-0125, WW Loc. JQ78TF). QRV on all HF bands. QSL direct to home call. [NG3K]

10/06/2010: Andre, F4ELK and Christophe, F4ELI will be active as TM5Q from Ile de Quemenes (EU-065, DIFM AT-039), Department Finistere/29 and Province Brittany (DPF 06), on 10-12 June 2010. QSL via F4ELI, direct or bureau. [425 DX News]

10/06/2010: John, KB4CRT (SMIRK #4732) will be active as VP2MRT on 10-18 June 2010 from Gingerbread Hill, St Peters Parish, the island of Montserrat (NA-103, WLOTA 1475, WW Loc. FK86VS). QRV 40-2 metres using QRO 100w, QRP 5w, HFpack 5w or 10w. He plans to operate CW, SSB and maybe PSK and to participate in the ARRL June VHF QSO Party (12-14 June). Occasional internet for skeds at: vp2mrt2010 -at- windstream.net . QSL direct to home call; No eQSL! Logs will be uploaded to LoTW. [NG3K]

10/06/2010: Jim, WB2REM and Glenn, KD2JA will be operating the special call VQ5M from the Turks and Caicos Islands from 12-14 June during the ARRL June VHF Contest. This operation will be from Providenciales Island (IOTA NA-002, WW Loc. FL31VS). Operation for the contest will be on 6

metre SSB and CW only, with 7 element M2 antenna. QSL via KD2JA (QRZ.com). Other than the contest operation, from 10-17 June, Jim and Glenn will be operating on 160-6 metres, CW and SSB with their respective calls, VP5/WB2REM and VP5/KD2JA. QSL via home calls. [NG3K]

10/06/2010: Chris, HG5XA is to be on air as ZA/HA5X between about 10-24 June 2010 from Orikum, Albania, holiday style. Operation is planned from the town and the beach of Orikum in the Bay of Vlora (WW Loc. JN90RH). Some lighthouse and/or WFF activity might also take place in this period, please listen for operator's comments on possible LH or WFF references, if any. Chris has received military and PTT authorizations to visit and operate from Sazan Island (EU-169, MIA MA-001, WLOTA LH-0028) signing ZA0/HA5X. He will attempt to be QRV from Sazan Island for about a day between 11-23 June, as it depends on WX, whether or not he can get hold of a generator or he needs to run battery only, etc. This is not a DXpedition, but a family holiday with XYL Marta, ZA/HA9WM and two 5 year old daughters, so time for amateur radio is limited and of lower priority. 50 MHz and portable battery operation will get some special focus. QSL via LoTW and eQSL. If possible, please do not send QSL cards, paper QSL (both direct and bureau) will be available by an OQRS (Online QSL Request System) to be launched and announced later. Bureau cards will be sent out using GlobalQSL. [NG3K]

After some testing, I found that it works as long as the callbook is installed in \Program Files\Radio Amateur Callbook\ on whatever disk drive you install it in.

I would like to see the GOWIN program be enhanced to allow ANY path to the callbook. In fact, you wouldn't need to specify the DRIVE (only) if you could specify the full path in the Options.

Hi friends
DJIBOUTI:
Vincent, F5MJV (ex FM5JV, FO5RN, FO0/F8UFT, and more), currently Union Francaise des Telegraphistes President, is assigned to Djibouti.
The length of his stay is unknown yet but it will be at least until 2011 and more probably until 2012.
He has got his ticket wich is now J28JV.
First he will traffic on week ends (Friday & Saturday) from his military location. He is expecting to be able to set an antenna at home so he will be on the air also in the evenings.
HF bands, including WARC, mainly in CW and digitals, SSB possible.
QSL via F5NQL (QRZ.com), either direct (sae+ valid IRC preferred) or via the French REF-Union bureau.
Numerous QSY to the Gulf of Tadjoura group, AF- 053, especially on Mucha island, also WLOTA 1596, on week ends are scheduled. Vincent is picking up the gear necessary to set a portable station to go to.
Vincent is sorry, but the Djiboutian regulations forbid him to go to the Saaoubia islands (aka Sept-Frères), AF-059.
During his mission, Vincent will traffic with Darko/J28AA (E70A) and in next July (around 15th), Freddy J28RO (F5IRO), will join them.

Bonjour à tous
DJIBOUTI:
Vincent, F5MJV (ex FM5JV, FO5RN, FO0/F8UFT, et autres), actuel président de l’ Union Française des Télégraphistes , est assigné à Djibouti.
La longueur du séjour est inconnue à ce jour mais devrait au minimum aller jusqu’en 2011 mais probablement jusqu’en 2012.
Sa licence , J28JV vient de lui être délivrée.
Il trafiquera d’abord depuis les locaux militaires , les week-ends (vendredi et samedi). Il pense pouvoir ensuite installer une antenne à son domicile, ce qui lui permettra ensuite d’être actif le soir.
Activité prévue en HF, bandes WARC incluses principalement en CW et modes numériques. SSB possible.
QSL via F5NQL (QRZ.com), direct (sae+IRC valides 2013) ou via le bureau du REF-Union .
Au cours du séjour de nombreux déplacements sur l’archipel du Golfe de Tadjoura , AF- 053, principalement sur Mucha, WLOTA 1596, sont prévus les week-ends. Vincent est en train de collecter le matériel pour des opérations en portable
Vincent est désolé mais la réglementation djiboutienne lui interdit toute activité depuis îles Saaoubia (Sept-Frères), AF-059.
Pendant sa mission, Vincent trafiquera avec J28AA . En juillet prochain, ils seront rejoints par Freddy, J28RO (F5IRO).

24-hour Scottish Islands Amateur Radio Challenge

Bob, GM0DEQ will be activating up to 15 Scottish islands within 24 hours in June using a sea plane as transport.

His callsign will be GB4DTD (Dawn To Dusk).

Activity will be on the HF bands, 40-10 metres.

QSL via GM0DEQ.

The island list is subject to change due to a few factors governing their sea plane transport. The departure date will be subject to WX too, and will be from Monday, 14th June 2010, onwards as close to the longest day to maximize daylight flying.
List of islands:

Islay (EU-008, IOSA NH22, SCOTIA CS25, WLOTA LH-1826);
Jura (EU-008, IOSA NH21, SCOTIA CS28, WLOTA LH-3078);

Please Be Extremely Careful especially if using internet mail such as Yahoo, Hotmail, AOL and so on. This information arrived this morning direct from both Microsoft and Norton. Please send it to everybody you know who has access to the Internet. You may receive an apparently harmless email with a Power Point presentation 'Life is beautiful.' If you receive it DO NOT OPEN THE FILE UNDER ANY CIRCUMSTANCES , and delete it immediately. If you open this file, a message will appear on your screen saying: 'It is too late now, your life is no longer beautiful.' Subsequently you will LOSE EVERYTHING IN YOUR PC and the person who sent it to you will gain access to your name, e-mail and password. This is a new virus which started to circulate on Tuesday afternoon. AOL has already confirmed the severity, and the antivirus software's are not capable of destroying it.
The virus has been created by a hacker who calls himself 'life owner'
PLEASE SEND A COPY OF THIS EMAIL TO ALL YOUR FRIENDS and ask them to PASS IT ON IMMEDIATELY

Not to be funny but I read someplace recently that Snopes.Com has an
ongoing investigation
on them because someone claimed that they do not actually go out and
investigate their claims
as they specify on their site so their expertise is in question atleast
until they clear their name!
I think it was in the WSJ that I read it!

There is a page on the Snopes website discounting that claim/investigation.

But in this case they are right. I got that same e-mail as John sent
out from several people 4 years ago. I can go back and dig it out. No one I
know has ever reported receiving such a Powerpoint file.

Guys, its kinda like DX, be safe first, worry later.
That piece came to me from a good source so I
passed it on. I don't have the time to investigate
all these things that I received daily. When one
comes from a trusted source to me, I will pass it on.

Four members of JA1ZEK, Yamakto ARC, will be operate from Yap Island (OC-012) between June 22 and June 29. This is their 19th DXpedition since 1993. At 2008 April, they had visited Yap Island but their QTH was very poor for DX operation. This time they could find a good hotel. Operators are Sasi JA1KJW, Hase, JK1EBA, Karl JA3MCA, Kund JA8VE and Mat JA1JQY. Their callsign and QSL information are V63JQ(via JA1KJW), V63AKA(via JK1EBA), V63MCA(via JA3MCA), V63VE(via JF1OCQ) and V63JY(via JA1JQY).

They brings five TRX and one 500W amplifier, and will operate 6m to 160m, SSB,CW,RTTY.
They will keep 24 hours operation at least two bands with 6m beacon, but maximum five bands operation.

I.C.P.O. Bulletin (17-25 June 2010)
"Islands, Castles & Portable Operations"
Listing is by calendar date (day/month/year)
==========
NOTE: Next week will be the last I.C.P.O. Bulletin. It is too time consuming to put together and only a handfull of people interested in it. This will free up more time for me to fucus on WLOTA, WCA, WFF and other activities. The I.C.P.O. reflector will still remain in operation. All you need to do is sign up and post your news item. So far there are only 2 individuals who post information! If anyone is interested in taking over the I.C.P.O. bulletin, let me know.
73,
Dave VA3RJ
==========

SIX METERS & UP -

VHF WW Contest 2010 - 50MHz - HS on Air!
Thai hams authorised to use 6-metres during CQWW VHF contest 2010
Thai radio amateurs have been granted temporary permission to use the 6-metre (50-54MHz) amateur band for the first time in almost two decades by the Thai regulator, the National Telecommunications Commission (NTC). This will allow Thai amateur radio operators to operate during the CQ Worldwide VHF contest for 48 hours on July 17-18, 2010. The last time such permission had been granted was in 1992 during the Southeast Asia Net convention staged in Chiang Mai that year. The only other sanctioned six-metre operation in Thailand had been by the late founder of RAST, Gen Kamchai Chotikul, HS1WR (SK), in the late 1970s and early 1980s, according to Champ, E21EIC. RAST had applied for permission to operate on six-metres during the CQWW VHF Contest this year following a suggestion by RAST Committee

member John/Narissara, HS1CHB, during a committee meeting in May, 2010 and a formal written request had been subsequently conveyed to the NTC secretariat. Permission was granted in mid-June and has been conveyed to members by email, on this website and the RAST Forum will be updated with this news. [MMMonVHF]

NWR 2010. The 2010 National Wildlife Refuge Week is set for October 10-16th, and Amateur Radio will again be helping to mark this event. The National Wildlife Refuge System, managed by the U.S. Fish & Wildlife Service, spans our nation. This year, the refuge system celebrates 107 years of conservation and quality recreation. Amateur Radio operators are helping spread the word about the National Wildlife Refuge System by operating within a refuge during National Wildlife Refuge Week.
Only authorized, responsible access to refuges is sanctioned by this event. Amateur Radio observation will take place between Saturday, October 9th and Sunday, October 17th. Amateur Radio stations are expected to operate from several national wildlife refuges during 2010 NWR Week.
Contact 5 special refuge stations listed as active sites to earn a certificate. For more information, contact the NWR Week Amateur Radio coordinator at: info@...

Vanuatu 2010 DXpedition News Release

In co-operation with ODXG, a group of four Australian amateurs will be activating Vanuatu (YJ0) from 27^th August until 2^nd September. The accommodation and flights are booked and the team are waiting on callsign allocation from the Vanuatu government. Chris VK3QB (Leader), Allan VK2CA, Luke VK2HJ and Brenton VK3CBV will spend six days and nights working the HF bands from the island of Efate -- as well enjoying some of the sites of this beautiful country.

More details will be released in the coming 2 weeks, including web site details, QSL details and likely bands/modes. However, at this stage the team plans to keep things simple with two HF stations limited to 100 watts and vertical and wire dipole antennas. 9553. beta release of WSJT8

Yahoo group: GOLIST (2007 — 2010)
Date: 2010-06-20 18:35:04 UTC
From: GOLIST
Topic: 9553 Message: 9553

From: Joe Taylor <joe@...>

A beta release of WSJT8 is now available on the WSJT Home Page.

The following text comes from the first page of the WSJT8 User's Guide,
http://www.physics.princeton.edu/pulsar/K1JT/WSJT8_User.pdf

##

WSJT8 is an experimental version of the familiar weak-signal
communication program WSJT. It offers new protocols or "modes" optimized
for meteor scatter, ionospheric scatter, EME, microwaves, and QRP at HF.
Like the modes in previous versions of WSJT, the new ones are intended
for making minimal QSOs, not for rag-chewing. WSJT8 modes are not
compatible with those in WSJT7. To use the new modes, transmitting and
receiving stations must *both* use WSJT8.

This introductory User's Guide explains how the new experimental modes
differ from the familiar modes FSK441, JT6M, JT65, and JT4. It assumes
that you are already familiar with installing and using WSJT7. Please
consider the Guide is a living document; it will be modified and
extended frequently in coming weeks. The online version can be called up
with a single keystroke from within WSJT8, so you can easily check for
updates.

My working hypothesis is that the new modes in WSJT8 offer significant
advantages over those in WSJT7 --- and that it will probably make sense to
recommend a complete switch-over some months from now. For that
transition to happen in an orderly fashion, we'll need a widely held
consensus that the change is for the better. If one of the new modes
does not live up to present expectations, or for another reason it's
decided that some feature of WSJT7 should be retained, that wish can
probably be accommodated.

Input from users will be important following the initial beta release of
WSJT8. I need to know what works, what doesn't work, what should be
improved, and what enhancements should be given highest priority. All
comments and suggestions will be greatly appreciated!

Please note: Before using WSJT8, be sure to read this full document to
familiarize yourself with the design goals and motivations for the new
modes, and with the available message formats.

##

If you found and downloaded WSJT8r1943.EXE before receiving this
announcement, you should download and install the program again from the

installation file WSJT8r1944.EXE.

Go here http://www.physics.princeton.edu/pulsar/K1JT/wsjt.html to find
the download link.

After gaining some experience with the beta release of WSJT8
Please share your views and opinions about it!

I.C.P.O. Bulletin (24 June - 02 July 2010)
"Islands, Castles & Portable Operations"
Listing is by calendar date (day/month/year)
==========
NOTE: A secretary has been found to help keep the I.C.P.O. bulletin alive! The news will continue, as usual, with all the bad spelling mistakes, poor grammar and typo's! :o) If you signed up on the I.C.P.O. e-mail reflector, do not forget that you can also post good DX info for everyone to read. Continue to enjoy the bulletin.
Dave, VA3RJ

SIX METERS & UP -

The K5N Activation Group trip to DL88 and DL89 -
Hello to all on the list....the K5N group is finalizing our trip to DL88 and DL89. We have acquired an old TV van with the pneumatic mast and are almost done with the preparations on the truck.
We will be traveling on June 28th using K5QE/R as the call. We

expect to be operational at DL88 on June 29th about Noon. We will operate on 50.150MHz for both SSB/CW and FSK441(in the evenings after Es is closed). Rig will be a Pro2, a 250W amp, and a M2 6M5XHP. We will leave DL88 at 3PM on July 1 and begin the long drive out. We will set up in DL89xw for only one day on July 2nd. On July 3rd, we will be driving home, signing K5QE/R as we go.
We will have NO Internet and NO cell phones, however, we have arranged with some members of the BBARC to post messages for us on some of the Internet forums. They will be posting on Ping Jockey Central when we are doing meteor scatter. We will be posting on ON4KST and the FFMA reflector at other times.
It will REALLY HELP if you guys will post us to your favorite forum when you hear us. That will keep other stations aware of what is happening.
Especially let everyone know when we change from SSB/CW to FSK. Thanks for that.
The K5N Group is hoping for a big operation and we hope we can work everyone that needs DL88/89. If we get some great propagation, like we had in the June contest, we will work a lot of stations. GL to everyone....
NOTE: ALL WSJT operations will be on WSJT7.

Vanuatu 2010 DXpedition News Release

In co-operation with ODXG, a group of four Australian amateurs will be activating Vanuatu (YJ0) from 27th August until 2nd September. The accommodation and flights are booked and the team are waiting on callsign allocation from the Vanuatu government. Chris VK3QB (Leader), Allan VK2CA, Luke VK3HJ and Brenton VK3CBV will spend six days and nights working the HF bands from the island of Efate - as well enjoying some of the sites of this beautiful country.

More details will be released in the coming 2 weeks, including web site details, QSL details and likely bands/modes. However, at this stage the team plans to keep things simple with two HF stations limited to 100 watts and vertical and wire dipole antennas. For more information please contact Chris VK3QB vk3qb@...

Press Release
FOR IMMEDIATE PUBLICATION
Northern California DX Foundation
June 24, 2010

A newly designed Northern California DX Foundation website is now on line!
http://ncdxf.org

We hope this new interactive website will tell our story, provide resources for DXers, and enable everyone to follow past and future DXpeditions that NCDXF has sponsored. Visitors to the website will find it both informative and pleasant to explore.

There are resources on the worldwide Beacon system, an online store for NCDXF supplies, information about our scholarship program, our video library and other resources

John Miller (K6MM) our Webmaster, and Doug Bender (WW6D) of Members Services have spent countless hours on this project.

Have you listened to the Beacon system lately? You can follow NCDXF on Facebook or Twitter.

9564. QRZ Logbook Goes ACTIVE / QRZ-100 Contest

QRZ Logbook Goes ACTIVE / QRZ-100 Contest

We're pleased to announce that the QRZ Logbook has ended its test period and is now in LIVE operation. The test program generated more than 45,000 log entries and by all accounts was a smashing success.

All contacts recorded from this point forward are ACTUAL log reports, eligible for QRZ Awards credit.

Yes, we got this going just in time for Field Day. It seems like a great way to kick off the logbook and as of just yesterday, we've added some new features to the QSO logging pages that will facilitate contest logging.

Logbook uploads should be available soon. We're testing and finalizing the upload code now and expect to have them available sometime next week. Logbook downloads in ADIF format are already available.

Announcing the QRZ-100 Contest

With the kickoff of the new Logbook, we're also starting our first contest called the QRZ-100. The object of this contest is to be the first person to log and get confirmation from 100 other QRZ members. This contest applies only to logs that are generated on the QRZ web pages for QSO's that take place starting today. The winner of this inaugural contest will receive a QRZ-100 Certificate, a complimentary QRZ Platinum Subscription for one year, as well as a listing in the QRZ Hall of Fame as the first person to reach the QRZ-100 goal.

The rules for the QRZ-100 contest are simple. Be the first to confirm contact with 100 other QRZ members. Any legal band/mode/frequency can be used, but it must be a two-way contact. Contacts obtained as a result of this weekend's Field Day are eligible so there's no excuse not to take advantage of the opportunity. The contest is open to all QRZ Ham members, regardless of subscriber status. There is no entry fee. Log verification will be done by QRZ and based solely on confirmations received online. Remember that this is a contest to be the first person to achieve QRZ-100. Runners-up will be listed on the QRZ Awards Scoreboard and may purchase frame-ready certificates for a nominal fee.

Please note that since we're a bit new at this, we might have to adjust some of the specifics as circumstances warrant. Should that happen, we'll make every effort to make sure that overall fairness is the rule of the day. Just be sure and check back on these pages for any breaking developments.

Vanuatu 2010 DXpedition News Release:

In co-operation with ODXG, a group of four Australian amateurs will be activating Vanuatu (YJ0) from 27th August until 2nd September. The accommodation and flights are booked and the team are waiting on callsign allocation from the Vanuatu government. Chris VK3QB (Leader), Allan VK2CA, Luke VK3HJ and Brenton VK3CBV will spend six days and nights working the HF bands from the island of Efate - as well enjoying some of the sites of this beautiful country.

More details will be released in the coming 2 weeks, including web site details, QSL details and likely bands/modes. However, at this stage the team plans to keep things simple with two HF stations limited to 100 watts and vertical and wire dipole antennas. For more information please contact Chris VK3QB vk3qb@...

Hello dear friends, please help me to distribute the news that DF4SA is NOT the QSL manager for 7X2ARA. I am receiving hundreds of QSLs via buro and also some direct, but I am NOT the manager. I only operated from the 7X2ARA clubstation in November 2003 and have long already confirmed all my QSOs. I can NOT confirm any other QSLs for any other date and time. Please help me to spread the word to delete this wrong information from QSL databases. THANKS !!

Press release # 22
Awards and prizes for HAM radio community worldwide

To encourage the HAM radio community worldwide to
make contacts with WRTC-2010 participants during
the IARU HF Championship contest the weekend of
July 10-11, 2010, we would like to announce our
special awards and prizes program.

WRTC-2010 awards, special plaques, T-shirts and
trophies will be issued based upon the following rules:

1. QSO points

- All WRTC stations will use distinctive
callsigns from the block R30A - R39Z. The same
WRTC-2010 station may be worked once on CW and
once on SSB on each band (80, 40, 20, 15 and
10m). The WRTC stations will not operate on 160m.

- Each confirmed two-way CW or SSB QSO with a
WRTC-2010 station counts 1 point.

2. The logs

The WRTC Committee needs as many IARU contest
logs as possible to create the QSO data base it
will use to cross check the WRTC competitors'
logs. We ask all stations working the IARU
contest to please send copies of their
electronic, Cabrillo formatted logs to
logs@... or upload them to
<http://www.wrtc2010.ru//upload/>http://www.wrtc2010.ru/upload/
no later than 18:00 UTC on Sunday, July 11, 2010
(Note: this is only six hours after the end of
the contest). The subject field should contain
your contest callsign, e.g., "Subject: RA5AA".

The Committee guarantees that these logs will be
used only to determine winners of the WRTC awards
and prizes, and for cross checking the WRTC-2010
teams' logs. Please understand that sending us a
copy of your log does NOT constitute a log

submission for the IARU HF Championship; for
that, you should also e-mail your log to IARUHF@....

3. Awards and Prizes

WRTC-2010 Certificate:
For making 50 QSO points with the WRTC-2010
stations in any combination of modes and bands.

WRTC-2010 Special Trophy:
For making QSOs with ALL WRTC-2010 Stations on CW
For making QSOs with ALL WRTC-2010 Stations on SSB
For making QSOs with ALL WRTC-2010 Stations Mixed

WRTC-2010 T-shirt:
DX: for making 100 QSO points with WRTC-2010 stations
EU: for making 180 QSO points with WRTC-2010 stations
ITU Zone 29: for making 140 QSO points with WRTC-2010 stations

WRTC-2010 plaques:

WRTC-2010 plaques will be issued to the stations
with the highest number of QSO points in the following categories:
Worked all WRTC-2010 - Single op CW
Worked all WRTC-2010 - Single op SSB
Worked all WRTC-2010 - Single op Mixed
Worked all WRTC-2010 - Multi op CW
Worked all WRTC-2010 - Multi op SSB
Worked all WRTC-2010 - Multi op Mixed

WRTC-2010 plaques will be awarded for each of the following areas:
Europe
Asia
North America
South America
Africa
Oceania
USA
Japan
HQ stations
European Russia (R1-R7)
Asiatic Russia (R8-R9)
Asiatic Russia (R0)

You can:
<http://www.wrtc2010.ru/press/wrtc_callsigns.pdf>upload
the complete list of WRTC-2010 station callsigns
in a comfortable form which you can use to mark stations worked per band/mode.

We also ask you to cooperate with requests from
R30A-R39Z stations to move to another band or
mode with them for a new multiplier or QSO.

WRTC-2010 organizing committee

GW - Ramsey Island EU-124 - Once again the Strumble Head DX and Contest Group are heading over the water to activate this rare Welsh coastal island. They will be on the air from 22nd July through to 26th or 27th July (all dependant on tides) using the club call MC0SHL. This trip also takes in the RSGB IOTA contest where they will be on the air using the club contest call MW9W over the weekend 24th and 25th July. Last year they tried to work as many Asian and Pacific stations as this is #18 most wanted on the IOTA listings for that area and they will again try to make as many contacts both before and during the contest. They will have 3 stations using the following equipment;

2 X Elecraft K3 Transceivers
1 X Yaesu FT2000
2 X G3TXQ Hexbeams (built by Ant MW0JZE)
80M Dipole
40M Vertical
3 X Acom 1000

The team will be using MC0SHL on 17 and 12M during the contest to try to give as many contacts on these bands also. They will be on the air mostly in SSB, but with some RTTY and CW thrown in. This year the team will be Rob (MW0RLJ), Jane (Robs wife), Ant (MW0JZE), Oli (MW0JRX), Tim (M0URX), Chris (G1VDP) and Tony (G4LDL). Sadly Charles (M0OXO) is not joining them but will be acting as a pilot station and will be in contact with the team throughout the trip as they are taking mobile internet so they can get on skype and their website with updates. Full details and photographs of last years operation are on the groups website http://www.mc0shl.com where there may be live access to the station via webcam if they can get this up and running. All QSL requests should go via the teams manager M0URX (see http://www.m0urx.com) where there is on line request and details on how to get the QSL quicker. All logs will be uploaded to the ARRL Logbook of the World (LOTW) upon getting back to the farm HQ on their return.

Hi guys,
After his eventful trip to East Pen Is., I plan to travel again to
the Canadian Arctic. This time I will attempt to activate the Nunavut
(Kitikmeot Region) East IOTA Group, NA-208 (CQ Zone 2). This group has
only been on the air once, 15 years ago, and is on the Most Wanted List,
in demand by 89% of the IOTA chasers. For this project I retained the
services of local Inuit guides and applied for VY0X callsign, aiming to
operate for up to 3 days, between approximately August 11 and 14. The
island I will be operating from will be decided on site, to ensure
unobstructed propagation to various regions around the world. Please
keep in mind that at 70 degrees latitude North weather conditions and
safety concerns can affect the outcome of this project.
At this time, I am looking for donors who understand and appreciate
the nature of this attempt, and wish to join in the effort. Support is
welcome via PayPal at tiberius.trifu@..., and will be acknowledged
on the expedition page at QRZ.com, which will be created once Industry

Canada approves the requested callsign.

Island # ON005 Light House # CAN181 Grid Square # EN95
WLH # 0763 Coordinates 45E 18.35N, 81E 37.02W

Every year the the Georgian Bay Amateur Radio Club embarks on a Dxpedition to Flower Pot Island to activate grid square EN95 and special event station VA3FPI.

Flower Pot is an island in Georgian Bay approx. 6 kms from Tobermory off the Bruce Peninsula. This has been an annual event held on the first week in August since 2001 with the help of many club members and friends. As a result the event is well received by the amateur radio community with many contacts and qsl cards received. Many thanks to those who participate.

9589. ANNOUNCEMENT : WIN-EQF LOGGING PROGRAM

ANNOUNCEMENT REGARDING THE WIN-EQF LOGGING PROGRAM

Win-EQF WILL LIVE ON AS Win-EQF*

Win-EQF* is based on Win-EQF v. 1.94S by Tom Dandrea, N3EQF, who decided to bring development of Win-EQF to a halt after serving thousands of users since first publishing Log-EQF for MS-DOS in 1989. However, instead of letting Win-EQF go QRT - Tom decided to look for another programmer to maintain and develop future versions of Win-EQF. After a brief period of discussions - Win-EQF moved across the Atlantic Ocean and is now maintained by Torkel M. Jodalen, LA6VJA, residing in the cute little kingdom of Norway.

Win-EQF* is the "new" product name, with the asterisk added to distinguish between the former N3EQF product and the current LA6VJA product. The plan is to keep Win-EQF* alive and continue maintenance, bug fixing and product development. Win-EQF* will, however, remain true to its roots - there will be no popping windows, no bells and whistles - just pure performance QSO logging with well-considered functionality.

SALES AND DISTRIBUTION

John, K1XN, will continue to head up Sales and Distribution for the new Win-EQF* project. John will also try and assist with the minor issues users may have just as in the past.

Distribution of Win-EQF* will be by download only from the Win-EQF* download page at http://www.golist.net. As in the past new orders, upgrades and replacements will be available from John, K1XN.

Win-EQF* ONLINE FORUM AND WEBSITE

A new Win-EQF* forum is being set up on Google Groups and when completed an announcement will be made on Tom's (N3EQF) FORUM giving the URL of the new location. Users helping users is still the most important part of product development and issue solving.

The new online home of Win-EQF* is located at http://www.bitwrap.no/eqf. The forum is limited to members only, but membership is free and can be applied for on-line (members-only forum chosen in order to limit the risk of being spammed by automatic mailers, etc).

PRICING

Pricing will remain the same as with the old Win-EQF program.

CUSTOMER SERVICE

Both John and I will strive to continue the customer service for Win-EQF* that you are accustomed to. John will be able to answer emails much faster than I, as I still have a day job and I am out of the country on flights routinely.

USER INPUT

You the user will play an important role in the development of the new Win-EQF* versions. Your ideas and suggestions are important to us and we will work on making Win-EQF* even more useful to your logging needs. We must always keep Win-EQF* a simple and easy to use piece of software. Please join with us to keep and improve a great logging program alive and flourishing.

SHORT-TIME PLANS

Short-time plans include the release of Win-EQF* v. 2 by mid-September, 2010. A few new features are planned. Stay tuned to the website at http://www.bitwrap.no/eqf for details!

AO, AM, AN: Spain World Cup Champion, authorized!

>From 12 to July 31, 2010 any Spanish ham may use this special prefix, if desired, to show the world his joy and support to our athletes, who have reached the pinnacle of football and class effort until the last moment, showing far as we can working together. An example for all disciplines. So DGTel today confirms the request made by EA Digital Federation, which thus saves the individual requests avalanche was coming.

GENERAL AUTHORIZATION FOR TEMPORARY USE OF PREFIXES AM, AN AND AO IN DISTINCTIVE
Amateur occasion of the recent success of the team of Spain in the World Cup, taking into account the numerous individual requests received and the application of an association of fans recognized that radio amateurs are permitted to use a special prefix general until the end of the month, the Directorate General of Telecommunications authorizes the use by any amateur and without requiring the submission of previous application of special prefixes AM, AN and AO, as follows:

AM: EB distinctive prefix
AN: EC distinctive prefix
AO: EA distinctive prefix

Period of use: over 12 to July 31, 2010 (inclusive) and remained unchanged mark the rest of the amateur radio operator assigned permanently.

PA09WSF - World Statues Festival
From 2-8-10 22.00 gmt till 30-8-10 22.00 gmt I will be running PC10WSF mostly in cw and digital modes.
This will be the second time for the World Statues Festival in Arnhem, like last year when I ran PA09WSF. I always try to run a nice rather new prefix and as a PA10 has already been active I choose for the PC10.
Paper-qsl is preferred but all will be uploaded to E-qsl, no LOTW, direct and bureau and SWLS's are all fine.

AO, AM, AN: Spain World Cup Champion, authorized -
From 12 to July 31, 2010 any Spanish ham may use this special prefix, if desired, to show the world his joy and support to our athletes, who have reached the pinnacle of football and class effort until the last moment, showing far as we can working together. An example for all disciplines. So DGTel today confirms the request made by EA Digital Federation, which thus saves the individual requests avalanche was coming. Period of use: over 12 to July 31, 2010 (inclusive) and remained unchanged mark the rest of the amateur radio operator assigned permanently. Madrid, 12th July 2010 www.fediea.org/news/?news=20100713

Until end of August 2010 I will operate from Rwanda as 9X0TL. I'm in Kigali for business, so it is not a dedicated dx-pedition. It's a so called spare time operation only!

My QSLs are okay via the bureau. For a direct request use the following address:

You may use my address found at qrz.com, but I would prefer the address above for a quicker response.

Direct QSL requests without proper return postage or without a SAE (Self Addressed Envelope) will be answered via bureau! Business Reply Letters are welcome.

M0TBG-Team Thunderbox-MX0TBG

Team Thunderbox is a group of people from Wiltshire, who enjoy the lighter side of Amateur Radio. We all belong to various radio clubs and come from very different backgrounds which when combined are a recipe for success.

We will be setting up a portable station again between 23rd July and 31st July 2010.

We would love to speak with as many of you as possible, if the conditions allow.

Kind regards.

Hi everyone

I'm pleased to announce that I will be conducting a short term DXpedition to Magnetic Island OC-171 on July 23 to July 25 2010 as VK4LDX/P.

The main purpose is for the 2010 IOTA Contest from 1200 UTC July 24 to 1200 UTC July 25.

I will be using 100W into verticals for 40m, 20m, 15m and 10m as a Single Operator All Band Low Power 24 hour entry.

Before the contest I will be operating PSK on 40, 20 and 15m.

Later on the Saturday I hope to be available on the ANZA DX Net which starts at 0515 UTC on 14183 kHz.

Please visit http://vk4ldx.blogspot.com/ where I'll have regular updates

NEWS RELEASE

FOR IMMEDIATE RELEASE: July 28, 2010

Popular Communications Showcases Video Preview of Groundbreaking
Product Introduction

(Hicksville, NY) -- Readers of Popular Communications magazine -- a
sister publication of WorldRadio Online - will need to wait until
their September issue arrives in order to be introduced to Uniden's
revolutionary no-programming "HomePatrol" scanner (a full review will
be in the October issue), but visitors to the the Pop'Comm website
(www.popular-communications.com) can immediately be "in the know"
thanks to a video preview of the unit currently posted there.
Produced by "Civil Aviation Monitoring" columnist Tom Swisher, who is
also writing the "First Look" and "Tech Showcase" features on the
scanner for the magazine, the video's availability on Pop'Comm's
website is exciting news for communications enthusiasts.

The video preview feature is the latest enhancement to Pop'Comm's
newly updated website, according to Editor Edith Lennon, N2ZRW, who
says she hopes to include an audio or video clip related to the
magazine's content on a regular basis, as well as live links drawn
from the editorial material presented each month.

Posted along with the video preview are highlights of the August
issue, which features articles on operating single-sideband CB,
building an inexpensive shortwave converter, and a review of the AOR
AR-2300 black box receiver. The issue highlights and video preview
may be accessed at <www.popular-communications.com>.

Popular Communications is the world's #1 magazine for scanning
enthusiasts, shortwave listeners, broadcast DXers and other radio
hobbyists. It has been in monthly publication for nearly 30 years.
Pop'Comm is published by CQ Communications, Inc., which also

publishes CQ Amateur Radio, CQ VHF and WorldRadio Online magazines.

I am discovering that there has been a glitch in the Web
user database and it has closed access for some of you.

I am working now trying to find all the problems and fix them.
If you get an error message when trying to download from the
web site, please drop me an email immediately and I can fix it
right away.

Sorry for these problems, seems the computer is trying to go on
strike.

Well, a very large amount of data files have been destroyed.
I am having to rebuild the data base.

If your access is not working, just keep trying every 30 minutes
or so. I may put in a different password than what you have been
normally using. If after the email that the data base has been completed
you still do not have access, send me a note and let me know what you
want your password to be and I will make the change.

Thanks
John

The "Buddies in the Caribbean" DXpedition group which specializes in 100 watt or less low power radios and the Buddipole portable antenna systems is back again to St. Lucia (J6) on Dec 8 - 13, 2010. The north shore Villa location was magnificent on our first visit in Feb 2010 and we want to demonstrate "ultra lite" dxpeditioning into magnificent "vista" locations, operating a field portable battery-only radio with back packable, lightweight antennas and most of all "having fun" with a new group of operators.

The eight operators are: Budd/W3FF, Guy/N7UN, Wey/K8EAB, Bill/W7ZT, Todd/N4LA, Kent/K4MK, Gary/NX8L, and Tom/W4OKW. There will be 3 villa stations in operation on 160-10m using CW, SSB, and RTTY. At the same time, several teams will be battery-only, field portable either from St. Lucia beaches or scenic mountain tops. They group is applying for a unique J6BP callsign for the ARRL 10m contest on Dec 11-12th. QSL via LoTW, eQSL, or mail to the operator's home callsign (SASE required).

Folks,
Starting this Friday, I will be having eye laser surgery with
multiple visits
in the future. Glaucoma surgery is also recommended but no decision on that
at this time. After the laser surgery it will be a couple of days before
I will be
able to read the computer screen. During this period I may be late with
weekly
updates or filling orders and answering emails. I will get all the
stuff done but
it may just take me a little longer. I hope that this will not
inconvenience anyone

** DXpedition to Issyk Kul Lake (EX6EME, MN82) **
Dear 6m EMErs, Subject to arrival of our power amplifier from M2 this week looks like we will be going to Issyk Kul, Kyrgyzstan this Saturday, August 7. Certainly we will make final announcement if we go or don't but at this point I just want to lay some basic rules and share some basic info about the trip in this semi-final announcement: While operating from the Issyk-Kul lake QTH we will use the following procedures: Operation. We will be QRV from August 7 to August 14 the whole week. Callsigns. We will EX6EME callsign. Operators: Mike (UN8GC / KZ1R) and Oleg (EX8MLT). If we exhaust all correspondents, we may operate as EX8MLT and EX/KZ1R callsigns. Grid. MN82re at all times....

** TF3CY QRV 9-13th August on 6m EmE **
Hi there I'm going to be QRV from 9th to 13th of August on 6m EmE during the moonset. Looks like a lot of activity on the moon this few days ;) I will be somewhere close to HP94AD square, semi-portable. I will only be able to work moonset as I will be on the SW side of Iceland. The original plan was to be on the south most edge of Iceland, thus both working moonrise and moonset, but I'm just returning from summer vacation and could not get the extra days off work going on a trip to the south cost. Please email me if you want to try to work me, I will be active on the ON4KST chat I must warn that I'm very new in EmE - so don't expect anything but trouble! ;) but I managed to make two QSO in the last window - and I'm now building on that experience. I will have 600W , and a 10el yagi on a 8m mast, more info and pics on www.tf3cy.is I can only keep the antenna up if the weather is reasonably calm - I will post if I have to postpone. 73 de TF3CY Benedikt Sveinsson. I.C.P.O. (Islands, Castles & Portable Operations)
UPDATE -
==========

06/08/2010: Hector, XE1BEF will be active 6-8 August 2010 from the Faro Punta de Campos (ARLHS MEX-052, WW Loc. DK79UA). QRV on 160-10 and 50 mhz, SSB, CW, RTTY, JT65A, no amplifier. QSL OK via direct, bureau and e-QSL. [XE1BEF]

07/08/2010: Steve, VE3SMA/R will be out roving again this Saturday and Sunday with gear for all bands 222 MHz-24 GHz and laser (though 5.7 GHz is very QRP). No FM gear below 1.2 GHz. Here is his plan, though it may be subject to change depending on conditions and activity. EN92mp 1800-2030 UTC; FN02ax 2235-2315 UTC; EN93sg 0100-0300 UTC and FN03bi 1230-1600 UTC. "Hopefully some local microwave stuff at the end around the EN93/FN03 line". Skeds are welcome. Visitors are welcome since the QSO rate is unlikely to be overwhelming ! (email me for site details if interested at: sjkavanagh1 at yahoo dot ca). [VE3SMA]

28/08/2010: Laci, HA0HW will again be J48HW from Thassos Island, Greece on 28 Aug- 7 Sept 2010. (IOTA EU-174, GIOTA: NAS-037, WLOTA: LH-4186, QRA: KN20HS, MIA: MG-124). On the way and back he will spend one-one day in Bulgaria, and will operate from the LZ9W contest super-station as LZ/HA0HW. QSL via HA0HW, via HA-Bureau or direct as QRZ.com shows. [HA0HW]

11/09/2010: Keith, KA9RSL will be operating from Drummond Island (USi MI017L, Grid Loc. EN86, Chippewa County), Michigan, during the 2010 ARRL Sept VHF QSO Party (11-12 September). They will be arriving on the island on Friday, 10 September about noon. At this time there are 2 confirmed operators, KA9RSL and KF9OK. Operation will be on 50MHz, 144MHz and 432 MHz using using 2 rigs Icom IC-7000 and Yaesu FT847. QSL direct to KA9RSL with SASE for our special Drummond Island card. [N8OFS]

23/11/2010: Aruba - PJ4A probably M/S HP for CQ WW CW November 2011. Ops: K4BAI, KU8E, K9YC. QRV Nov 23-30. PJ4/home calls outside of the contest. QSL via K4BAI. [NG3K]

DX0DX countdown update
Date : 10 / 08 / 2010
Author : Jim Linton - VK3PC

Only 150 days to go before the scheduled QRV of the multi-operator DXpedition on Thitu Island in the Spratlys 6-24 January 2011 and more substantial progress has been achieved.

The Philippines National Telecommunications Commission has issued the DX0DX license and DXpedition Team Leader Chris Dimitrijevic VK3FY and DU8/VK3FY confirms that the required documentation is filed with the DXCC Advisory Committee. Formal DXCC accreditation is expected soon after proof is electronically submitted that operators have reached the island and DX0DX is on air. It was earlier announced that Bob Schenck N2OO has been appointed the QSL manager.

Among the current and growing list of corporate sponsors are ICOM America which is providing ten top-line IC7600 transceivers plus one IC9100 transceiver; Amplifiers from Acom International, OM Power and THAMWAY Corp; Antennas from SteppIR, Spiderbeam and Mosley- Electronics; Bandpass Filters from WX0B Array Solutions; Masts by Rohn Products; Ham Radio Outlet; Head-sets Heil Sound; and Feeders The RF Connection.

Decisions are now being finalised on the roles needed for the DXpedition. The logistical co-ordination of equipment from sponsors is being headed by Charles Spetnagel W6KK, in the United States where we are basing our shipments. The massive logistics exercise to get the equipment, supplies and operators shipped to Thitu Island has received confirmation that the boat to be used is undergoing its annual dry-dock maintenance and certification. Other expertise within the team is being progressively used. Station lay-out coordinator is David Collingham K3LP. The many different tasks, including rostering and logging, and being addressed to make it a success.

The team's medical doctors are ready to assist should anyone become unwell, and to also outreach to the island's residents as part of the DXpedition's humanitarian, health and welfare contribution. It has also been learnt that some of the 30 operators lined up for the DXpedition are using it as a personal incentive to lose some body weight as they prepare for their stay on the island. This will be especially helpful for those wishing to frequently walk between four dedicated operating camps for SSB, CW, RTTY and 2m & 6m operation. Not to mention trips to the mess tent for meals.

Online surveying of DXers finds that the demand for The Spratlys on 160m to 10m is fairly equal with each band falling in the 9% - 11% range after 2,670 votes received. The preferred mode survey results to date are SSB (36%), CW

(35%) and RTTY (27%) with 785 votes cast.

The DX0DX Team acknowledges the financial support already received from individual radio amateurs Brad WA6JJB, Paul N6PSE, Marc DO4DXA, Maurice N4LZ, Vic W4VIC, Ken N5TY, Allan VK2CA, Paul VK2HV, Scotty KG9Z, Clay K7HC, Mitch DJ0QN, Neill K4ESE, Doyl AB4IQ, William K3WA and Billy W3EL. Support has also been given by the IARU Region 3 member society Philippine Amateur Radio Association (PARA), DXWORLD, The Daily DX and ClubLog.

I am ashamed to admit that I have found a box of QSLs that I thought had been sent via the bureau many years ago. The cards are for QSOs with CY9DXX, CY0DXX, VE1AL and VF1L plus a few for other callsigns I have used. I am integrating my 2010 QSLs for VE1AL with these cards and they should be in the mail to the bureau within the next few weeks. Well over 1000 QSLs are involved and I regret that many will probably be returned due to various reasons.

All of my computerized logs have been uploaded to LoTW but that does not include the CY9 or CY0DXX logs.

I'd appreciate it if the various bulletin editors would let their readers know this information.

LIGHTHOUSE CALENDAR -

Over 300 stations planned for the International Lighthouse and Lightship Weekend:
The International Lighthouse and Lightship Weekend takes place on 21 and 22 August. So far there are 340 lighthouses, some lightships and one time-ball tower registered. The event, now in its 11th year, was begun by the Ayr Radio Club. Now there are radio amateurs and lighthouses in some 30 countries involved. The 300th registration this year came from Rainer, DO7RKL for the Westerheversand lighthouse in the northernmost part of Germany. Australia has been a strong supporter of this event with 53 registrations, just ahead of Germany on 50 and the United States with 40 lighthouses registered to date. There are still lots of lonely lighthouses looking for the company of friendly radio amateurs to bring radio gear to them for the International Lighthouse and Lightship Weekend. To learn more or register a lighthouse, visit the website at www.illw.net/ [GB2RS]

QSL via VE1AL:
I am ashamed to admit that I have found a box of QSLs that I thought had
been sent via the bureau many years ago. The cards are for QSOs with
CY9DXX, CY0DXX, VE1AL and VF1L plus a few for other callsigns I have
used. I am integrating my 2010 QSLs for VE1AL with these cards and they
should be in the mail to the bureau within the next few weeks. Well
over 1000 QSLs are involved and I regret that many will probably be
returned due to various reasons.
All of my computerized logs have been uploaded to LoTW but that does not
include the CY9 or CY0DXX logs.

PRESS RELEASE

August 14, 2010

Dear Media Organization or whom it may concern:

This letter is to inform the Media Organization
of the International Radio Emergency Support
Coalition present emergency activities:
Here is the back ground of IRESC as follows:
The main objectives of IRESC are to foster
efficient collaboration between Radio Amateurs,
extending friendships across the world and
providing international emergency communications in times of need.

IRESC is a worldwide coalition of volunteer
communicators, with dedicated members spread
around the globe, help can be provided at all times of the day or night.

Currently, IRESC has members in at least 38
countries and it continues to grow. Most members
are also affiliated with their respective
national organizations; for example, the
International Red Cross, the Magen David Adom,
the Salvation Army, RAYNET, local ARES and RACES
groups, along with many others.

The IRESC team uses several modes of
communication, including HF, VHF, UHF, amateur
satellites, and principally Echolink VoIP
communications. The IRESC Conference Server on
Echolink (*IRESC*) is node number 278173. The
trunk systems use the Internet to link
communications over vast distances without the
propagation and interference shortcomings of
radio paths. In this way, a disaster zone and the
point of best assistance can be joined even if
they are on opposite sides of the planet.

We are always looking for new members in any part
of the world. IRESC is willing to collaborate

with all emergency communicators and relief agencies to provide support and communications for any disaster. Being a truly international organization, IRESC strongly adheres to the principals that bind together the world amateur radio movement; working together regardless of race, religion, culture or political viewpoint.

At the present time IRESC is one of major emergency Ham operators operating in Pakistan with the approval of PARS Pakistan Armature Radio Society for Pakistan Government.

IRESC offered assistance and PARS then accepted and started asking for expertise and assistance. I Salvadore Torres as acting Senior Vice President/ Directors of Presidents, Call Sign W0SCT, then called a special Board meeting with IRESC International and with the approval IRESC President of Carl Caracol , Call Sign W2WRX IRESC alert protocol was activated immediately .

I Salvatore Torres then contacted out IRESC Presidents located in Turkey and India and they in turn contacted their sources.

The IRESC Turkey President, Urcun Canel, Call sign TA0U, then set up search and rescue operation for ECOM and air cargo and equipment and other actions for the Pakistan emergencies.
The IRESC India President Devulapalli ☐Bharathi☐ Prasad, Call Sign VU2RBI, then also set up her network and is a major operator for Pakistan operation on behalf of IRESC International.
She is a well known world famous operator that is a known for her work in emergencies.

The International Coalition of IRESC the monitored and has been receiving traffic and we have actual ECCOMM traffic at this time. We will pass all life and death and health and welfare information that may be required.

We also are in direct contact with various government agencies and organizations throughout the world and have access as required for this emergency. Our government liaison and net control operator and manager Dennis Baumgarte, Call Sign AE2EE is in charge of these actions at this time.

We need the media to inform them of the above stated activities concerning Pakistan.

IRESC then can assist as required regarding the
above stated in passing information and traffic
concerning emergencies. We are a nonprofit
organization with no monies and salaries but will
do the best we can as ham operators and emergency responders.
This information is critical for the public to know.

Respectfully Submitted

Salvatore TORRES

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, W3BTX, KH6BZF, N0VD and "Bonaire Reporter" for the following DX information.

N3, UNITED STATES (911 Special Event/Correction/Update). The 6 meter frequencies listed in yesterday's bulletin were mixed up with the 160 meter frequencies. Look for "N3U/United Flight 93" on 50130 kHz (SSB) and 50090 kHz (CW). Bob, W3BTX, informed OPDX today that "We decided to send a QSL out to 'everyone worked' either via direct or by the Bureau." Remember to look for this special event station to be activated between September 9-13th. See OPDX.972 or QRZ.com for more details.

NETHERLANDS ANTILLES (More on Bonaire, the 10/10/10 Break-up and a full Press Release on the Upcoming Operation). Kelly, N0VD, provides more info to OPDX regarding the postponed referendum, and wanted to clarify a few points that may be confusing for those not following the political process on Bonaire. He states, "In short, the referendum has no affect on 10.10.10 transition date. It was simply an attempt by some of the minority political leaders to gauge the opinion of the Bonaire people as to whether they agree or disagree with how the whole political process has taken place and the eventual outcome."

He quotes the "Bonaire Reporter" dated August 16th: "On Friday, the 13th, Bonaire's planned referendum was postponed until further notice. The Island Council adopted an amendment stating a referendum would be held 'on a date to be determined later per Island Ordinance.'"
"The action effectively cancelled the Island' Government's attempt to test the mood of the people prior to the integration of the island with Holland on October10, 2010. The Referendum's outcome in any case would not have affected the integration."
"The amendment was offered by independent councilman Anthony Nicolaas. Opposition leader Ramonsito Booi asked for a vote but his four-person faction got up and left without voting, leaving the amendment to be accepted by the four Democratic party members and Nicolaas."
"The Referendum Committee had asked to postpone the poll from September

3 to October 1 to have more time to organize it properly. One of the matters that came up during the meeting was that the cost of conducting the referendum was estimated to be NAf 500.000. The budget approved earlier was only NAf 350.000."

Kelly, states, "So in essence, the referendum (or lack of) has little affect on our planned DXpedition." He also mentioned that they anticipate to have their group's Web site to go live this week.

The following is a full press release on the upcoming Bonaire operation:

Press Release: 10-10-2010, New DXCC activation of PJ4, Bonaire
Date: 11 August, 2010

The end of a country - The Netherlands Antilles With a 99% certainty, many things are about to change for the people and all radio amateurs in the Netherlands Antilles. On October 10, 2010 the Netherlands Antilles will cease to exist as a country within the Kingdom of the Netherlands and the islands will emerge with several new statuses:
* St. Maarten and Cura?ao will become an independent country within the Kingdom and will be granted the same status that Aruba attained in 1986.
* Bonaire, Saba and Sint Eustatius (also called BES islands) will be given the status of a public body (a kind of special municipality) in the Netherlands and will therefore fall directly under Dutch rule.

What does this mean for radio amateurs?

The two current DXCC entities of PJ2/PJ4 (Leeward Islands) and PJ5/PJ6/PJ7 (Windward Islands) are expected to be deleted. However, several new entities are likely to emerge on 10-10-2010.
* Both St. Maarten (PJ7) and Curacao (PJ2) will become a new DXCC entity.
* Bonaire (PJ4) will become a new DXCC entity.
* Saba (PJ6) along with St. Eustatius (PJ5) will become a single DXCC entity due to their proximity to each other.

In short, 2 entities will be disappearing, but 4 will come back!

Activities from Bonaire

Everyone knows what an activation of a new DXCC country means and that's why a group of hams from Bonaire, Germany, The Netherlands and the United States have joined forces to successfully activate Bonaire.

From six locations around the island, a group of between 15 and 20 amateurs will activate Bonaire between October 10-24, 2010. The primary focus will be all HF bands from 160 to 10 meters including the WARC bands. Due to the time of year, 6 meters will not likely produce much activity, but it will be a consideration. The team will focus on all modes including SSB, CW and various digital modes.

Callsigns

Callsigns will be announced prior to the activation. However, we expect the prefix to continue to be PJ4 even after October 10th. Further information about the callsigns to be used will be published on our website - http://www.bonaire2010.com

Radio Netherlands

With 6 locations around the island, there should be plenty of opportunity for a QSO. However, our premiere location is that of the short-wave transmitter site, Radio Netherlands. Bonaire is home to a large relay station and its impressive aerial park which provides up to 21 dBd gain. We are extremely pleased to announce that with the co-operation of the World Service, our group of hams has been granted use of the antennas during their "dead hours" on the HF bands.

In addition to our other locations, we anticipate being active on HF daily between 12:30 and 18:30 UTC from the Radio Netherlands facility. We expect to utilize this opportunity on 30, 20, 15 and 17 meters. Radio Netherlands is also expected to air a special program dedicated to the new status of the radio amateurs on Sunday, October 10th.

More information will be available on the Radio Netherlands' website <www.rnw.nl> or on the DXpedition website - <www.bonaire2010.com>.

Contacts with schools

Between October 11th-15th, the World Service's facility will also serve another purpose. A group of schoolchildren from Bonaire will be contacting another group of children in the Netherlands who will be the guest of Dutch ham PD1DX. This will provide an opportunity for the group of new Dutch country citizens to ask each other questions in order to get to know one other a little bit better.

QSL cards

All QSOs will be QSL'd through the services of Global QSL who will be responsible for printing and distributing cards to all QSL bureaus worldwide. If you do not use a QSL bureau or would like to send for a direct confirmation, all QSL information will be published on our website -- http://www.bonaire2010.com

Website with online log

Up to date information will be published on our website - http://www.bonaire2010.com
Information on Bonaire, sponsors, activation plans and the participants will be listed. In addition, we expect to have an on-line log.

Given the expected pile-ups, we kindly ask everyone who works us after 10-10-2010 and who finds themselves in the log not to call again. We want to give a new country to as many people as possible.

Participating hams

At the time of release of this bulletin the following amateurs will join the activation:
Bonaire : PJ4GT, PJ4LS, PJ4NX
Germany : DL9USA, DJ8NK
Netherlands : PA8A, PA8F, PA3GVI, PE2MC, PE2KY, PG4M
United States : K6AM, N0VD, W4PA, W0LSD
Puerto Rico : WP3UX

This list is subject to change. For the latest news about the participants, please visit our website.

See you in the pile-ups on 10-10-2010!

COUNTY HUNTING (USA-CA) -

N4AAT - Scottie - 6* - Aug. 23rd to Aug 31st - SSB and CW
Heading up to Wisconsin and will be running counties in GA, TN, KY, IL, WI, and maybe MN. Don't know which counties my truck will take me to, because it has a mind of it's own. I will check the needs list just in case. CW on request only (if I have time). Good for 8 stars (you can keep 3 in reserve), N prefix, 1x3 call combo, natural bingo, regular bingo, master gold, master platium, master firearms instructor, master driving instructor, and master bullcraper. I will try to run 17(18132) and 80(3900) meters, if I can hear anyone. QSL via home call. [County Hunter Web]

W9MSE - Jeff - 4* - August 23, 2010 to August 30, 2010 - CW Only
Trip from Fond du Lac, WI to Stark county OH. Will try to run whichever bands that are open in the following order unless we run out of time in the county, 40, 30, 20, 17, 15, 12, 10m.
23 August - WI: Fond du Lac, Dodge, Washington, Waukesha (short), Milwaukee, Racine and Kenosha. IL: Lake and Cook. IN: Lake, Porter, LaPorte, Starke, Marshall, Kosciusko, Whitley and Allen. OH: (Paulding 1 minute) Van Wert, (Putnam 1 minute), Allen, Hancock, Wyandot, Crawford, Richland, Ashland, Wayne and Stark.
Return trip on Aug 30, may be somewhat different route, but not sure

yet. On Saturday, August 30, plan to be active in the OH QSO Party. Route not determined, but expect it will be in the area from Stark county OH to the south. QSL via home call. [County Hunter Web]

** Open 2010 LY VHF/UHF/SHF Championship **
On behalf of the Lithuanian Radio Amateur Society (LRMD) we would like to invite all radio amateurs to participate in the annual LY VUSHF Championship which is scheduled to take place, as usually on the third Saturday of August which is 21th of August 2010 Bands 144MHz-10GHz - Full rules of the contest are here: www.lrmd.lt/utb/en/vushfcontest.html [MMMonVHF]

** ZP4KFX on 6m EME **
It is with great pleasure that I welcome Pino, ZP4KFX to the EME community! He made the first ever 6m EME contact from ZP this afternoon when we completed a contact during his moonset. Pino is running around 800w from a Harris Channel 2 TV amplifier module to a homebrew 10 element YU7EF yagi. He is horizon-only and has great ground gain. I first copied calls from him when his moon was up around 30 degrees, and then I copied him again around 25 degrees elevation and we completed around at around 19 degrees. [MMMonVHF]

New National Amateur Radio Society for Egypt:
The Egyptian Radio Amateurs Society for Development, ERASD, has been set up as the new national official representative body for radio amateurs in Egypt. According to the IARU Region 1 website, even though amateur radio has been present in Egypt since the early 1920s, there was no officially recognised society to represent radio amateurs in that nation. More information about it is online at: www.qsl.net/eara/

Vanuatu 2010 -- YJ0VK Update

27^th August 2010 through 2^nd September 2010

The YJ0VK team is fully prepared now. We fly out of the eastern seaboard of VK on Thursday 26^th August. We expect to be operational on 20mtrs by 00:00utc on 27^th August. Other bands will come on-line through the day. Our vertical antennas are constructed and tested and by all accounts are working very well.

We will be placing a special focus on the WARC bands, so pls QRV for us on the following frequencies:

CW SSB

10.107 10.130

18.077 18.118

24.897 24.935 (we'll look here regularly for openings)

On the traditional bands we'll be operating on the following frequencies +/- qrm:

CW SSB

1.820 1.860

3.511 3.670

7.011 7.170

14.011 14.170

21.011 21.270

28.011 28.470

We have a limited station for 160mtrs but we'll certainly have it operational each day at our sunrise and sunset.

We welcome all QSLs; please send them to the address on our web site or via the buro -- the team hopes to achieve DXCC during these six days.

For more info please visit our web site: http://yj0vk.vkham.com <http://yj0vk.vkham.com/>

73, and we hope to hear you on the bands

CY0 NEWS RELEASE - August, 2010
Operation dates have been modified slightly due to logistics matters:
October 21 - 29, 2010.
Unfortunately, Murray, WA4DAN has had to withdraw from the dxpedition, due to business conflicts. He was the original organizer and has been involved with all of the planning, since early in 2009.

Gary Bartlett - VE1RGB has been recruited as the 4th operator. Gary is a skilled CW operator, active competitor in contests, experienced in handling pileups, a great technical background. In addition, a plus is that Gary has previously operated from Sable Island. Call signs are: CY0/AA4VK, CY0/AI5P, CY0/N0TG, CY0/VE1RGB.

QSL "all" callsigns DIRECT Via N0TG or the preferred QSL route is VIA the ONLINE QSL REQUEST Service. QSL instructions and options are listed on our website: <http://www.cy0dxpedition.com/> www.CY0dxpedition.com (Click on How to QSL)

Dear Contester,

My call is YO2DFA and I am the contest manager of the YO DX HF Contest this year too.

If you receive this message it's because you participated at the YO DX HF Contest in one of the last 4 years!

The romanian radio-amateurs thank you for your participation!

I would like to inform you that this year the contest will take place in the weekend of 28-29 August.

The complete contest rules can be found at the following address:
http://www.yodx.ro/en/hf-contest/rules

The results of 2009 edition can be found at:
http://www.yodx.ro/en/hf-contest/2009/final-results

For more details regarding the activity of YO radio-amateurs, please visit the www.yodx.ro <http://www.yodx.ro/> web page.

If in the contest you will fulfill the conditions for an YO - 45P (1st class) award, this one will be sent to you for free. No additional request will have to be sent.
(http://www.hamradio.ro/media/dipl/nou/YO_45P.jpg).

I'm looking forward to your participation at 2010 radio celebration of the YO radio-amateurs and I wish you the best of luck!

I.C.P.O. Bulletin (26 August - 03 September 2010)
"Islands, Castles & Portable Operations"
Listing is by calendar date (day/month/year)
==========

27/08/2010: Dennis, KT8X will be on the air from Taiwan (AS-020, WLOTA L-0022) as BW/KT8X between 27 August and 6 September 2010. QRV in his spare time on the HF bands. QSL via LoTW. [ARRL DX News]

27/08/2010: Martin DM5LP, Rene DD1RE, Dirk DD1UDW and Thomas DK3DUA will be active as homecall/p on 27-29 August 2010 from the Saxon Switzerland National Park (WFF DLFF-012). They will also participate in the HSW-Contest (28 August) using the callsign DR5W. Expect activity on all bands. QSL via home calls. QSL DR5W by the information at QRZ.com. [DK3DUA]

27/08/2010: A team of 4 Australian amateur radio operators will be activating YJ0VK from near Port Vila on Efate Island (IOTA OC-035, WW Loc. RH42CG), Vanuatu, from the 27th of August to the 2nd of September 2010. Team members include Chris VK3QB (Team Leader), Allan VK2CA, Luke VK3HJ and Benton VK3CBV. They will be focusing on the HF bands (with special attention to the WARC Bands) and hope to hand out a QSO to everyone they hear. The stations will be fairly simple with power limited to 100 watts and antennae being verticals and dipoles. QSL via VK2CA, direct or bureau. Website: yj0vk.vkham.com/ [VK3QB]

28/08/2010: Giorgio, IZ4AKS will be active as 3B9/IZ4AKS from Rodrigues Island (AF-017, WLOTA L-4265) between 28 August and 4 September 2010. He will operate holiday style on 40-10 metres using 100 watts and a vertical placed near the sea. A few days before and after this operation he might be active as 3B8/IZ4AKS from Mauritius (AF-049, WLOTA L-0595). QSL direct to home call. [425 DX News]

28/08/2010: Operators Silvia EA1AP (YL), Juanjo EA1CJ, Jose Javier EA1JJ, Alberto EA1SA, Javier EA2JB, Juan EA2RC and Roberto EA2RY will be active as EG1OTA from Mouro Island (EU-142, DIE N-016, DME 39075, TPEA S) and lighthouse (FEA D-1554, ARLHS SPA-153, WLOTA 2720) on 28-29 August 2010. QRV on all bands from 80-10 metres. QSL via EA2RC. [OPDX Bulletin]

28/08/2010: Michel, F8GGZ along with Laurent, F8FSC will be active as F8GGZ/p on 28 August 2010 from the Mill of Garnier (DMF 39-018), Commune of Gizia (CP 39190), Canton [County] of Beaufort (DDCF 39-03), Department Jura/39 and Province Franche-Comte (DPF 10). Look for activity on 80, 40 and possibly 20 metres. QSL via home call, bureau or direct. [radioamateur.org]

28/08/2010: Laci, HA0HW will once again be J48HW from the island of Thasos (EU-174, GIOTA NAS-037, MIA MG-124, WLOTA L-4186, WW Loc. KN20HS) between 28 August and 7 September 2010. Look for activity on all HF bands. On his way back Laci will spend one day in Bulgaria, and he will operate from the LZ9W contest super-station as LZ/HA0HW. QSL via HA0HW, via HA-Bureau or direct (QRZ.com). [HA0HW]

29/08/2010: Niels, OZ7FOC says he will be active as SV8/OZ7FOC from Samos Island (EU-049, GIOTA SAS-006, MIA MG-099, WLOTA L-4163) from 29 August to 3 September 2010. QSL via home call. [425 DX News]

31/08/2010: Alex, GM0DHZ and Andre, GM3VLB are planning to activate many IOSA (Islands of Scotland) and SCOTIA (Scottish Island Award) islands during a 3 week DXpedition in September to the two IOTA groups -- Orkney (IOTA EU-009, IOSA OR01, SCOTIA OI14, WLOTA 1652) and Shetland (IOAT EU-012, IOSA SH01, SCOTIA SI11, WLOTA 1652) Islands. Using the callsigns GM0DHZ/p and GM3VLB/p, all islands being considered for activation are uninhabited, except two of them. Operators will fly to North Ronaldsay Island (IOSA OR04, SCOTIA OI33, WLOTA 0778) on August 31st. Then on September 2nd, they will take a fishing boat to Helliar Holm Islet (IOSA OR30, SCOTIA OI15, WLOTA 3000). PLEASE NOTE: The following islands listed are expected to be activated, but all depend on WX conditions. Also, there are NO definite dates for any particular island, but the following are listed as most likely to be activated in order of likelihood: 3-15 September - Shetland Island Group: Isle of Noss (IOSA SH11, SCOTIA SI09), Papa (IOSA SH25, SCOTIA SI06), Hildasay (IOSA SH16, SCOTIA SI07), Vaila (IOSA SH12, SCOTIA SI10), Bigga (IOSA SH20, SCOTIA SI19), Hascosay (IOSA SH15, SCOTIA SI21) and Linga [by Unst] (IOSA SH27, SCOTIA SI23). Other possibilities, but not ruled out are: Vementry (IOSA SH13, SCOTIA SI13), Papa Little (IOSA SH17, SCOTIA SI14), West Linga [by Whalsay] (IOSA SH28, SCOTIA SI16), Linga [by Muckle Roe] (IOSA SH26, SCOTIA SI17) and Balta (IOSA SH19, SCOTIA SI25). 16-20 September - Orkney Island Group: Papa Stronsay (IOSA OR34, SCOTIA OI25), Linga Holm (IOSA OR31, SCOTIA OI21), Cava (IOSA OR18, SCOTIA OI09, WLOTA 1555) and Calf of Eday (IOSA OR29, SCOTIA OI29). Other possibilities, but not ruled out are: Swona (IOSA OR15, SCOTIA OI01), Switha (IOSA OR16, SCOTIA OI03), Copinsay (IOSA OR19, SCOTIA OI12, WLOTA 0670), Muckle Green Holm (IOSA OR32, SCOTIA OI20), Eynhallow (IOSA OR24, SCOTIA OI24), Holm of Scock Ness (IOSA OR33 SCOTIA OI26) and Faray (IOSA OR23, SCOTIA OI28). QSL via home calls. [OPDX Bulletin]

01/09/2010: Loren, AD6ZJ, may once again be active from Singapore as 9V1/AD6ZJ during September. Activity will be limited as time permits, mostly during weekends and nights. Operations will be on any open bands, but he will focus on the 30/17/12 metre bands using CW, SSB and RTTY. QSL via LoTW, by the bureau or direct to his home callsign. [OPDX Bulletin]

01/09/2010: George, K3GV, will be active as K3GV/VY2 from Prince Edward Island (NA-029, CIsA PE001, WLOTA L-0523) on 1-30 September 2010. Activity will be on 15 and 20 metres around the usual IOTA frequencies. QSL via home call, direct or bureau. [OPDX Bulletin]

01/09/2010: Gab, SU/HA3JB will be active from Cairo, Egypt, between September and November 2010 to renew his license. He plans to operate CW, RTTY, PSK31 and some SSB, including an entry in the CQWW RTTY Contest (25-26 September). QSL via home call only direct with SAE. Please write on your QSL card your e-mail address so you will get e-mail feedback. Further info at: www.ha3jb.com/suha3jb.html [HA3JB]

01/09/2010: John, ZS1LF will depart for Gough Island (AF-030) in September and will remain there for one year. He plans to operate as ZD9GI in his spare time, "after official working hours and weekends". John will use dipoles (yagi antennas are not permitted) and will operate "SSB at this stage, digital modes later". Activity on the amateur bands will start after the supply ship, the SA Agulhas, leaves the island, and according to The Daily DX John "does not expect to be QRV until early November". QSL via ZS1A, direct (Johan Sevenster, 2 Roozeboom STR - de Bron, Bellville, 7530, South Africa) or via the bureau. [425 DX News]

02/09/2010: Yoshi, JK2VOC will be active as 9M6/JK2VOC from East Malaysia [Borneo Island - Sabah, Sarawak] (OC-088, WLOTA L-0119) on 2-6 September, 2010. Activity will include the All Asia DX Phone Contest (4-5 September). QSL via JK2VOC. [OPDX Bulletin]

02/09/2010: Operators Gerard PE1BBI, Kees PA5WT, Frans PC5T, Rob PE1ITR and Theo PA1TK will be active from near Consthum, Clervaux canton, Diekirch district, northern Luxembourg (WW Loc. JN39AX) starting 2 September until 5 September 2010. Their main goal will be the VHF Contest on 4-5th September, but there will be HF activity as well on the bands 80 to 10 metres, CW/SSB. Also look for them on 70 MHz! Large Yagi antenna systems will be built for 144 MHz and a spider beam and dipoles for HF and a 5el. beam for 70 Mhz. Look for LX/PA1TK in the VHF Contest and LX/homecalls the days before the weekend contest. Contest QSLs for LX/PA1TK go via PA1TK, all others go via their home callsigns. Pictures and the story can be found on: www.vhfcontesten.nl [NG3K]

03/09/2010: A team from ARI Vinci (Ferdinando I5FCK, Giuliano I5HQG, Loris IK5GFC, Piero IK5UIK, Giuseppe IK5YOJ, Luca IK5ZUB, Marco IZ5AJP, Rossella IZ5BRO and Riccardo IZ5EBL) will be active as IA5/IQ5LV from Pianosa Island (EU-028, IIA LI-016, MIA MI-074, WLOTA L-0968, WAIS DJ21) on 3-5 September 2010. They will operate SSB, CW and digital modes on all bands, including 50, 144, 433 and maybe 1200 MHz. QSL via IZ5ENZ. [425 DX News]

03/09/2010: Juergen, NF6J plans to be active from Battle Island (NA-044, CIsA NF-049) as VO2/NF6J on 3-10 September, 2010. QRV on 30, 20, 17, 15 and 12 metres, CW only. QSL via home call, direct or bureau. [rsgbiota.org]

03/09/2010: Six Brazilian operators will be active as ZY6Z from Morro de Sao Paulo lighthouse (DFB BA-06, ARLHS BRA-157 WLOTA L-1624), Forte Morro de Sao Paulo (WCA PY-00015, DFH BA-11) and Tinhare Island (SA-080, DIB BA-05), Bahia State, on 3-7 September 2010. The Brazilian Navy schedule could affect the dates. Operators include Jose PY6HD, Roberto PY6RT, Nilzo PY6AWU, Ramon PY6KY, Cristovao PY7GK and Fernando PY2JY.

QRV on 80-10 metres using CW and SSB. Suggested frequencies are: CW - 3530, 7030, 14040, 18098 and 21040 kHz; SSB - 3755, 7060, 14260, 18128, 21260, 24950 and 28560 kHz. QSL via PY6HD direct only. Also QSL via LoTW (no eQSL, no bureau). [OPDX Bulletin]
==========
LOOKING AHEAD -

06/09/2010: Saad/N5FF will again be QRV from Syria as YK1BA on 6-17 September 2010, with priority for those needing YK for a new entity/band/mode. See QRZ.com for details. [NG3K]

09/09/2010: Yigal, K2EFG/p plans to activate Fire Island (NA-026, USi NY013S), Suffolk County, New York, and lighthouse (ARLHS USA-286, TWLHD WLH K-060, WLOTA LH 1922) on 9-12 of September 2010. QRV mainly on 20/40m and may go to 10/15m as the conditions allow, using a Buddipole antenna working portable from the eastern part of the island. There may be a time when Yigal will be directing a YP3 Yagi to the west (in-land). He will be working at 3-4 hours as there is no power available at the dunes where he can set up an antenna. The output will be 75-100W from an FT-857. QSL via home call, direct or bureau. [islandchaser.com]

10/09/2010: Jean-Claude F5IL, Christophe F5UBH, Luis F5THW and Juan F5IRC will be active as TM5BATZ from Batz Island (EU-105, DIFM MA018, WLOTA 0680) on 10-12 September 2010. QRV 80-10 metres using Phone, CW, PSK31 and RTTY. QSL via F5IRC, direct or bureau. [rsgbiota.org]

12/09/2010: Reiner, DK4VY will be active as OZ/DK4VY/p from Fanoe [aka Fanø] Island (EU-125, DIA NS-002) on 12-17 September 2010. QRV holiday style on 80-10m SSB, RTTY, PSK, (CW?), using 100W, Ant: LW, G5RV. QSL via home call, bureau or direct. [rsgbiota.org]

17/09/2010: Aki, JA1NLX plans to activate Dunk Island (OC-171), Queensland State, Australia, on 17-24 September 2010 as homecall/VK4. QRV 80-10m, CW only, using K2 or FT857 with microHAM CWKeyer / 5m long Buddistick with a lots of radials. QSL via home call, direct or bureau. CY0 NEWS RELEASE - August, 2010
Operation dates have been modified slightly due to logistics matters:
October 21 - 29, 2010.
Unfortunately, Murray, WA4DAN has had to withdraw from the dxpedition, due to business conflicts. He was the original organizer and has been involved with all of the planning, since early in 2009.

Gary Bartlett - VE1RGB has been recruited as the 4th operator. Gary is a skilled CW operator, active competitor in contests, experienced in handling pileups, a great technical background. In addition, a plus is that Gary has previously operated from Sable Island. Call signs are: CY0/AA4VK, CY0/AI5P, CY0/N0TG, CY0/VE1RGB.

QSL "all" callsigns DIRECT Via N0TG or the preferred QSL route is VIA the ONLINE QSL REQUEST Service. QSL instructions and options are listed on our website:

Dear Contester,

My call is YO2DFA and I am the contest manager of the YO DX HF Contest this year too.

If you receive this message it's because you participated at the YO DX HF Contest in one of the last 4 years!

The romanian radio-amateurs thank you for your participation!

I would like to inform you that this year the contest will take place in the weekend of 28-29 August.

The complete contest rules can be found at the following address: www.yodx.ro/en/hf-contest/rules

The results of 2009 edition can be found at: www.yodx.ro/en/hf-contest/2009/final-results

For more details regarding the activity of YO radio-amateurs, please visit the www.yodx.ro/ web page.

If in the contest you will fulfill the conditions for an YO - 45P (1st class) award, this one will be sent to you for free. No additional request will have to be sent. (www.hamradio.ro/media/dipl/nou/YO_45P.jpg).

I'm looking forward to your participation at 2010 radio celebration of the YO radio-amateurs and I wish you the best of luck!

9663. Weekly updates working?

Just tried to update for the first time in several weeks, from GOWIN Issue 1007. Can't find the current file!

When I sign in and get to the Downloads page, I see the July issue #1007. Whn I click on that file, I get taken to another page with three additional files:

1. K1XN's DX Aler
2. DX Alert #1008C in delimited form
3. The GoLister - a weekly news sheet

Double-clicking on any of them opens the underlying file. None is the QSL manager weekly update!

I'm undoubtedly doing something wrong here, but ca't figure out what. I've been a subscriber for years, so this is not an unfamiliar experiece for me.

Would appreciate any help. Many thanks.

To all concerned...Confirmation that Alex G(M)0DHZ and myself begin our Orkney/Shetland expedition tonight.

The plan is as follows...BUT...extremely WX-dependent. We will concentrate on 20m and 40m (J3E and A1A). When we are on the main EU-009 and main EU-012 islands, we also hope to try 160m.

This is very much a /P operation, i.e. NO amplifiers, NO computers, NO beams, NO accommodation (other than tent or small van) and NO sponsors! There will mostly be NO GENERATOR (i.e. battery power only)!!

QSLing will be "direct only" to respective home-calls (as per www.QRZ.com)

Andrr? GM3VLB or Alex G0DHZ. No minimum postage or no self-addressed return envelope or QSO times more than ? 5 minutes will mean NO QSL!

PLANNED DATES (with absolutely no guarantees - watch the DXSummit, and thanks for putting us on the "cluster" when you hear us - this really does help QRP stations such as ours)

31 Aug N.RONALDSAY OI33
1 Sep N.RONALDSAY OI33

September 2010 News

Pierre D. Tromp ZS1HF

ITU Zone: 57 CQ Zone: 38 46 54 S 37 05 E

Grid: KE83wc IOTA: AF-021

Hi All,

Welcome to the September News Letter.

I will be concentrating more on the operational and technical side of ZS8M this month, as well as a bit of usual chit chat and info on life out here.

The Polar Supply Ship SA Agulhas arrived at Marion Island on Thursday 12 Aug and spent six days off loading construction workers, cargo, diesel and food. The new base has been under construction for a number of years and is scheduled to be completed end October / beginning November.

Good news; John ZS1LF will be departing to Gough Island on 2 Sept and will be active as ZD9GI around end of November. I have sent my linier back to Cape Town and John will be using it at Gough Island. John and I are friends and former colleagues from the SA Air Force and are both qualified radio technicians with a passion for HF. Keep a lookout for John on the HF bands.

My SteppIR BigIR Mk III arrived and will remain the box until the construction team departs. I will be installing it closer to the new base around middle November.

Talking of beams, I have had a few enquiries or comments as to why I am using a dipole. Firstly, no extra antennas and buildings unless it has been approved by an EIA. Secondly, I am not aware of any HF beam that will withstand 90 knots gusts and lastly and very importantly, management are trying to decrease bird casualties. We do have birds flying into buildings at night during storms, but mostly during misty conditions coupled with lightning.

I often get a begging request for me to beam long or short path into a certain region, only to tell the operator that I cannot comply as I am using a dipole. What, no beam? Are you sure you don't have a beam? Is that possible? Yes OM, no beam. I suppose this creates more of a challenge for the station trying to work me as well. Here I am working approximately 300Watts into a dipole compared to a station working with 1,5 or 3kW into a Yagi, but I am getting out and hopefully

when propagation improves, I will be able to work more DX as well.

Thanks to all who have sent me pictures of their stations. I feel intimidated looking at these awesome stations that have taken time, love and dedication to create.

The ZS8M Dxpedition is going well. To date I have make some 2900 contacts, considering the hours that I am able to operate. Propagation has been picking up very slowly, still making DX a challenge. I have absolutely no control over where and for how long propagation will be open into a specific place or region, making it all the more interesting so see where I am communicating.

So it's back to basics; the skill is to select the right frequency, time of day, knowing your propagation and make sure your station out performs your competitor. So far the results are interesting; my dipole and 300 Watts compared to the 1,5 or 3kW into a Yagi; the signal reports are very similar. I give actual reports, not just 59. I am not in contest mode, but end with a 'thanks for the contact OM, look for you again, good DX, 73'.

There has however been a pirate using the ZS8M call sign and has created a few incidences where a QSO has been queried. I have informed those enquiring that I have a sexier voice than the pirate, so this should be the standard to identify me correctly.

Propagation has been fair in the morning with DX into the USA, Brazil and sometimes British Columbia, but there have been mornings when propagation was poor. On a few occasion when a massive cold front swept over the island, coupled with thunder and lightning, no contacts were possible due to excessive static (QRN) levels. Not only was communications wiped out on the higher (amateur) HF frequencies, but also on the lower 2MHz commercial band where the island has a commercial frequency to communicate to the over night huts. Daily propagation studies continue.

Very bad discipline from Italian and Spanish operators prevented other European operators from working ZS8M on 30 Aug 2010. It's a pity that this type of attitude spoils it for everyone. I received many emails from operators around the world condemning these actions. Thanks for the support.

DX Special Bulletin No. 974.1

Thanks to the Northern Ohio Amateur Radio Society, Northern Ohio DX Association, Ohio/Penn PacketCluster Network, AB5K & the AR TelNet Clusters Network, Eric/N3NA and the Radio Expeditions, Inc. for the following DX information.

For immediate release...

On 2010 August 31 the Refuge Manager at US Fish & Wildlife Service (FWS) notified the Radio Expeditions Inc team that it will receive a permit to conduct the next DXpedition to Jarvis Island (KH5).

The selection of a team to visit Jarvis is the most recent step in a long procedure that began in 2009 June with a visit by Radio Expeditions management team members to the Honolulu FWS office.

The administration of the Jarvis Island National Wildlife Refuge is conducted according to goal set in the Comprehensive Conservation Plan, which was finalized on 2008 Sep 24. You can read this Plan here: http://www.fws.gov/pacific/planning/main/docs/HI-PI/HBJ/JARVIS_Final%20CCP.pdf

During the first half of 2010 the FWS staff developed a draft "Compatibility Determination for Amateur Radio Operations at the Jarvis Island National Wildlife Refuge". This document contains the rules and constraints for DXpeditions at Jarvis. Simultaneously Radio Expeditions Inc submitted an initial application for a permit and, together with the owner of the "MV Braveheart", met again with the refuge management staff in April to discuss plans, constraints, and options.

The draft compatibility determination was made available on the FWS website on 2010 June 21 and public comments were solicited. Radio Expeditions Inc was among the groups commenting on the draft. The public comment period closed on 2010 July 5.

The FWS Honolulu office staff reviewed the comments, made a number of changes, and submitted a final draft for approval at their regional office in Portland, Oregon. On 2010 July 28 the final version was released and is attached to this message. Among the many constraints

is the limit of one DXpedition per 5-year period.

Revised applications for a permit were accepted until a deadline of 2010 August 25. Attached are the application documents submitted by Radio Expeditions Inc. The constraints in the Compatibility Determination required a radical restructuring of our plans, reducing both the number of stations and the time on the air.

Since more than one group submitted an application which met the requirements of the compatibility determination, a lottery among the qualified groups was held at the FWS Honolulu office by the refuge manager on 2010 August 30. Radio Expeditions Inc was fortunate to be selected.

Due to the time required to establish the rules for amateur radio operations in the Refuge, the late selection date, and the lead time required to schedule and prepare the MV Braveheart, the expedition has been postponed one year until 2011 November. November remains the best month to visit Jarvis Island from a propagation standpoint, with the largest combination of openings predicted to Europe on both 160/80 and 12/10 meter bands.

Members of the email distribution list will receive additional messages over the next few months on the DXpedition plans, including details about how the project will comply with the many restrictions imposed on amateur radio operations at Jarvis.

Dear Applicants for a permit to carry out an amateur radio expedition to Jarvis Island in 2011,

We received 2 applications for this expedition and reviewed both of them carefully to ascertain if the described operation met the constraints described in the stipulations of the Compatibility Determination for Jarvis Island National Wildlife Refuge to engage in amateur radio operations.

Both applications met those standards. Because we are only able to issue one such permit every 5 years we identified the application that would be given the permit by a coin toss witnessed by two individuals unfamiliar with the situation. The random result of this coin toss is that the permit will be issued to Radio Expeditions, Inc. represented

by Eric Scace.

We appreciate the hard work, patience, and cooperation of both parties applying in working with us to ensure that these kinds of activities can be carried out in a manner compatible with the wildlife conservation purposes of the National Wildlife Refuge.

Sincerely,

Beth Flint

18/09/2010: Special event station GB0NRS will be active on 18-19 September from RAF Northam, Devon, England (IOTA EU-005, WLOTA 1841). The RAF station at Northam came into operation in 1941 and was a Chain Home station, able to detect incoming high-level aircraft at long ranges. The RAF station ceased to operate in 1944. This operation coincides with the 'Battle of Britain' celebrations. QRV on 80, 40 and 20 metres, by operator Andy, G0NKK. [RAFARS]

18/09/2010: Paul, M3KBU (RAFARS No. 4712) will be active on 18 September 2010 as homecall/p from RAF Compton Bassett, Wiltshire, England (IOTA EU-005, WLOTA 1841). First opened as an air base in World War I, RAF Yatesbury continued operations in the interwar years before again taking on a major role in World War II. From 1936 onwards, RAF Yatesbury and RAF Compton Bassett were major Radio and Radar Training Schools. QRV on 80, 40, 20, 2m. QSL via home call, direct or bureau. [RAFARS]

18/09/2010: Look for Robert, MM0RDT to be active as homecall/p on 18 and 19 September 2010 from RAF Grangemouth, Stirlingshire, Scotland (IOTA EU-005, WLOTA 1234). From September 1939 to March 1941 RAF Grangemouth was used by 602 Squadron flying Spitfires, 141 Squadron flying Blenheims & Gladiators and 263 Squadron flying Lysanders. In the December of 1940 it was used by No. 58 Operational Training Unit (later renamed No. 2 Tactical Exercise Unit). After the war, it was used as a gliding school and by No. 13 Refresher Flying School, then by RAF Maintenance Command until closure in 1955.This operation coincides with the 'Battle of Britain' celebrations. Expect activity on the 80, 40 and 20 metre bands. QSL via home call, direct or bureau. [RAFARS]

19/09/2010: Paul, M3KBU (RAFARS No. 4712) will hit the airwaves again as homecall/p on 19 September 2010, this time from RAF Yatesbury, Wiltshire, England (IOTA EU-005, WLOTA 1841). First opened as an air base in World War I, RAF Yatesbury continued operations in the interwar years before again taking on a major role in World War II. From 1936 onwards, RAF Yatesbury and RAF Compton Bassett were major Radio and Radar Training Schools, RAF Townsend a satellite landing ground and RAF Cherhill was 27 Group Headquarters Technical Training Command. It is the oldest air base in the whole of Europe and is the only air base in the world that is still is such good condition. Activity will be on the 80, 40, 20 and 2 metre bands. This operation also coincides with the 'Battle of Britain' celebrations. QSL via home call, direct or bureau. [RAFARS]

03/09/2010: GB2LGR will be operating from the former RAF airfield at Langar, Nottinghamshire (WW Loc. IO92NV, WAB SK73, IOTA EU-005, WLOTA 1841), during September 3/4/5 weekend and is a special event organised by the Royal Air Force Amateur Radio Society for Airfields On The Air (AOTA). The special event call is to celebrate 70 years since the Battle of Britain which took place between July 1940 and September 1940. QRV on 80, 40, 20 and 2 metres. QSL via bureau or RAFARS. [RAFARS]

03/09/2010: Special event station GB4BLR, operated by HARES, will be aired on 3-5 September 2010 from the Shackerstone Railway Station (WW

Loc. IO92GP, WAB SK30) on the Battlefield Line, in Leicestershire. The Battlefield line is a preserved steam and Diesel Railway which runs from Shenton Site of the battle of Boswroth Field to Shackerstone. This activity also counts for IOTA EU-005 and WLOTA 1841. QSL via the RSGB bureau or direct to M0JAV. [GB2RS]

04/09/2010: Members of the Radio Club of Binche (ON7RY) will activate the special event station ON4WAR on 4-5 September 2010. This activity is to commemorate the sacrifice of the Belgian Resistance (WWII) and especially those of the Refuge B 40 in Waudrez, Belgium. The timetable of the activities are as follows: Sept. 4th - Saturday between 9:00 AM and 06:00 PM local time (1100-1800z); Sept. 5th - Sunday between 08:00 AM and 04:00 PM local time (1000-1600z). PLEASE NOTE MODES OF OPERATIONS: At the top of the hour up to the hour and a half, CW transmissions with a Whaddon Paraset MK VII on 3.560 MHz, 3.579 MHz, 3.583 MHz and 7.025 MHz. At the hour and a half up to the next hour, SSB transmissions on the HF bands. QSL information via ON7RY, direct or by the Bureau. For more info about the ON4WAR station and about the history of Refuge B 40, visit the Web site at: www.on7ry.be/ [OPDX Bulletin]

04/09/2010: Operators Peter, PD1AJJ and Elmar, PD3EM, members of the Lowlands 5x5 Rapid Deployment Amateur Radio Group, will activate the special event callsign PD55RADAR from 4-14th September 2010. The 'RaDAR' is short for 'Rapid Deployment Amateur Radio', and this is an international concept of Radio Amateurs being able to operate anywhere under all circumstances. The goal is to set up an Amateur Radio station quickly on remote sites anywhere using only battery power. Anywhere means not only sites reachable by car but also on locations after a few miles walk. The 5x5 concept means being able to communicate by Amateur Radio within 5 minutes after arriving with the QRP power of 5 watts maximum. The Lowlands 5x5 RaDAR Group is not a club with payed membership. It's the concept that brings these Dutch Radio Amateurs together. For more info, check: www.pd3em.com/ [OPDX Bulletin]

05/09/2010: The Loughton & Epping Forest Amateur Radio Society (G4ONP) will be active on 5 September 2010 as GB2EFF from the City of London's annual Epping Forest Festival (good for the 'Epping Forest' award), in the London Borough of Waltham Forest (IOTA EU-005, WLOTA 1841, WAB TQ39). QSL via G0TOC, direct only. Website: www.lefars.org.uk/ [LEFARS]

05/09/2010: Members of the Symbol Technologies Amateur Radio Club will sponsor a special event station honoring those who lost their lives during the horrific terrorist attacks on U.S. soil of 9/11/2001. Club station W2SBL will be multi-operated as N1Y on Saturday 1500z, September 11th, through 1500z Sunday, September 12th. Operations will be from grid FN22 in Delaware County, NY. Activity will be on the HF bands using SSB/CW/PSK31/SSTV, and on 70cm/2m/6m SSB. QSL is 100% via a SASE or by the Bureau via W2SBL. [OPDX Bulletin]

09/09/2010: Look for special event station N3U/United Flight 93 to be activated on 9-13 September 2010, to remind Amateur Radio Operators

World-Wide of the tragic events that happened near Shanksville (PA), New York City and Washington DC on September 11, 2001." This operation will be sponsored by the Blair Amateur Radio Society (W3PN) along with various local, state and government agencies (City of Altoona, Blair County Pa, Red Cross, EMA/911, LEPC, PEMA, DHS). The N3U/United Flt 93 operators will include: Bob W3BTX (also P49T), Roy W3TEF and various other W3PN club members. QSL N3U/Flt 93 via W3PN, by the bureau or direct with sufficient postage. PLEASE no eQSL or LoTW at this time. For more details, see QRZ.com. [OPDX Bulletin]

VU - Indian amateurs now on 6m:
India's amateur radio operators now have access to the 6m band. The new allocation says 50 to 54MHz on F1B, F2B, F3E, F3C modes using 25 watts. Indian amateurs are hoping there is a mistake and are seeking clarification as previous allocations allowed CW and SSB among other modes on VHF/UHF. The other interesting development is that 400 watts DC input power has been allowed on all HF bands for the General class licence. Earlier the limit was 150 watts input with 400 watts being allowed in very small sub-bands for the old Advanced class licence holders. [GB2RS]

Battle of Britain - GB70BRS
Last chance to work GB70BRS!
During its time as a radar research centre and as an operational station for Chain Home radar, Bawdsey Manor was known by the acronym BRS - Bawdsey Research Station.
In recognition of the historic events that took place in 1935 and 1940 which played a significant part in Britain’s war effort, the site has been activated in Feb 2010 (GB75BRS) and June (GB70BRS).
Over the weekend of 11 and 12 September 2010, BRS will be activated for the final time, as GB70BRS, to commemorate the contribution of radar to success in the Battle of Britain.
Part of the aim of the operation is to raise funds for benevolent organisations working in the field of supporting families and members of the RAF. To this end, the Daventry and Bawdsey Certificates were established. Proceeds from the Daventry Certificate are going to the British Legion - this award is available to stations who worked all three active sites during the operation in February to commemorate the Daventry Experiment.
The Bawdsey Certificate is available to stations who worked the Bawdsey site as GB75BRS in Feb, and as GB70BRS in either June or Sept - so this is the final opportunity to complete that! Proceeds from the Bawdsey Certificate are going to the RAF Benevolent Fund.
More detail about the awards, including examples of the certificates and how to apply can be found on the BRS website at http://bawdseyresearchstation.org.uk - please help to support those working to make the lives of ex-servicemen and women, and their families a little more comfortable.
You can also find details about our previous operations, and our planned activity and preferred frequencies for September on the site.

VKØ - Heard Island
Steve VK6IR and Chris VK3FY are in the planning stages to go to Heard Island in February 2013. Operators is limited to 13. It's expected that the activation will be for 14 days, whilst travel to and from the island will take 14 days each way. Costs are likely to be in the order of USD$400-500k. Chris, VK3FY explains negotiations have begun with the ships owners and an application has been forwarded to the relevant goverment department in regards to the landing permit. [dx-world.net]

AREC at the ready following big earthquake
So far AREC (Amateur Radio Emergency Communications) volunteers have not been required in any major way to assist, following the earthquake that hit Christchurch in New Zealand.

The magnitude 7.1 earthquake occurred at 4.36am local time Saturday 4 September, while most people were asleep in their homes.

The result was extensive building damage in New Zealand's second largest city, Christchurch, with only two people seriously hurt and no one reported trapped or missing.

AREC Deputy Director, Geoff Chapman ZL3PX who lives in Christchurch, said that while AREC was at the Civil Defence Headquarters, there has been no requirement for it to pass any emergency traffic.

That is due to restoration of telephone and power to the majority of the affected areas. While water and sewerage systems have been affected there has been no reported major loss of roads or bridges.

However AREC is ready, as the situation could worsen with the weather bureau issuing a warning of very strong winds with gusts up to 130km/h and heavy rain posing new threats to already damaged buildings.

Adding to the danger are numerous aftershocks with authorities advising that these will continue for many days or weeks.

The quake is New Zealand's most damaging since the one which hit Napier (Hawke's Bay) in February 1931, that saw radio amateurs extensively provide emergency communications.

That led to the formation by the IARU national radio society, the New Zealand Amateur Radio Transmitters (NZART) of what is today known as AREC.

I'm pleased to announce that I'll be having a holiday style DXpedition to Fitzroy Island OC-172 on October 16-22 2010. This IOTA hasn't been on the air since 2003.

I'll be using the call VK4LDX/P and running 100W into verticals and/or dipoles for 40m, 20m and 15m on SSB, PSK31 & RTTY. My wife and I have a beachside cabin so I'm looking at setting up the antennas right on the beach.

QSL info on qrz.com and please visit http://vk4ldxoc172.blogspot.com/ where I'll have regular updates

Space Weather News for Sept. 9, 2010
http://spaceweather.com

SPECTACULAR ERUPTION: Just as sunspot 1105 was turning away from Earth on Sept 8th, the active region unleashed a spectacular eruption of plasma and extreme ultraviolet radiation. Earth was not in the line of fire--this time. Must-see movies from the Solar Dynamics Observatory and other spacecraft are highlighted on today's edition of http://spaceweather.com.

SPACECRAFT FLYBY ALERT: This is a good week for satellite watchers in the USA and Canada. Both the International Space Station and the US Air Force X-37B space plane are making a series of favorable passes over North American towns and cities. The spacecraft are easy to find using our Simple Satellite Tracker--an app for iPhones and Android. Visit http://simpleflybys.com for downloads and more information.

NEW PRODUCT PRESS RELEASE

CQ Amateur Radio Operators Calendar
15 month calendar - January 2011 through March 2012

Hicksville, NY - CQ Communications, Inc. is now accepting orders for an
annual favorite - the
CQ Amateur Radio Operators Calendar. The 2011 - 2012 calendar orders are
scheduled to ship no later than September 30th. Orders placed by
September 27th will also receive a $5.00 OFF coupon with their calendar.

Photographer Larry Mulvehill, WB2ZPI has done it again! Larry zig-zagged
across the nation and captured 15 spectacular images of some of the
biggest, most photogenic shacks, antennas, scenics and personalities in
the nation!

This fifteen month calendar (January 2011 through March 20112) includes
dates of important Ham Radio events such as major contests and other
operating events, meteor showers, phases of the moon and other
astronomical information, along with important and popular holidays.

We've held the price to $10.95 again this year and kept the "lower than
usual" shipping and handling costs for this product. Shipping and
handling to a domestic address is $2, to Canada/Mexico - $4, to all
other countries - $9.

Order by Monday, September 27th and you'll receive a $5.00 OFF coupon
with your calendar (one coupon for each calendar ordered) to use towards
your next purchase of $25 or more at the CQ On-Line Store

I.C.P.O. Bulletin (09-17 September 2010)
"Islands, Castles & Portable Operations"
Listing is by calendar date (day/month/year)
==========

09/09/2010: Yigal, K2EFG/p plans to activate Fire Island (NA-026, USi NY013S), Suffolk County, New York, and lighthouse (ARLHS USA-286, TWLHD WLH K-060, WLOTA LH 1922) on 9-12 of September 2010. QRV mainly on 20/40m and may go to 10/15m as the conditions allow, using a Buddipole antenna working portable from the eastern part of the island. There may be a time when Yigal will be directing a YP3 Yagi to the west (in-land). He will be working at 3-4 hours as there is no power available at the dunes where he can set up an antenna. The output will be 75-100W from an FT-857. QSL via home call, direct or bureau. [islandchaser.com]

09/09/2010: Trond, LA9VDA will activate IOTA EU-079 on 9-14 September 2010 starting with Gurskoy Island (WLOTA 2397) on the 9th (for a few hours), then Rimoy Island (WLOTA 2137). Expect activity on the HF bands 80-10 metres, propagation permitting. QSL via LA9VDA, bureau or direct. [islandchaser.com]

01/10/2010: Tom, AB6Z will be on San Clemente Island (IOTA NA-066, USi CA008S, WLOTA 2332, Los Angeles County), California, during the month of October, 2010. He will be operating 20 and 40 metres, both phone and CW, using 100 watts to a Verticle antenna. The major part of his contacts

will be CW but will be QRV SSB also. Operation will be as Tom is able, due to his work schedule. QSL to K5OAZ (SASE/SAE + sufficient postage). Logs will be uploaded to LoTW and eQSL. [rsgbiota.org]

01/10/2010: Fred, PA0FAW will be operating as PC75HV again from 1 till 28 October 2010. He will be running mostly CW and Digital modes, but SSB is probably also ok. Operating mainly from De Hoge Veluwe National Park (WFF PAFF-005), Gelderland. QSL as usual via PA0FAW, Direct, Bureau, e-QSL.cc ...and SWL's all ok. Fred is an ISWL Member, so if worked or heard, can be counted for the ISWL Monitor award. [Pete's-DX-Newsdesk]

08/10/2010: Jeff K8ND, Bill W9VA, and Jerry WB9Z will be on a ham vacation to the Signal Point contest station on the island of Curacao (SA-006, WLOTA 0942, WW Loc. FK52KG) on 8-18 October 2010. They will sign PJ2/homecall, and on 10 September they will use the callsign PJ2T for the 10-10-10 operation. QRV on all HF bands, plus 6 metres. QSL via home calls and LoTW. QSL PJ2T via N9AG. Note: The station (PJ2T) will be opened to amateurs participating in the GAREC conference (11-12 October), as well as to any local Curacao amateurs who wish to operate from Signal Point during the post 10-10-10 week. [NG3K]

30/10/2010: During the last weekend of October 2010, a SV Special Call will be On The Air. SX2500M. 2010AD~490BC = 2,500 years from the Battle and Race of Marathon. Further info can be found at http://SX2500M.blogspot.com [SV2GWY]

27/11/2010: Look for Emilio, IZ1GAR to be active as IH9R during the CQWW DX CW Contest (27-28th November), as a Single-Op/Single-Band (40m) entry from Pantelleria Island (IOTA AF-018, IIA TP-001, MIA MI-124, WLOTA 0041). QSL via home call, bureau or direct. [NG3K]

27/07/2011: W4T will once again be active from Tangier Island (IOTA NA-083, USi VA001S, WLOTA 3049, Accomack County), Virginia, on 27-31 July 2011. Operators include Vic W4VIC, Barry K5VIP, Butch KE4AZL, Rich N2XQM, Talley W4TVG, Quint K4CQW, Joe KI4RKB, Jose N4BAA and Ron W8RJL. The will also be a Multi-Op Island DXpedition category in the RSGB IOTA Contest (30-31 July). Outside the contest, they will be QRV on 80-10 metre CW, SSB and RTTY. QSL direct (SASE/IRC Please) via K5VIP for a special expedition card. Logs will be uploaded to LoTW at the end of the expedition. QSL requests without SAE/IRC will be returned via bureau. SPECIAL EVENTS -

09/09/2010: Look for special event station N3U/United Flight 93 to be activated on 9-13 September 2010, to remind Amateur Radio Operators World-Wide of the tragic events that happened near Shanksville (PA), New York City and Washington DC on September 11, 2001." This operation will be sponsored by the Blair Amateur Radio Society (W3PN) along with various local, state and government agencies (City of Altoona, Blair County Pa, Red Cross, EMA/911, LEPC, PEMA, DHS). The N3U/United Flt 93 operators will include: Bob W3BTX (also P49T), Roy W3TEF and various

other W3PN club members. QSL N3U/Flt 93 via W3PN, by the bureau or direct with sufficient postage. PLEASE no eQSL or LoTW at this time. For more details, see QRZ.com. [OPDX Bulletin]

10/09/2010: On the occasion of the 150th anniversary of the Battle of Castelfidardo Carabinieri On The Air (C.O.T.A.), with the support of the West Wind DX Station, will activate the special callsign II1CC from 10th to 19th September 2010. QRV on all HF bands. QSL via IZ4SUC, bureau or direct. Websites: www.cota.cc/ and www.westwind.it/ [Associazione Radioamatori Carabinieri]

11/09/2010: Look for special event station GB1RBP to be active 11 September 2011 from RAF Bentley Priory, Stanmore, Harrow, England (IOTA EU-005, WLOTA 1841). RAF Bentley Priory was a non-flying Royal Air Force station near Stanmore in the London Borough of Harrow. It was famous as the headquarters of Fighter Command during the Battle of Britain and the Second World War. QRV on 3710 kHz (1030-1130z), 7045kHz/14270 kHz (1230-1330z) and 14270/18110/21290/24930/28590kHz (1430-1530z). Also check 80, 40 and 20 metres between these times. Operators will be David, G3RZF and Martin, G4SOH who will be using 2 HF stations. QSL via the information on QRZ.com. [RAFARS]

11/09/2010: The Appledore & District ARC (www.radioclubs.net/adarc/) will operate GB2AC at the open day on 11 September 2010 at Arlington Court in North Devon, England (IOTA EU-005, WLOTA 1841), downed by the National Trust. The station will be operational on all HF bands. QSL via G0JOD. Website: http://www.qrz.com/db/GB2AC [GB2RS]

12/09/2010: GB2BCL is a special event callsign which will be active on Sunday 12th September 2010. BCL stands for Barmoor Castle Lowick (Northumberland) in the North East of England (IOTA EU-004, WLOTA 1841). The callsign commemorates the 497th Anniversary of the historic battle of Flodden Hill on 9th September 1513. Members of the Northumbria ARC and Border AR Society (Berwick Upon Tweed) will join together to make this a special day. The station will be transmitting on all HF frequencies, 2 metre band VHF SSB with talk in to Barmoor Castle on VHF FM 145.500 during the day. QSL via G0AXJ. Website: www.qrz.com/db/GB2BCL [GB2RS]

17/09/2010: Members of the Royal Jordanian Radio Amateurs Society (RJRAS) will activate special event station JY7P from 17-19th September 2010. The suffix 'P' stands for 'Petra' the 'Rose-Red City' of the ancient Nabataean civilization which is situated in the southern part of Jordan. The RJRAS will be celebrating this special weekend to dedicate the City of Petra. This event is also designed to promote the city as well as promoting tourism to Jordan and Petra in particular. Next WRTC (2014) on the East Coast of the U.S. -
September 9, 2010
After studying and discussing two thorough proposals to host WRTC
2014 by a team from New England, USA and a team from Bulgaria, the WRTC
Sanctioning Committee (WRTC SC) has granted the organization of WRTC
2014 to New England, USA. All members of the WRTC SC were convinced that
either group would provide competent and trustworthy sponsorship. Making
the decision to award the organization of WRTC 2014 was very difficult.
We also thank both teams for their interest and for sharing their vision
for WRTC - it is a pity that only one could be selected.
The Committee will work closely with the New England group to help
find solutions for questions and problems as they arise. Further, the
Committee encourages the Bulgarian team to pursue its interest in future
WRTC events and support WRTC 2014 with suggestions and ideas from the
European perspective.
We encourage all radiosport participants around the world to extend
their congratulations and support to the organizers of WRTC 2014 - we'll
see you there!

Delegations from the Dutch Antilles signed a declaration today in The Hague today reforming the status of these five former Dutch island colonies in the Caribbean.

As of 10 October 2010, the Dutch Antilles will cease to exist as a country. Curacao and St Maarten will become separate countries within the Kingdom of the Netherlands, while Bonaire, Saba and St Eustatius will become special Dutch municipalities. Aruba already had a separate status. The ceremony was attended by Prince Willem-Alexander and Deputy Kingdom Relations Minister Ank Bijleveld and caretaker Prime Minister Jan Peter Balkenende.

The prime minister called the declaration "a new chapter" . The intensive process which has taken five years is supposed to give the larger islands more autonomy.

GM4FFF will be working from Saint Abb's Head National Nature Reserve (GMFF-059) on 11th September, 2010. All modes, all bands from 80 to 10 meters.

Sheer cliffs loom from the sea at St Abb's Head, giving dramatic views of the Berwickshire coastline and providing an early summer home for nesting seabirds. Watch the constantly moving mass of birds in the narrow inlets, or admire their swooping flight as they head out towards the stormy seas. Rocky grassland at the cliff top is dotted with colorful flowers and fast-moving butterflies, whilst the clear waters of the Voluntary Marine Reserve support a varied marine life.

Our team consists of MM?DFV, GM?WRR, and GM?EZP. WAB Square: NT96; Grid Locator: IO85WV; QSL via MM?DFV.

"Thunder Bay MCTS Centre (Canadian Coast Guard Radio Station) proudly celebrates 100 years of radio service. Built by the Canadian Marconi Company, in the fall of 1910, the new "wireless" station, MUG Port Arthur, was the first and only Canadian Great Lakes Marconi station ever built. In 1912, following the success of MUG, the Canadian government built a chain of marine radio stations from Port Arthur down to Kingston, Ontario. In 1913, the Marconi station was rebuilt, and assigned its current government callsign of "VBA". The "V" denotes a Canadian station, "B" is for the Great Lakes, and the "A" was given for its historic position as the first.

During themonth of November 2010, the Centre's Hams will be operating special event station CG3MUG, to celebrate our 100th birthday. The regular Amateur Radio callsign is VE3VBA. There will be several options for Amateur Radio Stations and SWL'ers to obtain a special 100th anniversary CG3MUG QSL card (a certificate may also be designed). As we get closer to the event, and make the final preparations, we will update the CG3MUG listing on the QRZ.com website. VHF and HF operation via CW, PSK, RTTY, SSB, FM, VoIP (CQ100) and perhaps other digital data modes, on the Amateur Radio bands. The email address for this special event station is: <mailto:cg3mug@...> cg3mug@....

MADAGASCAR, 5R8X AND LOW BANDS

The group of Martti, OH2BH; Pertti, OH2PM; Veijo, OH6KN; Antti, OH7EA and Juha, OH8NC will escape the Nordic ice and snow to provide you with a 5R8 on low bands and a zone 39 multiplier.

Their destination will be Antananarivo, the Republic of Madagascar, and the callsign 5R8X will hit the bands from October 26 - November 10, including the CQWW SSB Contest. OH2PM and OH6KN will dedicate their efforts to 160M and 80M.

This activity is primarily targeted to satisfy global demand on the low bands. The team will be using a large field and a setup of vertical antennas on all low bands. WARC activity will also be provided.

The 5R8X team will be using lightweight K3 radios by Elecraft and appreciate their support and cooperation.

This operation will be conducted in cooperation with Ake, 5R8FU.

More details to follow shortly.

30 Meter Multi Mode Weekend

When: September 25th & 26th
==========

Where: 10 MHz - 30 Meter Band (10.100 - 10.150)

Objective: To promote experimenting and using different digital modes on unique 30 Meter Band.

Those of you who want to participate using the more common modes of CW, BPSK31, RTTY, we welcome that, but those wanting to try other less used modes please do so and turn your RSID on to help others know what mode you are transmitting (common modes no need for RSID, do use RSID on the less common/exotic modes).

A number of digital mode groups will be participating this weekend so if you have wanted to try out a new digital mode or make some contacts using less common digital modes this weekend might be of interest to you. There are a number of multi-mode digital software programs so this is also a chance to get on the 30 Meter Band to try them out. Most of them have RSID/TXID (Reed Solomon Identifier- automatic mode detection and tuning).

This event is NOT a contest.no set times.no rules.no exchanges.no winners other than those that participate with casual use of the 30 Meter Band knowing that others with like interests will be on this weekend to experiment, ragchew, DX and have some fun trying different digital modes!

Where on the 30 Meter Band to find different digital mode activity:
(note: these are suggested only and observations of known digital mode activity)

10.100 - 10.130 CW
10.1239 - WINLINK-Pactor
10.129 - EMCOMM
10.132 - SSTV-Narrow (MP73-N)
10.134 - 10.138 - FeldHELL
10.136 - CMSK
10.1345 - 10.138 - OLVIA, MFSK
10.1386 - MEPT/WSPR
10.139 - JT65 (WSJT)
10.1405 - PROPNET (BPSK31)
10.139-10.141 WSPR (QSO MODE-WSJT)
10.140 - 10.141 BPSK31 QRP
10.140 - 10.142 BPSK31 - DX Region 1,2,3 (or BPSK/QPSK,31,63,125,<125hz)
10.142 - 10.145 RTTY,MFSK,THOR,THROB,DOMINO,OLIVA,CONTESTIA

10.143 - 10.145 ROS (Region 2 -note not legal in USA)
10.144 - FeldHELL (Region 1)
10.142 - 10.144 - ALE-400hz
10.145 - 10.148 - ALE-2khz
10.145 - ARRL SkipNet
10.147 - 10.148 PSKMail/APRS
10.1491 - 10.1495 APRS

Operating hints for the weekend:
- Do use RSID (RXID/TXID) for the less common/exotic modes (i.e. Contestia,Olivia,Domino,etc)
- Do CQ with RSID for more than just a few of CQ's, don't expect to have someone to reply on a less common used mode the first few CQ's.give it a while for others to find you and the mode being used
- Do use good operating habits - clean signal, lowest wattage to complete the QSO, QRL in common mode first, if band is busy or crowded spread out or use narrower width modes (i.e. if band is busy don't use OLIVIA 8/500 in the middle of the 30 Meter PSK 10.141 portion of the Band-not good operating habit if the band is busy and you will not make many friends)
- Do have fun and compare modes, wattage, antennas, etc with other operators that are interested to do the same..most the 30 Meter Digital Operators are not Call,599,73 most want a QSO (even DX)
- Do use the other digital ops with more experience most seasoned digital ops on 30 Meters are very helpful and will have the patience to help if needed.also might use and log on to HamSpots (link below)

BITS & PIECES -

ARRL Honorary Vice President Hugh Turnbull, W3ABC, of Silver Spring, Maryland, died September 14 at age 93.

Turnbull served the ARRL as Atlantic Division Vice Director (1980-1982) and Director (1982-1996). The ARRL Board named him Vice President in 1996 and Honorary Vice President in 2000.

Aside from his long and distinguished service to the ARRL, Hugh was actively involved in several DC-area Amateur Radio clubs and organizations, including the Foundation for Amateur Radio, a group of clubs from the Maryland, Washington, DC and Northern Virginia area that awards scholarships to deserving radio amateurs.

In 2005, the Quarter Century Wireless Association awarded Turnbull a special plaque recognizing his "exceptional contributions to Amateur Radio in general and for outstanding work in the selection of recipients for the QCWA scholarship awards." He was also a charter member of the Goddard Amateur Radio Club.

A licensed and active radio amateur since 1932, Hugh's engineering career included employment with the FCC, the Voice of America and NASA.

Upon hearing of his death, ARRL President Kay Craigie, N3KN, who served as Atlantic Division Vice Director during Hugh's tenure as Director, said: "Hugh's life was devoted to serving his country and Amateur Radio. Many times I heard him say that each of us should 'give something back' to ham radio. He was my first mentor in ARRL leadership, and it was my good fortune to have his example to learn from."

ARRL Chief Executive Officer David Sumner, K1ZZ, added: "Hugh was an exemplary member of 'The Greatest Generation' who unselfishly took on whatever needed to be done for the common good."

According to his daughter, Karen Shangraw, Turnbull will be buried with
full military honors at Arlington National Cemetery. [SB QST ARL ARLB024]

Arnaud, F4FOO and F6KJG (Radio Club Foret d'Orient) will be active with the
special callsign TM40FO from Foret d'Orient Regional Natural Park [PNRFO]
(WFF FFF-044). The PNRFO will celebrate his 40 years creation the 16th and
17th october.

ARRL Awards Committee Statement on Dissolution of the Netherlands Antillies:

To clarify the administrative process by which the anticipated changes to the two existing Netherlands Antilles DXCC entities will be made, the ARRL Awards Committee has determined that at 0400Z (12:00 AM local time in the islands) on 10 October 2010, the two Netherland Antilles DXCC entities will be deleted.

Commencing at 0400Z (12:00 AM local time) on 10 October, 2010, operation from the islands of Curacao, Bonaire, Sint Maarten, Saba, and St Eustatius will count for a yet-to-be-determined number of new entities under the DXCC List Criteria, and Political Entities, Rule 1 and/or Rule 2 Geographic Separation Entities. When the Awards Committee determines what Rule 1 or Rule 2 actions apply, it will announce the final disposition of the entities on the DXCC list.

The DXCC desk will not accept confirmations for these new entities until after 1 January, 2011.

9724. 2010 Oceania DX contest

Yahoo group: GOLIST (2007 — 2010)
Date: 2010-09-30 10:14:01 UTC
From: GOLIST
Topic: 9724 Message: 9724
Attachments: 1 described; binary payloads are missing from this source WARC

Hi everyone

A reminder that the 2010 Oceania DX contest will liven up the HF bands over the next two weekends.

The aim of the contest is to promote HF contacts with stations in the Oceania region. We are expecting a good turn out from VK, ZL and YB stations, as well as stations from some of the rarer South Pacific entities. Note that Oceania stations can work other Oceania and non-Oceania stations. Non-Oceania stations can only work Oceania stations.

The dates and times for the 2010 contest are as follows:

PHONE: 08:00 UTC Saturday 2 October to 08:00 UTC Sunday 3 October
CW: 08:00 UTC Saturday 9 October to 08:00 UTC Sunday 10 October

Bands: 160M to 10M (excluding WARC bands).
Exchange: RS(T) + serial number.
QSO points: 20 points per QSO on 160M; 10 points on 80M; 5 points on 40M; 1 point on 20M; 2 points on 15M; and 3 points on 10M.

Final Score: The sum of the QSO points multiplied by the number of prefixes worked (the same prefix can be counted once on each band).

Entry Categories:
Single Operator All Band Low Power (max 100W)
Single Operator All Band High Power
Single Operator Single Band Low Power (max 100W)
Single Operator Single Band High Power
Multiple Operators and Single Transmitter (only one transmitted signal at any time)
Multiple Operators and Two Transmitters (no more than two transmitted signals at any time and on different bands)
Multiple Operators and Multiple Transmitters (no more than one transmitted signal at any time on each band)
Shortwave Listener (receive only) All Band

Note that there are some changes to the entry categories for the 2010 contest. The Single Operator categories have been split into high power and low power sections and the Multiple Operator categories have also been revised.

Deadline: All logs must be emailed or postmarked NO LATER than 8 November 2010.

More information about the contest, including the detailed rules, is available from the Oceania DX Contest web site at http://www.oceaniadxcontest.com/index.html

73 and we look forward to seeing you in the pile ups!

Listing is by calendar date (day/month/year)
==========

01/10/2010: The announced DXpedition to Gabon (TR) by the Italian team lead by Silvano, I2YSB, has been cancelled. The new destination for the Italian team will now be Togo, and the operation will take place on 10-23 October 2010 using the callsign 5V7TT. Team members are Alfeo I1HJT, Silvano I2YSB, Carlo IK1AOD, Vinicio IK2CIO, Angelo IK2CKR, Marcello IK2DIA and Stefano IK2HKT. They plan to operate with three stations on 160-10m CW/SSB/RTTY. The pilot station will be IK7JWY. QSL via I2YSB direct. A opened survey on I2YSB's Web page is now available to list your wants for bands and modes at: www.i2ysb.com/joomla5 [OPDX Bulletin]

01/10/2010: Look for Ampelio 9A/IK3JBP, Andrea 9A/IK3MZS, Calogero 9A/IW3ILP and Andrea 9A/IZ3QEG to be active from Sveti Ivan na Pucini Island (EU-110, ACIA IC-055, CIA-49, IOCA CI-113, MIA MC-409) and lighthouse (ARLHS CRO-017, CLHA CLH-145, TWLHD WLH 9A-070, WLOTA 0036) on 1-3 October 2010. They will be QRV on 40, 20 and 17 metres CW and SSB. QSL via home calls. [425 DX News]

01/10/2010: Tom, AB6Z will be on San Clemente Island (IOTA NA-066, USi CA008S, WLOTA 2332, Los Angeles County), California, from 1-30 October 2010. He will be operating 20 and 40 metres, both phone and CW, using 100 watts to a Verticle antenna. The major part of his contacts will be CW but will be QRV SSB also. Operation will be as Tom is able, due to his work schedule. QSL to K5OAZ (SASE/SAE + sufficient postage). Logs will be uploaded to LoTW and eQSL. [rsgbiota.org]

01/10/2010: Werner DK0AJW/p, Reinhard DG2YDT/p, DN2RSP/p and a crew of young HAMs/SWLs will be on air from 2 different locations between 1-3 October 2010 as follows: COTA-activity from Burg Ludwigstein (COTA-DL HBN-122, WCA DL-00197, WW Loc. JO41WH), Witzenhausen, and on Saturday COTA-activity from Burgruine Hanstein (COTA-DL THB-004, WCA DL-01298, WW Loc. JO41XI), Bornhagen. QSL via operators' instructions. [World Castle Announcements]

01/10/2010: Lothar, DK8LRF will sign HK3JCL on 20m/40m mainly during the evening and night hours between early October and the end of November. He is working with a TS-50 and a rhombic antenne (4x63m) from Restrepo/Meta in the Cordillera Oriental (WW Loc. FJ34FG). QSLs via bureau to DK8LRF or direct (QRZ.com). Echolink operation is possible via his station DM0ZHS-L in Isen, node no. 249774, 144.962,5 MHz. [DX Newsletter]

01/10/2010: Fred, IK7JWX announced that he will be activating National Parks/Reserves in the Italian Provinces of Lecce (LE), Brindisi (BR),

Taranto (TA) and Bari (BA), for the 'Italian Flora Fauna' and 'World Flora Fauna' awards between October 1st and December 31st 2010. He will use the special callsign IR7WFF. QSL via his home call, direct or bureau. [OPDX Bulletin]

01/10/2010: Peter, ON3WAB/p will be active on 1 October 2010 from the Vagevuurbos & Lippensgoed-Bulkskampveld Nature Reserve (WFF ONFF-034) and the Kasteel Bulskampveld (WCA New One!), in Beernem, West Flanders, Belgium (WW Loc. JO10PC, Bruges WV-01). QSL via home call, bureau or direct. [World Castle Announcements]

01/10/2010: Fred, PA0FAW will be operating as PC75HV again from 1 till 28 October 2010. He will be running mostly CW and Digital modes, but SSB is probably also ok. Operating mainly from De Hoge Veluwe National Park (WFF PAFF-005), Gelderland. QSL as usual via PA0FAW, Direct, Bureau, e-QSL.cc ...and SWL's all ok. Fred is an ISWL Member, so if worked or heard, can be counted for the ISWL Monitor award. [Pete's-DX-Newsdesk]

01/10/2010: Mike, RW1AI currently active as R1ANP from Progress Station, is planning to activate the Chinese Zongshan Antarctic Base [Larsemann Hills of Prydz Bay, Christensen Coast] (IOTA AN-016, AA BY-02, WAP CHN-02) for the first time ever. Look for him to be active as R1ANP/A from Zongshan Station in October and November. He will be using 100 watts into vertical antenna. QSL via RW1AI, direct or bureau. [WAP]

Ken McPherson, VA6KM is appointed Alberta Section Training Coordinator
2010-09-28

I have been advised by National Training Coordinator Dave Drinnan, VE9FK of the appointment of Ken McPherson VA6KM as STC for the Alberta Section. Ken has been a Ham since 1993 but has had an interest in radio since 1982. Ken has served in the Navy as a NCI-OP (Naval Combat Information Operator) as well as the Armored Reserves in Ottawa. Ken's background in training includes time as a Cadet Instructor, First Aid Instructor and Scuba Instructor.

With this varied background, Ken hopes to help develop ARES in collaboration with the Province of Alberta, RAC, Provincial ARES groups, and all others that wish to help.

I know will all join me in wishing Ken the best in this. If I can assist you in any way Ken, please let me know.

*I regret to inform DX Community about the cancellation of our Temotu H40KJ DX-pedition. The cancellation is the effect of a dramatic plane delay that caused total destruction of our trip planner. We have lost all our booked and already paid connections to Solomon and Pigeon Island. Carrier has not been able to establish new and suitable for us booking, to continue our trip. What we have been offered was far beyond the time we could spend on this dx-pedition. Therefore, we have decided to go back to Warsaw.

Under these circumstances, we feel obliged to refund the donations that we received, however, as we have suffered substantial financial loss, we suggest to transfer these funds for the expedition to come - Kiribati T30RH/T30AQ. Should any of donators disagree with our suggestion, please email us and we will try to refund his donation as soon as possible

Hello DXers:

Ward Silver, N0AX, who I'm sure most of you know, has offered a suggestion for the huge pileups expected this weekend for the "PJ" operations.

Ward says:
"Since there is likely to be a lot of confusion with multiple stations and multiple pileups, it would be a good idea to suggest that DXers take an extra step to insure that they are in the log of the station they think they are working. Here's my suggestion - send both calls when responding to the DX station.

DX: QRZ de PJ0A
Pileup: #$%^&*()
DX: N0AX 59
N0AX: PJ0A from N0AX 59 thanks
DX: N0AX QSL QRZ de PJ0A

I am sending a request to the DX stations on the list that they send their call sign during EVERY transmission and that they send the call sign of the station being worked before calling the pileup again."
****
This goes along with what I've been saying, "Work every PJ station you can, but be sure you know which one you are working."

Here is the latest list of calls as shown on the NG3K web site: PJ2T, PJ4B, PJ4N, PJ4/AH6HY,PJ5/K1XM, PJ5/AA4NC, PJ6A, PJ7E, PJ7/K1GI (November), PJ7/AA4NC, PJ7/AH6HY.
All of these calls have been "announced" for operation sometime between October 10 & 30.

Lee, KH6BZF also provided the following coordinates for the islands:
PJ4 BONAIRE IS. 68-DEG:28 W, 12-DEG: 15'' N
PJ5 ST. EUSTATIUS IS. 62-DEG:58' W, 17-DEG: 30' N
PJ6 SABA IS. 63-DEG:14; W, 17-DEG: 38 N
PJ7 ST. MAARTEN IS. 63-DEG:03' W, 18-DEG: 01 N

GL to everyone for the next few weeks in breaking through the pileups. This is history in the making. Never before have we had so many "NEW ONES" active at the same moment in time.

73,
Carl, N4AA

Helsinki
October 7, 2010

SCANDINAVIAN ACTIVITY CONTEST (SAC) THIS WEEKEND, OCTOBER 9-10

SAC is a fast-track race where the Nordic countries - LA, OH, OZ, SM and TF - are in serious annual country-level competition while also seeing individual muscle flexing on all bands except 160M from 1200 UTC Saturday through 1200 UTC Sunday on SSB.

Radio Arcala, OH8X is an alliance of young and seasoned contesters who do things together with their associates, bringing youthful energy and old wisdom into the game and working together to secure needed resources and always topped with innovations.

This is to introduce the Radio Arcala SAC team and their four operating locations:

OH8X - the mother station in Northern Finland will be piloted by Toni, OH2UA. He is a young and skillful operator and the current holder of CQWW European records on both CW and SSB. <http://www.radioarcala.com/> Toni's self-confidence is boosted by two 100-meter rotating towers and large antennas challenging the Northern Lights as well as imminent ice and snow!

OJ0B - on Market Reef, two brave men, OH2BO and OH2PM, have decided to weather the storms and hold on to the reef to put this rare counter into SAC. They have racked up an impressive score on low bands this week and they will keep on running the low bands and 17M until the SAC starting bell, with some equipment challenges. Pertti, OH2PM will pilot SAC single-handedly. <http://www.majakkaseura.fi/>

OH0B - Aland Islands, with Martti, OH2BH to offer an OH0 in SAC from the Brando cottage that has provided reliable service as a contest multiplier for more than 30 years sporting a variety of OH0 callsigns. This is Martti's annual October outing, taking Mom on a trip to a wonderland which they discovered in 1979. There's a new 80M beam which may put Martti on a par with OH8X and OJ0B as a rare country attraction.

OH2BH - from Southern Finland, Ilkka, OH1WZ will air the newly refurbished OH2BH contest site, using a pair of Yaesu FTdx5000's. As a serious contester, Ilkka is also the highly acclaimed Contest Club Finland (CCF) PileUp Magazine's Chief Editor. You are very welcome to download your PU copy with interesting reading plus a link to SAC rules. Ilkka is hammering alongside the others but is determined to cut the finish line ahead of them.

<http://www.helsinki.fi/~korpela/PU/PU34_2010.pdf>

Radio Arcala has set as its target to offer you a lot of fun and to see the four stations placing among the Scandinavian Top Six, single op - all bands. You can follow their performance by tracking the serial numbers of old and young Arcalians racing in full harmony.

QSL OH8X via OH2UA. Others via OH2BH.

Hi

Considering the high level of activity with PJ DXpeditions during my stay on OC-172 during October 16-22, I've explained my likely operating schedule to avoid as much pile up QRM as possible and give people the chance to work this IOTA which hasn't been on the air since 2003.

There is now a simple online web site for the PJ2T Curacao 10-10-10
Celebration operation, including an online log look-up capability and
information on our planned operating frequencies.

The page is at: http://www.k8nd.com/Curacao-2010.html

PJ2/K8ND will be on the air before the 0400Z October 10 transition. I'd
really like to Work All Continents (WAC) for this year during the
pre-transition period if conditions cooperate!

After October 10 at 0400Z, the PJ2T callsign will be used for the next week.

As always, QSL for PJ2T via N9AG or Logbook of the World (LotW). QSL
PJ2/K8ND via K8ND.

I.C.P.O. Bulletin (08-15 October 2010)
"Islands, Castles & Portable Operations"
Listing is by calendar date (day/month/year)
==========

08/10/2010: Some members of the Holyland DX Group will activate the Qumran National Park (WFF 4XFF-030) on 8-9 October 2010. The team consists of Shalom 4Z4BS, Mark 4Z4KX, Ilya 4Z1UF, Vadim 4X4FJ, Ruben 4Z5FI, Ros 4Z5LA, Jan 4X1VF, and Yulik 4X6HP. They will work with two stations in CW and SSB signing 4X0WFF. Another mobile station will activate the Gedi National Reserve (WFF 4XFF-016) as 4X0WFF/m on 14265 kHz. Holyland squares L19YN, L20YN and L20BL will also be activated. QSL cards are managed by Malik,4X4JU, the WFF awards manager of Israel. See also: www.bibleplaces.com/qumran.htm [DX Newsletter]

08/10/2010: Look for Joerg DJ1JB, Christian DM4DX and Markus DJ4EL to be active as homecall/p from the island of Helgoland-Duene (IOTA EU-127, GIA N-15, WLOTA 2130) on 8-11 October 2010. Activity will be on 12, 17 and 40m. QSL via home call, bureau or direct. [rsgbiota.org]

08/10/2010: Ray ("Lucky"), K9LUK will be active as K9LUK/VK4 from North Stradbroke Island (IOTA OC-137), Queensland State, on 8-16 October 2010. Activity will be sporadic, but look for him on 14260 kHz. QSL via home call, direct only. [OPDX Bulletin]

08/10/2010: Jeff K8ND and Bill W9VA, will be on a ham vacation to the Signal Point contest station on the island of Curacao (SA-006, WLOTA 0942, WW Loc. FK52KG) on 8-18 October 2010. They will sign PJ2T, and possibly PJ2/homecall. QRV on all HF bands, plus 6 metres. QSL via home calls and LoTW. QSL PJ2T via N9AG and LoTW. Note: The station (PJ2T) will be opened to amateurs participating in the GAREC conference (11-12 October), as well as to any local Curacao amateurs who wish to operate from Signal Point during the post 10-10-10 week. The PJ2T callsign will be used beginning at 0400Z on 10 October 2010, when the Netherlands Antilles is dissolved and Curacao becomes an autonomous country within the Kingdom of the Netherlands (and likely a new DXCC Entity). [NG3K]

09/10/2010: The Associacao de Radioamadores do Litoral Alentejano will be active as CS2FCS from the lighthouse at Cape Sines [Cabo de Sines] (ARLHS POR 008, DFP FBA-01, PFFP FP-055, Admiralty D2160, WW Loc. 6 METRES & UP -

Major shower this month is Orionids, peaking October 21st.
This shower has produced strong rates in 2006, 2007 and 2008, with lot of bright meteors. A 12-years periodicity in Orionids stronger returns,

extrapolated from old observations, suggests that relatively good Orionids rates are expected even in 2010. Some other minor showers, combined with good sporadic meteor rates, will provide favorable conditions for MS DX-ing. Have a look to shower predictions for October 2010 at our MMMonVHF MS-Propagationpage: www.mmmonvhf.de/ms.php [MMMonVHF]

RAC Bulletin 2010-019E - President's Bulletin from El Salvador
2010-10-03

As Vice-President International Affairs Lamoureux, VE2KA has pointed out the two of us are in El Salvador.

What are the key issues that would bring us here? Every three years the Assembly that governs Region 2 of the International Amateur Radio Union [IARU] [encompassing all of the Americas] meets to strategize on key issues effecting amateur radio. Of particular interest to Canadians is that we are profiling the recent non amateur use of amateur frequencies in the recent ProTour Bicycle Race in Quebec as an unwarranted intrusion into amateur frequencies. Canadians will also be interested in HF band planning in 40M [now that short wave commercial stations have left the band] strategies to enhance effective response to hurricanes and other emergencies that require amateur radio support. Vantroi Pena HI8VP of the Republica Dominica will add a very

human touch to that discussion as he was one of the Republica Dominica amateurs that set up 2M repeaters at the Haitian/Dominica Border and crossed into Haiti to provide assistance during that calamitous earthquake. Galdino Besomi, CE3PG, and Dagoberto Arcos Rojas, CE5COX will share their experiences during the Chilean earthquake.

Vice-President Lamoureux, VE2KA, is also a Director of IARU Region 2 and his expenses are being paid by IARU. Mr. Bawden, VE4BAW is in El Salvador at no expense to the Radio Amateurs of Canada.

Geoff Bawden VE4BAW
President and Chair, RAC

DXpedition to Jarvis Island postponed

Radio Expeditions, Inc. was selected by the IS-FWS to conduct an amateur radio DXpedition to Jarvis Island, KH5 in the Pacific.

The Team has announced that "Due to the time required to establish the rules for amateur radio operation in the Refuge, the last selection date, and the lead time required to schedule and prepare the MV Braveheart, the expedition has been postponed one year until 2011 November.

November remains the best month to visit Jarvis Island from a propagation standpoint, with the largest combination of openings predicted to Europe on both 160/80 and 12/10 meter bands." [Southgate ARC]

9744. SPECIAL Update on "PJ" Operations

Yahoo group: GOLIST (2007 — 2010)

Hello DXers:

I know everyone is waiting for the PJ stations to come on the air at 0400Z tonight. In view of circumstances beyond their control I want to bring you the latest information.

The larger groups going to Saba and St. Maarten experienced some difficulties due to tropical storm OTTO, which ended up becoming a hurricane after turning back into the Atlantic. As it passed the Netherlands Antilles extremely heavy rains (up to 15-20 inches) caused serious flooding on some of those islands. Seas were running with up to 15 foot waves, making it impossible for boats to approach and land on St. Maarten on Friday. The equipment for PJ7E is aboard a boat which could not get to the island due to those high seas. That boat continued on to Barbados and will return to St. Maarten on Sunday (Oct 10).

Several PJ stations were on the air Friday and again Saturday as they prepared for the expected pileups. Some of the stations already worked are AH6HY, K1XM, K4SV, K9CT, K9ZO, W6OSP and others who were using, PJ-/homecall. REMEMBER contacts PRIOR to 0400Z, October 10, 2010 will NOT count as a NEW ONE.

I have been in contact with the PJ7E team on St. Maarten and Joe, W8GEX authorized me to pass along the following information:

"The weather today (Saturday) is clear and sunny. The boat with our equipment is due in here at 7-PM SUNDAY (Oct 11) evening. We will meet them, off-load the equipment and separate it for the two operating sites (SSB & CW). They will deliver the two loads to us early MONDAY morning (Oct 12).

Our plan is to set up one station and one antenna as soon as possible so someone can get on the air right away. As the other stations are assembled and antennas put up, they will be put on the air as quickly as possible.

As for Saturday night (Oct 10-0400Z) PJ7E will have one station on SSB (IC706 with a dipole for 40/20).

The CW crew has already been on the air with CW/RTTY (using PJ7/homecalls). They are running an IC7000 and a vertical antenna, and have been worked on bands from 40 to 17 today (Saturday)."

I have not been able to contact the PJ6A team on Saba, so I have no direct information on their activity for tonight. To the best of my knowledge their equipment was already on the island, but it seems they were having difficulty getting personnel to the island.

To repeat what I've said before, after 0400Z, October 10, 2010, work every PJ callsign you can and let the decision makers decide what will count for what in due course. NO Cards will be accepted before January 1, 2011 anyway.

GL & 73,
Carl, N4AA

The dissolution of the Netherland Antilles has caused changes to the DXCC List.

As per the DXCC rules, the two Netherland Antilles DXCC entities will be deleted and moved to the Deleted Entities List. Four new entities will be added to the DXCC List : (1) Curacao; (2) St. Maarten; (3) Saba and St. Eustatius; and (4) Bonaire. The event date and time for these changes will be 0400Z, 10 October, 2010. Confirmations for these new entities will be accepted for credit starting 1 January, 2011.

Other administrative changes and actions will be announced as they are finalized.

16/10/2010: The Marconi Radio Club will operate two HF stations on 16th October 2010 to commemorate the 100th Anniversary of the first rescue of an airship (America) by wireless. This was also the first wireless operation from an airship. Two stations will be operating, one representing the Airship America with W1AA/W and a second representing the rescue ship SS Trent with W1AA/RNR. America and SS Trent used these calls in 1910. DX please QSL via the bureau. Stateside via W1AA address OK on QRZ.com. Two QSL cards are available W1AA/W for The America Airship and W1AA/RNR for the rescue vessel SS Trent. STATESIDE PLEASE SEND A BUSINESS SIZE #10 ENVELOPE - S.A.S.E. A certificate is also available to all stations who confirm QSOs with both "W" and "RNR". PLEASE send a large S.A.S.E., big enough for the 8 ½" x 11" certificate with enough postage for 3 ounces. $1.50 in stamps will cover most of the USA. DX stations must include enough postage to cover the return mailing cost to their country. Website: www.qrz.com/db/W1AA [K1VV]

COUNTY HUNTING (USA-CA) -

KØPC - 16 Oct 2010 to 16 Oct 2010 - CW Only
Iowa QSO Party, Saturday Oct 16th, 1400z - 2300z. I will be working from 21 counties in northwest Iowa.
I generally run all CW for QSO parties but may try SSB if it slows down.
Counties in order: Kossuth, Palo Alto, Emmet, Dickinson, Clay, O'Brien, Osceola, Lyon, Sioux, Plymouth, Cherokee, Woodbury, Ida, Sac, Buena Vista, Pochahontas, Calhoun, Webster, Humboldt, Wright and Hamilton. QSL via home call. [County Hunter Web]

NUØQ - Bill - 1* - October 16, 2010 to October 16, 2010 - SSB and CW
Iowa QSO Party - I expect to spend most time on 20 CW, 40 CW, and (hopefully) 80 CW. Perhaps some SSB. No driver this year, so most operation will be while parked. Here are the counties I hope to operate from, more or less in order: Union, Ringgold, Taylor, Adams, Page, Montgomery, Cass, Pottawattamie, Shelby, Audubon, Guthrie, Adair, Madison, Dallas and Polk. QSL via home call. [County Hunter Web]

WØZQ - Saturday, October 16 to Saturday, October 16 - SSB and CW
Iowa QSO Party, 1400 to 2300z, Saturday, October 16. Will be activating the following eight counties in this order: Hardin, Hamilton, Wright, Franklin, Cerro Gordo, Hancock, Winnebago, and Worth. Plan to spend about 55 minutes in each county - in the morning hours will work in sequence 40, 20, then 15 CW, then with remaining time back to 40 then 20m SSB. In the afternoon same plan but band order is reversed so its 15, 20, then 40m CW before SSB. I will trying to take advantage of any daytime propagation on 15 and 20. Last two stops I will add in 80m CW - no 75m SSB as the mobile (nor the operator) like it. QSL via home call. [County Hunter Web]

ARLD042 Dissolution of Netherlands Antilles Creates Four New DXCC
Entities

The dissolution of the Netherlands Antilles has caused changes to
the DXCC List. As per the DXCC rules, the two Netherlands Antilles

DXCC entities will be deleted and moved to the Deleted Entities
List.

Four new entities will be added to the DXCC List: (1) Curacao; (2)
Sint Maarten; (3) Saba and St Eustatius, and (4) Bonaire. The event
date and time for these changes was 0400 UTC, October 10, 2010.

Confirmations for these new entities will be accepted for credit
starting January 1, 2011. Other administrative changes and actions
will be announced as they are finalized.

Salinitas, El Salvador
Oct 10, 2010

The XVII Triennial Conference of IARU Region 2 has now ended in Salinitas,
El Salvador and the delegates of the 19 nations present are just now
returning home.

Problems regarding the defence of Amateur Radio, its promotion as well as
regional and local problems faced by Member Societies were discussed and
some action decisions were taken in the interest of all.

An official communiqué should be issued by the Region 2 Secretariat in the
next few days giving more precise information on the work done.

RAC President Bawden, VE4BAW, and RAC VPIA Lamoureux, VE2KA, have split the
tasks of attending all the committee works and a full report should be in an
upcoming TCA.

/This information is provided, in advance, to those who use the DXCC assigned country/entity codes for programming software:/

Below are what *will be* the DXCC assigned country codes for the new entities *once they are entered into the DXCC system*:

517 -- Curacao

518 -- Sint Maarten

519 -- Saba and St. Eustatius

520 - Bonaire

Note, the country codes for what will be the deleted entities will not change, they will just be flagged as deleted entities.

Online, the only place where these codes are posted is in the text version of the DXCC list. Once we officially add the new entities to the DXCC software this list will then be updated to show the official changes to the DXCC list.

9753. Radio Arcala and the 2010 CQWW SSB Contest

For Immediate Release

Helsinki
October 17, 2010

Radio Arcala and the 2010 CQWW SSB Contest

This year Radio Arcala set the target to become internationally focused and extended their ranks to the United States, Japan and Continental Europe, both in
their overall expertise and their radio operating resources. Kazu, JK3GAD has
done a superb job of taking many Arcala messages to his homeland. Now it is time
to set sail to the United States and introduce another U.S. sound from the Radio
Arcala station network.

OH8X from Northern Finland will be activated by Marko, OH4JFN in SOAB, hoping
for improved propagation from the Far North, and;
OH0B from Aland Islands will be operated by Toni, OH2UA, current EU CQWW SSB and
CW record holder, also in SOAB. They will run against each other to gain a Northern European victory and an initial set of qualification points for WRTC
2014.

CR2X from the Azores with Jeff, N5TJ at the helm will add a new element to the
European racing scene. He comes with a formidable WRTC background and with current CQWW World Records for SSB and CW under his belt. As this is the first
time Jeff enters the European scene in CQWW, the outcome promises to be interesting, to say the least.

5R8X from Madagascar will see the majority of Arcalians - OH2BH, OH2PM, OH6KN,
OH7EA and OH8NC - traveling to this island nation in the Indian Ocean not only
to provide a dual-multiplier but to do a variety of things at once. In CQWW they
will be multi-op, single-TX while also making sure, with their awesome lineup of

LF antennas, to provide a 5R8 on the low bands for those in need. Their low-band
activity will last for two weeks, including CQWW plus the following weekend,
with two stations expected to be on at prime hours.

QSL to OH8X via OH2UA, others via OH2BH.

We will be setting up a portable station again between 23rd October 2010
and 31st October 2010.

We would love to speak with as many of you as possible, if the conditions
allow. We will be on all bands but main operation will concentrate on
80 metres, 40 metres, and 20 metres.

M0TBG-Team Thunderbox-MX0TBG
Team Thunderbox is a group of people who enjoy the lighter side of
Amateur Radio.

We all belong to various radio clubs, and come from very different
backgrounds which when combined are a recipe for success.

Kind regards.

Mike W7ASF and Tom, KB7JAL, and will be operating
as V31MH and V31TS from Belize October 27 through November 4.

We will be having lots of fun before, after, and during the CQWW contest.

We will be operating mostly SSB on 80m through 20m with a lot of time on
PSK,
too.

We are "old guys" and not very good contestors, but we like the fun of
it all
and the thrill of being on the other end of a pileup (with luck).

Phil, G3SWH and Jim, G3RTE will be active from West Island in the Cocos (Keeling) Islands between 22nd February and 5th March 2011.

The Cocos (Keeling) Islands count as OC-003 for IOTA purposes.

The 2009 "Most Wanted" survey by the DX Magazine shows the Cocos (Keeling) Islands at #75 worldwide for DXCC purposes.

We will both use the single callsign of VK9C/G6AY. Our activity will be on CW only on all bands 80-10 meters. There will be no 160, 6 metres or EME activity.

Propagation permitting, we plan to have two stations on the air for as many hours every day as is possible. Our main objective is to work as many European, North American and ROTW stations on as many different bands as possible and plan to make at least 15,000 QSOs.

QSL via G3SWH, either direct with SAE and adequate return postage (recommended), via Phil's web site for a bureau reply or via the bureau.

This will be a very expensive DX-pedition. We are happy to meet the costs of transport to and from the islands, but are seeking sponsorship and donations from individuals, DX clubs and organisations towards our living expenses on the island, printing QSLs and the like.

There is more information at www.g3swh.org.uk/vk9c-g6ay.html <http://www.g3swh.org.uk/vk9c-g6ay.html>

"Islands, Castles & Portable Operations"
Listing is by calendar date (day/month/year)
==========

22/10/2010: Club members of the Russian Community of Azerbaijan will activate their callsign, 4J6RO, on 22-25 October 2010 from Russkie Borisi village, Nagorno-Karabakh Autonomous Oblast, in the Geranboy district (AzeDA index - GR, QRA Locator - LN30FL). QRV on 40 and 20 metres, as well as 30/17/12 metres, using CW and SSB. Operators mentioned are: Boris 4K4K (Team/Club Leader), Alex 4J7WMF, Serge 4J5A and Igor 4K6OF. QSL via 4K4K. PLEASE NOTE: This is the only legal callsign permitted by the Ministry of Communications of Azerbaijan for this territory. Any other prefixes, besides 4J and 4K, issued by other countries for Karabakh have to be strictly considered illegal. [OPDX Bulletin]

22/10/2010: Dale, N3BNA, will be active again as CX/N3BNA between 22nd October and 13th November 2010. He plans to be QRV on 60 metres this trip using a sloping dipole off a tall tower. He may also try a half-square wave antenna for more gain. QSL via KA2AEV. [OPDX Bulletin]

22/10/2010: Jim, KB3QLK (W/VE Island QSO party Island Rover) will be active 22 October (NON CONTEST) from St. Pierre Island (USi MD034, Somerset County), Maryland. On 23 October, starting 1600z, he will once again activate St. Pierre Island (USi MD034), followed by Little Deal Island (USi MD034, Washington County) and possibly Deal Island (USi MD014S, Somerset County), Maryland. Jim is not sure on any 24 October operations. QRV on SSB, PSK-31 and perhaps another mode, near the usual IOTA and island frequencies. Different QSL cards will be made for each island. [USi]

23/10/2010: Ho-jong, DS5ACV and members of the Busan DX Club will activate Suu Do (IOTA AS-081) as 6M0V/5 between 23rd and 24th October 2010. Expect activity on all HF bands, propagation permitting. QSL goes to 6M0V, direct or bureau. [NG3K]

23/10/2010: Les, AD5WB plans on operating the W/VE Islands Contest from his home on Galveston Island (IOTA NA-143, USi TX001S, Galveston County), Texas, as a fixed island station. He will be operating on phone; 40 through 10 metres. Should be on most of Saturday and most of Sunday. QSL via QRZ.com. [USi]

23/10/2010: Members of Azores DX Group (CU3DX) will be active on 23 October 2010 from Imperio da Terra Cha (WCA CT-00426, DMHP AZ-078, IDES 033, DMP 4301, DDFP AGH-18, IOTA EU-175), as CU3DX/p. QSL via CU3EJ, bureau or direct. [World Castle Announcements]

23/10/2010: Dell, K3AXR and Jerry, KB3TXP will be attempting to activate Fenwick Island (USi MD035, Worcester County), Maryland, for the US Islands Awards Program (www.usislands.org/) on Saturday, 23 October from 1200 UTC until 1600 UTC). They will be operating SSB at or near 7.250 and 14.250-14.260 MHz. Look for them if you'd like to help activate this island and add it to your collection. [USi]

23/10/2010: Look for Mark, KO1U/m to be QRV in the W/VE Islands Contest on 23-24 October 2010. He plans to activate the following islands: Plum island (USi MA002S, WLOTA 1546) and Deer island (MA027R), Essex County, MA, and Conanicut island (IOTA NA-031, USi RI007S, WLOTA 1422, Newport County), RI. QSL via home call, direct or bureau. [USi]

6 METRES & UP -

Dear VHF-DATABASE-friends, a year is over again and we will be able to spread around a new issue of the VHF-DATABASE (3.10 - 10/2010) to private USER (fee, see our Forum) as well to all interested DX-Cluster Sysops (DX-Cluster-Types: CLX, SPIDER, AK1A and / or DXNet) from up the end of october 2010!
All necessary details you be able to find at the Make More Miles FORUM www.mmmonvhf.de/minibb/index.php?action=vtopic&forum=3
As well please visit the Visual VHF DATABASE and check your area - if you find faults please do report to us! The Visual VHF DATABASE can be found here: www.mmmonvhf.de/vdb.php [DL8EBW]

** F/TEP on 50 MHz **
Just a further note to say that the F/TEP continues for South EU - and for me I still RX AF TV - 5Z was in last night late on pure TEP III mode for about an hour - but nil on 50. I hope more will look - we have very few indicators to the south - but at long last we can see the very few TV TX's that are on there - so lets use them and report our observations. hopefully Hams will come on & try the band on not be alarmists or tourist

BITS & PIECES -

This information is provided, in advance, to those who use the DXCC assigned country/entity codes for programming software:

Below are what will be the DXCC assigned country codes for the new entities once they are entered into the DXCC system:

517 - Curacao
518 - Sint Maarten
519 - Saba and St. Eustatius
520 - Bonaire

Note, the country codes for what will be the deleted entities will not change, they will just be flagged as deleted entities.

Online, the only place where these codes are posted is in the text version of the DXCC list. Once we officially add the new entities to the DXCC software this list will then be updated to show the official changes to the DXCC list.

HB9EHT Re-elected ITU Chief
Dr. Hamadoun Touré, HB9EHT, has been elected to a second four-year term as Secretary-General of the International Telecommunication Union (ITU). The ITU is a world body that provides a global structure for telecommunications, including frequency allocations to various radio services. According to the ARRL Letter, Dr. Touré's emphasis during his first term has been on internet security, wider access to broadband and strengthening the ITU's work in international emergency communications. After his re-election, Touré told the delegates at the ITU Plenipotentiary Conference in Guadalajara, Mexico, that he will continue to work toward realizing his dream that every person on Earth can "connect to, use, create and share information in a safe and affordable manner." First 137 kHz JA-VE QSO Reported
Two amateurs -- Kunikazu Togashi, JA7NI, and Scott Tilley, VE7TIL, report completing a transpacific contact on 2200 meters (137 kHz) on September 28. According to the ARRL Letter, the two claim that this is the first Japan-Canada QSO on the low-frequency band. Covering more than 7100 kilometers, it is the second-longest distance reported to date for a 2200-meter QSO. [CQ Newsroom]

01/05/2011: The Intrepid-DX Group is pleased to announce their next DXpedition, as T6PSE from Afghanistan to take place during ten days in May of 2011. Due to security concerns, the exact dates and location of the DXpedition will not be given at this time. The Intrepid-DX Group is the same group which brought you the April, 2010 YI9PSE DXpedition from Iraqi Kurdistan. The primary objective is to activate Afghanistan with a goal of providing as many DXers as possible a "new one" with this rare DXCC entity and, as a secondary objective, to give as many band-slots as possible. They will focus on North and South America during those periods when propagation is possible to those areas. The team is expected to consist of ten operators including: Co-Leader Paul Ewing-N6PSE, Co-Leader David Collingham-K3LP, Hrane Milosevic-YT1AD, Krassy Petkov-K1LZ, John Kountz-WO1S/T6EE, Heathem Sabah-YI1UNH, David Flack-AH6HY, Jack Ritter-W0UCE and Wayne Rogers-W5KDJ. 9781. Hello John

Hello John

I'm not able to sign in to get the Latest Golist Data Files.

I do not think this is your problem. It's my memory or my computer.

Normally I sign in using my callsign K4QX. At least that's what I thought my user I.D. was.

My password was either the same as my callsign or the name of a pet bird.

jitters or jitters1. My password could also have been my city which is largo.

I will have to ask you what my user I.D. and password is after you veryify I am subscriber. I am a paid up subscriber to the Finest QSL route finder service and the Best DX info anywhere. The Bulletins I receive are Excellent. The QSL routes are always right.

My PC was in the repair shop. It had a nasty virus. My hard drive was wiped clean and all of my software had to be reinstalled including Windows XP.

This is the second time in the last few months that my PC was knocked down by a virus. The viruses have been the Trojan type.

You do not know they are there until a certain date comes along and then boom your PC is crippled. I was using McAfee Security Suite and it was up to date.

The company that did the work had to wipe my PC completely clean and then reload everything. I now have a new Virus Protection and Internet Security program called AVG. The AVG I now have is highly recommended and I have the paid version. The computer service that did my work is a business provider and they make certain your PC is clean before you get it back.

Many times they can remove the virus. In my case that was not possible.

My PC had to be completely wiped and everything reloaded. The service was careful and they had my PC for about 1 week.

Many of my email addresses were lost and quite a few of my email's were also lost.

Most viruses arrive via email and this may be why I don't have even your email address.

I do need your mailing address Please. On November 3rd I need to send you a check for $37.50 to pay for the Winter 2011 RAC.

The email with your mailing address on it is gone.

What I am doing now is taking email addresses from my paper address book and I thought I had your info written down. Nope.

I'm guessing on golist@... is your current email. I tried 2 email addresses from my memory and hope you get this message.

I must ask you to PLease reset or reassign my user name and password so I can download the current Golist Data for the end of October.

I apologize and am sorry for the extra trouble I've caused you.

When you reply I will copy everything down in ink into my paper address book. I truly am sorry John.

I do Thank You. I am a current paid up subscriber to Golist.

5R8X - THE LATEST FROM MADAGASCAR

Now that the 2010 CQWW SSB Contest is history, the low-band operation at 5R8X will get seriously underway tonight, Monday. The low-band site was built but not activated for CQWW because of a severe bout of stomach problems afflicting the group. Also, extended power outages limited 5R8X activity during the past weekend.

So, starting tonight, 160, 80, 40 and 30M will be activated for the dark hours every night. During the week, a specific pattern may be established for the bands. Activity will run for 8 days, until Tuesday next week. OH2PM and OH6KN will be at the helm. They did preliminary tests with USA and Japan, and everything is in order.

They plan to use 1822.5, 3505.5, 3525.0, 7005.5 and 7025.0 and 10105.5 MHz CW almost exclusively. From the base camp, they plan to focus on 24 MHz. The distance between the sites is 15km or 1 hour.

The team remain in good spirits and have passed the 7000 QSO mark.

C.O.T.A. Activity in Honor of St. Mary
Dear friends and colleagues OM and SWL:
For the 61th anniversary of the proclamation of the Virgin Mary "Virgo Fidelis" as a patron saint of the Carabinieri, as well as to raise awareness and celebrate the first "mother" of every policeman, I'm pleasure to inform you that ...
from 15th November 00.00 UTC to 24.00 UTC on 21th November 2010 the C.O.T.A. (Amateur Radio Association "Carabinieri On The Air") will activate the radio station IQ6CC
1. The special call will operate on all HF bands and modes.
2. The QSL Manager is Lorenzo Iannone (IZ4SUC).
3. The QSL cards for the contact can be sent via bureau or direct (with SASE).
This is the Operators list: IZ6IQA Claudio, IK6BAK Eliseo, IZ6OYU Fabrizio, IZ6FYI Giuseppe, IK6HLN Gianni, IZ6FUQ Stefano, I6TND Vito, IK6ZJE Domenico, I6YOT Mimma and IW6MKI Ubaldo.
On 8 December 1949, His Holiness Pope Pius XII, in accepting the request of the Military SE Bishop Carlo Alberto Ferrero Cavallerleone, officially proclaiming Mary "Virgo Fidelis Patron Saint of Carabinieri Force", by the celebration of 21 November, to coincide with the presentation of the Virgin Mary in the Temple and the anniversary of the Battle of Culqualber.
You are all invited to attend and we will be delighted to contact all those who wish to demonstrate their sympathy to the Italian Military Police "Carabinieri".
I also hope that you find time to follow this activation as well as all activities on the COTA website www.cota.cc/...where there are all and more useful info for activation. "73". See you soon"ON AIR" [IZ0RNU]

W4SIG - Kerry - 11/9/10 to 11/10/10 - SSB and CW
An ambitious trip for some much needed Kentucky counties. Now good for BINGO! Will start about 1200z each day and run very late in the evening. Will run 40cw/40ssb/30cw/20cw/20ssb. All bands are available and might be able to run on special requests and if time permits. Unfortunately due to S7 engine noise (thanks Ford) and being by myself I must usually stop and run county lines so I can copy well. This combined with running multiple bands/modes will slow me down. Plan is to start early on Tuesday and get home in the wee hours Thursday. Please keep an ear out as there is a

possibility that I may need to push this trip out a day or two. PLEASE post me. As usual the route is subject to change for unknown circumstances. KENTUCKY: Allen, Monroe, Metcalfe, Cumberland, Clinton, Wayne, Pulaski, Casey, Russell, Adair, Taylor, Green, Marion, Washington, Boyle, Lincoln, Garrard, Jessamine, Madison, Clark, Estill, Powell, Menifee, Wolfe, Morgan, Magoffin, Floyd, Knott, Martin, Johnson, Lawrence, Elliott, Carter, Lewis, Rowan, Fleming, Robertson, Nicholas, Harrison, Scott, Woodford, Anderson, Washington, Nelson, Spencer, Hardin, Meade, Hart, Edmonson, Warren and Simpson. VP8ORK Press Release #3 - The Low-Band Plan

Many have been asking about our low-band plans for the upcoming VP8ORK South Orkney DXpedition in January 2011. With antennas to cover 75, 80 and 160m simultaneously from sunset to sunrise, dedicated receive systems and top-of-the-line radios, we will be active on all these bands, every night, for almost two solid weeks. Rest assured that we're giving the low-bands a top priority.

Of course this doesn't mean we're ignoring 40m and up. It just means we're putting in a bigger effort than usual on those bands where the need is greatest.

We realize that lone operators at remote polar science stations often have limited time and equipment to make an effort on every band, let alone 80 or 160. This is why the big Antarctic DXpeditions are there to fill in the gaps. These expeditions offer experienced DXers a chance at working some new band-modes, and newcomers a chance at climbing the honor-roll.

Here is a listing of our low-band arsenal:

Antennas:
160 transmit
The Battle Creek Special (160 main)
85 foot vertical wire supported by Spiderbeam telescoping pole (160 backup)

80 transmit
SteppIR vertical with 80 meter coil (CW) (80m)
60 foot vertical wire supported by Spiderbeam telescoping pole (75m)
60 foot vertical wire supported by second Spiderbeam telescoping pole (backup)

160/80 receive
DX Engineering 4 square with DX Engineering preamp and DX Engineering splitters to feed 3 low band radios.
Two RX beverages as an option to 4 square dependant on circumstances encountered on site.

Radios:
7 x K3 transceivers (sponsored by Elecraft)
3 x Acom 1010 amplifiers (sponsored by Acom)

2 x Acom 1000 amplifiers (sponsored by Acom)

Team:
EY8MM, K9ZO, ND2T, 9V1YC, K0IR, N1DG, W3WL, K6AW, N6MZ, N4GRN, WB9Z, W7EW, and VE3EJ

I'm sure most of you recognize these calls. This team brings with it an unprecedented amount of experience in Antarctic DXpeditioning, contesting and low-band knowledge to ensure that all bands are covered from start to finish.

But, even with a great plan, the best equipment and experienced operators, activating the remote entities of the Southern Ocean is still one of the most challenging aspects of amateur radio. These islands are some of the windiest, coldest and roughest places on earth to survive, and just reaching them is an achievement in itself. Its no secret that private, non-governmental Antarctic expeditions come at an astronomical cost, and without support from everyone within the DX community these trips would simply not happen.

We're extremely grateful to have major DX foundations such as the NCDXF, INDEXA and the ARRL funding us with large donations. We're also thankful to have support from many worldwide DX clubs and commercial equipment sponsors such as Elecraft, Acom, DX Engineering and SteppIR. But even with all that, and each team member contributing over $12,000, it still doesn't even come close to covering the massive expense of a polar expedition. We need financial support from all of you.

If you haven't sent in a donation yet we hope you will consider joining those who have already stepped up to help. Our website www.vp8o.com [1] gives full details of our trip, and is where you can contribute at whatever level you feel comfortable.

We look forward to working you on all bands!

James Brooks, 9V1YC

Space Weather News for Nov. 3, 2010
FARSIDE SOLAR FLARES: An active region just over the sun's eastern horizon is crackling with solar flares and hurling material high above the stellar surface. One of today's flares, a C4-class event, created a wave of ionization in Earth's upper atmosphere despite the fact that the blast site was not directly visible from Earth. The source of this activity appears to be old sunspot 1112, which has spent the last ~12 days transiting the far side of the sun, and is now about to turn back toward our planet.

I.C.P.O. (Islands, Castles & Portable Operations)
UPDATE -
==========
We are off again in December to much warmer climes!!

DX News Release #2:

The "Buddies in the Caribbean" DXpedition group which specializes in 100 watt or less low power radios and the Buddipole portable antenna systems is back again to St Lucia (J6) on Dec 5 13, 2010. The north shore Villa location was magnificent on our first visit in Feb 2010 and we want to demonstrate with a new group of operators, "ultralite" dxpeditioning into magnificent "vista" locations, operating a field portable, battery-only radio with backpackable, lightweight antennas and most of all "having fun". The entire DXpedition is limited to equipment that can fit in your airline "suitcase".

The eight operators are: Budd/W3FF, Guy/N7UN, Wey/K8EAB, Bill/W7ZT, Todd/N4LA, Kent/K4MK, Gary/NX8L, and Tom/W4OKW. There will be 3 Villa stations in operation at various times on 160-10m using CW, SSB, and RTTY. During the day, several teams will be battery-only, field portable either from St Lucia beaches or scenic mountain tops. They group has received a unique J6BP callsign for the ARRL 10m contest on Dec 11-12th. QSL via LoTW, eQSL, or mail to the operator's home callsign (SASE required). SPECIAL EVENTS -

- The Coventry Amateur Radio Society will be operating GB70CBC for the Coventry Blitz Commemoration from Coventry Cathedral [aka St. Michael's Cathederal], Coventry, West Midlands, Canterbury, England (IOTA EU-005, WLOTA 1841), during November. Operation will be as and when from 1st to 28th November 2010 mainly on 20m and 40m SSB, also 2m and 70cm FM.
St Michael's church was largely constructed between the late 14th century and early 15th century. It was one of the largest parish churches in England when, in 1918, it was elevated to cathedral status on the creation of Coventry Diocese. This St Michael's Cathedral now stands ruined, bombed almost to destruction during the Coventry Blitz on 14 November 1940 by the German Luftwaffe. Only the tower, spire, the outer wall and the bronze effigy and tomb of its first bishop, Huyshe Wolcott Yeatman-Biggs, survived. QSL via the RSGB bureau. [GB2RS]

- Hector, CE3FZL reports that throughout the months of November and December 2010 special callsign XR33M will be aired celebrating the rescued miners in Chile. QRV 80-15 meter SSB. Also look for Radio Club de Copiapo team members to be active during the CQWW DX CW Contest (27-28 November and the ARRL 10 Meter Contest (11-12 December). QSL via CE3BBC, direct (QRZ.com) with SASE + 1 IRC or 2 USD. [radiocom.org]

15/11/2010: Operators EW1BH, EW2CC, EW1ACC, EW2AB, EW2CF, EW2CU, EW2BO and EW2EO will be QRV on 14th November 2010 as EV5P to commemorate the 198th anniversary of the defeat of the Napoleonic army. Activity will be from the river Berezina, on the HF bands using SSB and CW. All QSLs only via the bureau (no eQSL, etc.). [radiocom.org]

15/11/2010: For the 61st anniversary of the proclamation of the Virgin Mary "Virgo Fidelis" as a patron saint of the Carabinieri, as well as to raise awareness and celebrate the first "mother" of every policeman, special event station IQ6CC will be activated from 0000 UTC 15th November to 2400 UTC 21st November 2010. Operators include IZ6IQA Claudio, IK6BAK Eliseo, IZ6OYU Fabrizio, IZ6FYI Giuseppe, IK6HLN Gianni, IZ6FUQ Stefano, I6TND Vito, IK6ZJE Domenico, I6YOT Mimma and IW6MKI Ubaldo. QRV on all HF bands and modes. QSL via IZ4SUC, bureau or direct (with SASE). Website: www.cota.cc/ [IZ0RNU]

17/11/2010: Members of the Yavapai Amateur Radio Club (YARC) in Prescott, Arizona, will operate a special event station K7NRA on 17 November 2010. Activity is in celebration of NRA's 139th birthday. The amateur radio station will be operated from the Gunsite Academy's 2,000-acre campus north of Prescott. The operation will take place between 1500-2300z on the following suggested frequencies: 7250, 14250 and 21335 kHz. Website: www.w7yrc.org/ [OPDX Bulletin]

Understanding LF and HF Propagation eBook
In 2008/2009 Alan Melia G3NYK and I wrote a series of features on

understanding LF and HF propagation for the Radio Society of Great Britain's (RSGB) "RadCom" magazine.
My features consisted of a month-by-month look at each HF band in turn, showing the reader the propagation modes behind each band and explaining some of the technicalities of ionospheric propagation.
I looked at the D, E and F layers, Sporadic E, the MUF/LUF, using solar data, propagation programs, NVIS and much more.
Alan then took over and wrote three detailed features on LF propagation.
We are told that the features were well received and as a result I have managed to persuade the RSGB to allow me to put them together into a single document, which is now freely available for amateurs worldwide to download.
I hope you enjoy it.

22-June-2011 to 6-July-2010

Six Meter Expedition to Saba Island (PJ6) is taking shape. The team will be K5AND - Dick, W5OZI - Pat and K5TR - George. We have a location picked out reserved on the island. It is located on the northeast part of the island at about 150 meters above sea leavel (490 ft) with perfect take off to the US, EU, AF and most of SA. The plan is to operate CW on 50.106 Mhz and SSB on 50.118 Mhz. We will also be on JT65 during moonsets and moonrises on 50.190 Mhz. We should have a web site in the coming month to post updates to the trip. We do not know what callsign(s) we will use.

Thanks

Okay Since I now have Johns permission
Sorry for the other screwup
I honestly thought I was sending the message directly to him!

Anyway
I now have 20 IRCs available for $2 each which includes
shipping in the USA

And If I can find the coupon book
I'll throw in a coupon for a free Frosty from Wendys

I should have a lot more soon also

Please email me direct at

6 METRES & UP -

CE/K7CA qrv from FG41JM on 50 MHz EME soon -
As those of you who worked K7CA this summer already know, Al is taking a
converted HF amp and 36' yagi with him down to Huasco, Chile later this
month. He tested out the system by making a dozen or so 6m EME contacts this
summer. CE/K7CA will be in FG41jm, looking out over the ocean on moonset. I
think he will be down there for at least 2 months this trip, so there should
be many opportunities for contacts with stations in various locations during
his moonset. It is very exciting to finally have activation of CE on 6m EME

;-) I am sure we will hear from Al if he is able to be QRV by the next optimum period for EME at the end of this month. [W7GJ via MMMonVHF]

PJ6 Saba Island 6M DXpedition -
A Six Meter Expedition to Saba Island (PJ6, IOTA NA-145, WLOTA 2043, WFF PAFF-025) between 22nd June and 6th July 2011 is taking shape. The team will be Dick K5AND, Pat W5OZI and George K5TR. They have a location picked out reserved on the island. It is located on the northeast part of the island at about 150 meters above sea leavel (490 ft) with perfect take off to the US, EU, AF and most of SA (WW Loc. WW Loc. FK87JP). The plan is to operate CW on 50.106 Mhz and SSB on 50.118 Mhz. They will also be on JT65 during moonsets and moonrises on 50.190 Mhz. The group should have a web site up and running soon to post updates to the trip. Callsigns are unknown at this time. [K5TR]

SILENT KEYS -

CQ "Family" Members WN5N, K8OCL, Silent Keys

Two members of the CQ "family" have become Silent Keys.

Norm Koch, WN5N (ex-K6ZDL), was CQ WPX Award Manager for nearly a quarter century, from December 1981 to August 2006. He shepherded the program through a period of sustained growth to become one of CQ's leading award programs, as "prefix-chasing" became a sport in itself. Administering the program was and is quite a challenge, as new prefixes come and go quite frequently, and keeping track of them is a big part of the job. Norm also helped staff the CQ booth at Dayton for several years, and was a good friend to all of us here. We will miss him greatly.

John Champa, K8OCL, was CQ VHF magazine's High-Speed Multimedia (HSMM) editor from 2005 until earlier this year, when he stepped down due to health issues. John was also past chairman of the ARRL Technology Task Force on High Speed Multimedia Networking, and was very active in AMSAT, the Radio Amateur Satellite Corporation, including service on its board of directors and a term as Executive Vice President. Professionally, John was most recently a senior systems engineer for the government systems division of Rockwell Collins Communications. Among hams, he will be remembered for his contributions to the leading edge of amateur radio technology. [CQ Newsroom]

BITS & PIECES -

MoonSked 1.6.0 and 1.6.1 released, by David GM4JJJ
Today I have released a bug fix update for MoonSked for Windows and MoonSked X for Macintosh computers. This fixes a potential problem where there could be a high CPU load if a Tracking Window was closed (1.6.0) Latest version (1.6.1) fixes a communication problem between MoonSked and Rotator Drivers when AutoTrack was toggled off and on more than twice. I would advise all users to consider updating to the latest release version 1.6.1 available on David´s website below. Thanks, 73 David, GM4JJJ

I.C.P.O. (Islands, Castles & Portable Operations)
UPDATE -
==========
Helsinki

November 23, 2010

RADIO ARCALA WILL AIR THEIR STATION NETWORK FOR CQWW CW

The 2010 CQWW CW will shortly be dominating the bands, only to prompt several OH's to leave their Northerly fireworks and head South. But at the same time, the fire is set at the home of OH8X, Radio Arcala, Northern Finland, right next to the Santa Claus Village in the spirit of Christmas. <www.santaclausvillage.info>

So, the mother OH8X will be operated by Pasi, OH6UM while the Azores, CR2X will have Toni, OH2UA at the helm, and the OH2BH station will be piloted by Ilkka, OH1WZ, all in the single-op, all-band category. Traveling to Turkey, TC4X will be Pertti, OH2PM for a single-band effort while Pekka, OH2TA; Juha, OH1ND and Martti, OH2BH will fire up OH0X, Aland Islands, for a multi-op, single-TX entry.

Adding to the OH CQWW fun from these rare ones will be Olli, OH0XX from Madagascar as 5R8WW; Marko, OH6DO/N5ZO from Ascension Island as ZD8O and Jorma, OH2KI from Gibraltar as ZB2X.

Radio Arcala and their associates are here to contribute to the premier contesting event of the year and offer you another round of exciting multipliers.

QSL routes:
OH8X via OH2UA
CR2X via OH2BH
TC4X via OH2BH
5R8WW via OH0XX
ZD8O via OH0XX
ZB2X via OH2KI
OH0X via OH2TA

LOOKING AHEAD -

11/12/2010: The Yorkshire Dales Contest Group (M0YCG) will be using the special event callsign, GB1YDD to celebrate Yorkshire Dales on the Air Day and World Flaura and Fauna GFF-020 near Malham Tarn from 11th December to 12th December. Approximate times of operation will be continuous from 15:00 on Saturday through to the afternoon on Sunday. Intended bands of operation will be all 13 bands from 160m to 70cm using SSB, a little CW and FM so as to give as much opportuninty as possible for different stations to work this callsign. It is hoped that we will be qrv on 4m FM, but this is yet to be confirmed. For QSL information and activation details etc, please search the GB1YDD callsign on QRZ.com. [Pete's-DX-Newsdesk]

22/12/2010: Ryosei Aimiya, JH0IXE will be active as T8CW from the Republic of Palau (IOTA OC-009) between 22nd December 2010 and 6th January 2011. QRV on 160-6 metres, using RTTY, PSK31, WSJT (JT65A), CW, SSB and SSTV. "I think that I will mainly operate a digital mode". QSL via home call. [NG3K]

01/01/2011: The International Short Wave League (ISWL) will be celebrating 65 years of service to Licensed Amateurs and Short Wave Listeners during the entire year 2011. The callsign GB65ISWL will be active from several locations throughout the year. The QSL Manager is Herbie G6XOU. QSL Cards will be returned on a QSLR basis. All logs will automatically be uploaded to eQSL.cc. ISWL info at: www.iswl.org.uk/ . This callsign can be claimed for the ISWL Monitor award. More information from Pete's-DX-Newsdesk shortly. www.dx-newsdesk.co.uk/ [Pete's-DX-Newsdesk]

07/01/2011: Cezar, VE3LYC and Johan, PA3EXX will attempt a very challenging expedition to Wollaston Islands (IOTA SA-031) and Diego Ramirez Islands (IOTA SA-097) between approximately 7th-22nd January 2011. In demand by 98% of IOTA chasers, SA-031 currently ranks #6 on the Most Wanted IOTA list World Wide and #1 in South America, whereas SA-097 has never been activated. The plan is to operate for 4 days from Herschel Island (IOTA SA-031) and Gonzalo Island (IOTA SA-097). However, weather and sea conditions can influence significantly this schedule. The team has retained for this trip the services of Thomas, an experienced skipper, with his 40 ft yacht, well equiped for Antarctic waters. Callsigns: CE9/VE3LYC and CE9/PA3EXX. QSL ALL QSOs via VE3LYC, direct or bureau. Further information can be found on their website at: CE9iota.weebly.com/ [VE3LYC]

SABLE ISLAND POSTPONED......Following just received from Randy, N0TG:
****
BAD News! We have just been advised that the beach will not be suitable for landing this week nor next week. Then after next week, that puts us into the holiday period. Thus, we have no choice but to return home, regroup and come up with a new re-schedule. What a bummer!! Certainly 'tis discouraging, expensive, and we know disappointing to all the Dxer's following the dxpedition and looking forward to having fun. We will asess the situation over the next couple of weeks and layout our new plan at that time.

Sorry. Very 73,
Randy, N0TG and the CY0 Team

I will be in PJ6 from 27th Jan 2011 - Mar 3rd. Operation will be from a rental villa with plenty of trees and room for antenna, operation will be holiday style, but definitely not as laid back as my recent CT3 trip. Call probably PJ6/G4IUF.

Gear IC-7000, W3DZZ antenna, hope to work you:

Aimed at QRGs CW 7 up from band edge,

SSB: 3.797, 7.147, 14.157/247, 21.277, 28.477.

VQ9LA DEPARTURE
FYI,
24 Jan 2011 will be my departure date from VQ9 BIOT Diego Garcia. My plans are to operate as much as possible up to the last day, will try and put as much low band and RTTY on the air as possible before my departure date. All logs will be updated to LOTW, direct/buro QSL cards via N0QM will also be fine. Sending cards to my Diego address may or may not be lost in the mail due to the post office mishandling of mail.
After my departure from VQ9 will be living in the Philippines part of the year and USA part of the year. All QSL cards after Jan 2011 will be handled once I make it back to the states next year (May 2011).
Once the proper paperwork is filed with the RP Government I will operate a Elecraft K2 transceiver 40-10MTRS CW/RTTY. Low band ops will not be possible the first year due to small house. My call should be DU3/N0QM, QSL via N0QM and LOTW.

KH5 - JARVIS ISLAND, OC-081
DXpedition to Jarvis Island (OC-081) organized by Radio Expeditions Inc has been postponed until November 2011. During the first half of 2010 the US Fish Wildlife Service developed a draft "Compatibility Determination for Amateur Radio Operations at the Jarvis Island National Wildlife Refuge". This document contains the rules and constraints for DXpeditions at Jarvis and was made available on 21 Jun 2010 for public comments to arrive not later than 5 July.
The FWS Honolulu office staff reviewed the comments, made a number of changes and submitted a final draft for approval at their regional office in Portland, Oregon. The final version was released on 28 July and revised applications for a permit were accepted until 25 August. The constraints in the Compatibility Determination required a radical restructuring of Radio Expedition Inc's plans, reducing both the number of stations and the time on the air.
Since more than one amateur radio group submitted an application which met the requirements of the compatibility determination, a lottery among the qualified groups was held at the FWS Honolulu office by the refuge manager on 30 August. Radio Expeditions Inc was fortunate to be selected. However, due to the time required to establish the rules for amateur radio operations from Jarvis, the late selection date, and the lead time required to schedule and prepare the MV Braveheart, the expedition has been postponed one year. November remains the best month to visit Jarvis Island from a propagation standpoint, with the largest combination of openings predicted to Europe on both 160/80m and 12/10m. [DX Newsletter]

DX Code of Conduct

*I will listen, and listen, and then listen again before calling. *

I will only call if I can copy the DX station properly.

*I will not trust the DX cluster and will be sure of the DX station's call sign before calling. *

*I will not interfere with the DX station nor anyone calling and will never tune up on the DX frequency or in the QSX slot. *

*I will wait for the DX station to end a contact before I call. *

*I will always send my full call sign. *

*I will call and then listen for a reasonable interval. I will not call continuously. *

*I will not transmit when the DX operator calls another call sign, not mine. *

*I will not transmit when the DX operator queries a call sign not like mine. *

*I will not transmit when the DX station requests geographic areas other than mine. *

*When the DX operator calls me, I will not repeat my call sign unless I think he has copied it incorrectly. *

*I will be thankful if and when I do make a contact. *

*I will respect my fellow hams and conduct myself so as to earn their respect. *

BITS & PIECES -

KH5 - JARVIS ISLAND, OC-081
DXpedition to Jarvis Island (OC-081) organized by Radio Expeditions Inc has been postponed until November 2011. During the first half of 2010 the US Fish Wildlife Service developed a draft "Compatibility Determination for Amateur Radio Operations at the Jarvis Island National Wildlife Refuge". This document contains the rules and constraints for DXpeditions at Jarvis and was made available on 21 Jun 2010 for public comments to arrive not later than 5 July.
The FWS Honolulu office staff reviewed the comments, made a number of changes and submitted a final draft for approval at their regional office in Portland, Oregon. The final version was released on 28 July and revised applications for a permit were accepted until 25 August. The constraints in the Compatibility Determination required a radical restructuring of Radio Expedition Inc's plans, reducing both the number of stations and the time on the air.
Since more than one amateur radio group submitted an application which met the requirements of the compatibility determination, a lottery among the qualified groups was held at the FWS Honolulu office by the refuge manager on 30 August. Radio Expeditions Inc was fortunate to be selected. However, due to the time required to establish the rules for amateur radio operations from Jarvis, the late selection date, and the lead time required to schedule and prepare the MV Braveheart, the expedition has been postponed one year. November remains the best month to visit Jarvis Island from a propagation standpoint, with the largest combination of openings predicted to Europe on

both 160/80m and 12/10m. [DX Newsletter]

NEW SOUTH POLE STATION ACTIVE -

Over the last several weeks I have learned that the old South Pole Station has been completely dismantled and all ant operations are now taking place at the New South Pole Station (Amundsens Scott Base) including operations from KC4AAA.

The new location has been assigned the number WAP-36. An announcement has been made on the WAP web site with all the details, effective dates, etc.

http://www.waponline.it/NewsInformation/tabid/178/Default.aspx
(http://www.waponline.it/NewsInformation/tabid/178/Default.aspx)

http://www.usap.gov/videoclipsandmaps/spwebcam.cfm
(http://www.usap.gov/videoclipsandmaps/spwebcam.cfm)

The current operator at KC4AAA is Andy WA2DKJ. He has been active for a few weeks. He is on regularly 14.243 Mhz 0100-0400 UTC. As always I will encourage him to operate during times suitable for Europe and Asia. They are running about 800w and a Telrex 6 element 20m monobander, but have other antennas available as well.

Happy Antarctic DX Chassing this season.

SB QST ARL ARLB030
ARLB030 New Rules Governing Vanity, Club Station Call Signs to Take Effect February 14

On Wednesday, December 15, new rules affecting vanity and club station call signs within the Amateur Radio Service were published in the Federal Register. They can be found in PDF format at, http://edocket.access.gpo.gov/2010/pdf/2010-31349.pdf. These new rules will go into effect on February 14, 2011.

Thirteen months ago, the FCC announced its intention of modifying Part 97 as it applies to the vanity call sign system and club

station call signs, aligning the rules to prior Commission
decisions. Last month, the Commission released a Report and Order
(R&O), outlining its decision. Along with the changes to the call
sign rules, the FCC made "certain minor, non-substantive amendments"
to portions of Part 97.

RAC Bulletin 2010-041E - RAC Winter Contest 2010

The RAC 2010 Winter contest will be held from 0000 UTC to 2359 December 18, 2010.

The following stations plan to be active using the RAC call sign:

RAC Call Sponsor

VE1RAC VE1PJS
VA2RAC Club Radio Amateur de Québec Inc VE2GEJ
VA3RAC Ottawa ARC at VE3CWM
VE4RAC VE4BAW
VE5RAC VE5CPU
VE6RAC VE6JY
VE7RAC Coquitlam, Surrey and Surrey Emergency Clubs operating on all bands at a kW
VE8RAC VE8EV
VE9RAC VE9AV in Fredericton
VY0RAC VY0AW operating on 40 and 80
VY1RAC VY1EI
VY2RAC VY2LI
VO1RAC VO1MX
VO2RAC VO2NS

One of the stations you may want to look for in particular is VE4RAC with Radio Amateurs of Canada President Geoff, VE4BAW as operator. Geoff will be operating on 20, 40 and 80 Metres.

And as a little bonus for everyone, listen for BY1RX with former RAC President Dave VO1AU manning the station.

Dave plans to be on in the RAC Winter Contest operating as either VO1AU/BY1RX or BY1RX. BY1RX has excellent antennas and a full kW. If you need BY on a new band or mode, he would be very willing to QSY.

Finally there will be an award of a RAC coffee cup to any station that contacts all the RAC stations. Please mention in your log submission if you work all the RAC stations.

For scoring, frequencies, free software to help you submit your results and complete details on the RAC Winter Contest please use this link to the RAC web page:

9862. DXCC card checker lookup

Yahoo group: GOLIST (2007 — 2010)

For years, the DXCC card checker lookup page was available by means of a static lookup list by Division, Section then non-USA.

This page has been removed and replaced with simple lookup (search) link on the DXCC web Site called:

'DXCC Card Checker Search' (direct link to http://www.arrl.org/dxcc-card-checker-search)

To find your local checker open this link and for USA click 'State', for non-USA click 'Country'

For USA only, you can narrow your search within your state to Zip Code and distance from your zip code by noting this information in the boxes shown.

Also, as a reminder, DXCC card checkers are authorized to verify applications for these programs:

·Worked All States (WAS)

·VHF/UHF Century Club (VUCC)

·Worked All Continents (WAC)

For non-USA, under the IARU General Certification Rules (GCR) any approved Awards Manager for a local IARU member society can also verify applications for these 3 programs.

DXCC is _NOT_ included in the GCR and can _only_ be checked by approved DXCC card checkers

All applicants are eligible to use approved DXCC card checkers. For non-USA, you do not need to be a member of your local IARU member society to utilize your local checker. For USA and possessions ARRL membership is required to participate in ARRL Awards Programs. ARRL membership is not required for non-USA hams to participate.

The following operations are approved for DXCC credit:

H4ØHP – Temotu Province

2009 Operation

7Z1HB – Saudi Arabia

Current operation commencing in 2007

If you had these operations rejected in a recent application send a
note to dxcc@... <mailto:dxcc@...> to have your record
updated. Note, due to extremely heavy e-mail DXCC may not respond to
your message. Once updated, this will be reflected in your LoTW
account or in the live, daily DXCC Standings on the website.

SPECIAL EVENTS -

24/12/2010: There will be a Grimeton Radio/SAQ transmission on 17.2 kHz CW with the Alexanderson alternator on Christmas Eve, December 24th, 2010 at 08:00 UTC (tuning up some 30 minutes before message). QSL reports are welcome via e-mail to info at alexander [dot] n [dot] se, via fax to +46-340-674195 or QSL via bureau or direct to Alexander - Grimeton Veteranradios Vaenner, Radiostationen Grimeton 72 SE-430 16 Rolfstorp, Sweden. [UBA HF News]

29/12/2010: They're at it again!!!! Just a last minute reminder that the 3 Steve's (Steve- KF2TI, Steve- N2IFA, Steve-KB2ENF and Kurt-W2MW, aka Steve), along with those two laughing young men, Andrew-N2IFB and Eric-K2EMZ will be guest op'ing at the ARRL station, W1AW, Wednesday December 29, from 1700 - 2045 UTC. This is our 20th annual WAS DX-pedition to Newington and we will be operating the following bands: 30M CW (Kurt aka Steve) 15, 20 and 40M SSB (Steve, Steve and Steve) Andrew-N2IFB and Eric-K2EMZ will also be operating as "Steves" on 10 and 17M and possibly 80M. Hopefully condx will improve and we will try to listen for outside the US. Packet spots will be posted. If you work any 3 operators, we will send you a beautiful, full color WAS (Worked All Steve's) certificate (suitable for framing). No QSL is needed, as we will have copies of the log and send out a certificate to all those who qualify. QSL cards to us are not necessary for the WAS. If you want a W1AW QSL Card, please send to them direct or via the buro. The logs will be posted (hopefully) after January 1st on our website: the3stevesarc.org/ . This is not an officially sanctioned ARRL event. It is run for fun by the 3 Steves Amateur Radio Association (TSARC) - WK3SS (all rights reserved) and we are responsible for the printing and sending of the Worked All Steve's

certificate (suitable for framing). We would like to thank the ARRL for allowing us to play with their great toys and putting up with us each year. Hope to work you then. [Steve-KF2TI]

New WAB Award for 2011
WAB (Worked All Britain) are introducing a new award for the year 2011
only.
For the new Coastal and Tidal award you need to work as many WAB squares
containing tidal water as you can. Valid squares are those shown as
containing tidal water on an Ordnance Survey map.
The basic award is for 50 squares on HF or 10 on VHF rising in increments
to 400 squares for the Diamond HF award.
More details, a copy of the certificate and a spreadsheet of valid squares

are available on the WAB website www.worked-all-britain.co.uk
All contacts must be made in the 2011 calendar year. [Southgate ARC]

DXCC Card Checker Program

For years, the DXCC card checker lookup page was available by means of a static lookup list by Division, Section then non-USA.

This page has been removed and replaced with simple lookup (search) link on the DXCC web Site called:

‘DXCC Card Checker Search’ (direct link to http://www.arrl.org/dxcc-card-checker-search)

To find your local checker open this link and for USA click ‘State’, for non-USA click ‘Country’

For USA only, you can narrow your search within your state to Zip Code and distance from your zip code by noting this information in the boxes shown.

Also, as a reminder, DXCC card checkers are authorized to verify applications for these programs:

· Worked All States (WAS)
· VHF/UHF Century Club (VUCC)
· Worked All Continents (WAC)

For non-USA, under the IARU General Certification Rules (GCR) any approved Awards Manager for a local IARU member society can also verify applications for these 3 programs.

DXCC is NOT included in the GCR and can only be checked by approved DXCC card checkers

All applicants are eligible to use approved DXCC card checkers. For non-USA, you do not need to be a member of your local IARU member society to utilize

your local checker. For USA and possessions ARRL membership is required to participate in ARRL Awards Programs. ARRL membership is not required for non-USA hams to participate.

Please send questions to dxcc@...

I.C.P.O. Bulletin (31 Dec 2010 - 07 Jan 2011)
"Islands, Castles & Portable Operations"
Listing is by calendar date (day/month/year)
==========
HAPPY NEW YEAR 2011 TO ALL READERS!!
==========
01/01/2011: Fred IK7JWX (SSB), Vincenzo I7PXV (SSB and CW) and Mike IK7FPX (SSB) will operate as IO7DAI from the Abbeys of Lecce and its Province, in the region of Puglia, between 1st January and 31st March 2011. QSL via IK7JWX, bureau preferred. Information on the Italian Abbeys Award (Diploma delle Abbazie Italiane) can be found at www.aribusto.it/dai_rules.htm [425 DX News]

01/01/2011: Alex Turkeev, RD1AV (ex RV1ZC) is heading to Antarctica and will be active as RI1ANC from Vostok station (AA U-10, WAP RUS-13, IOTA AN-016) throughout 2011. He will operate CW, SSB and digital modes on all bands, 160 and 80 metres included. QSL via RN1ON, direct or bureau. [425 DX News]

01/01/2011: Katsumi, JS1OHI will be active as T88KO from the Republic of Palau (IOTA OC-009) on 1-2 January 2011. QRV on 40/17/15/6 metre SSB only. QSL via home call, direct or bureau. [OPDX Bulletin]

02/01/2011: The 3D2RB team will be back on Denarau Island (IOTA OC-016) and QRV on 2nd January at approx 0600 UTC until 5th January at 1100 UTC when they will then QRT. They arrive in Finland on Jan 7, 2011. Denarau Island is a small island in Fiji, and the name of the resort area on the island. It is connected by a short causeway to Viti Levu and is 20 minutes drive from Nadi International Airport. [dx-world.net]

02/01/2011: Pete, K8PGJ will be active as ZF2PG from Grand Cayman Island (IOTA NA-016, WLOTA 1042) on 2-9 January 2011. When he is not scuba diving, Pete will be working DX. While on the beach, he will be running with a battery pack and thus portable with an elevated 20m vertical dipole wire antenna with two or maybe 4 counterpoise. Pete is also going to borrow some other fixed antennas so he will be able to work 40, 20 and 15 metres. On 20 metres, watch around 14200 and 14250 kHz. QSL via his home callsign. [dx-world.net]

04/01/2011: Nao, JK1FNL will be active from the Maldive Islands (IOTA AS-013) as 8Q7FF on 4-9th January 2011. QRV on 160-6m, using CW, SSB and RTTY. QSL via home call, direct or bureau. [NG3K]

05/01/2011: Jacques F6HMJ will be 3B8/F6HMJ from Mauritius Island (IOTA AF-049, WLOTA 0595) between 5th January and 21st February 2011, except from 11-20th January when he will go to Rodriguez Island (IOTA AF-017, WLOTA

4265, WFF 3BFF-004) as 3B9/F6HMJ. He will be active on all bands on CW, SSB and may be RTTY. QSL via F6HMJ. [F6AJA]

06/01/2011: A very large team of operators from 15 nations will be active from four operating sites with eleven transceivers (four each for CW and SSB, plus two on digital modes and one for 6m, 2m, 70cm and 23cm) and a wide range of antennas (yagis, verticals and 4-squares) from Thitu Island [Pagasa in Filipino] (AS-051), Spratly Islands. Activity will take place between 6 January and 1 February 2011. Further information and updates can be found at: www.dx0dx.net/ [425 DX News]

06/01/2011: Shane, VK4KHZ is expected to be active as H44DA from Vavaya Ridge, Honiara, on Guadalcanal Island (IOTA OC-047, WLOTA 0086, Grid Loc. QI90) on 6-18th January 2011. QRV holiday style primarily on 6 metres on a daily basis, subject to favourable conditions, but he will also do some activity on the HF bands as time permits. He will use a Yaesu FT847 with a 500 watt amp into a 3 element yagi for HF and 3 element yagi for 6m. QSL via VK4KHZ. [OPDX Bulletin]

07/01/2011: Cezar, VE3LYC and Johan, PA3EXX will attempt a very challenging expedition to Wollaston Islands (IOTA SA-031) and Diego Ramirez Islands (IOTA SA-097) between approximately 7th-22nd January 2011. In demand by 98% of IOTA chasers, SA-031 currently ranks #6 on the Most Wanted IOTA list World Wide and #1 in South America, whereas SA-097 has never been activated. The plan is to operate for 4 days from Herschel Island (IOTA SA-031) and Gonzalo Island (IOTA SA-097). However, weather and sea conditions can influence significantly this schedule. The team has retained for this trip the services of Thomas, an experienced skipper, with his 40 ft yacht, well equiped for Antarctic waters. Callsigns: CE9/VE3LYC and CE9/PA3EXX. QSL ALL QSOs via VE3LYC, direct or bureau. Further information can be found on their website at: CE9iota.weebly.com/ [VE3LYC]

07/01/2011: Operators Alan VK3XPD, Kevin VK4UH and Mike VK3KH, will once again be active from Norfolk Island (IOTA OC-005, WLOTA 1469) as VK9NA from 7-21 January. This is the same group that did a VHF, UHF and Microwave DXpedition earlier in 2010. More details are forthcoming, so look for details and updates at: www.vk9na.com/index.html [OPDX Bulletin]
==========
LOOKING AHEAD -

22/01/2011: Mats, SM6LRR will be active holiday and semi-holiday style as 4S7LRG from Sri Lanka (IOTA AS-003, WLOTA 0762) between 22nd January and 4th February 2011. He will focus on 160-80-40 metres. Possible serious participation in CQWW 160-Meter CW Contest (28-30th January), provided that permits for a specific good TB location is received. Focus will be to give North America a new one on 160m. QSL via SM6LRR, direct (QRZ.com) or bureau. [NG3K]

26/01/2011: Tony, N3ME (8P9ME) and Bernie, W3UR (8P9UR) will be operating from the Cave Bay area (WW Loc. GK03GD), St. Philip Parish, island of Barbados (IOTA NA-021, WLOTA 0999), between 26th January and 14th February 2011. QRV on the HF bands using CW, SSB, PSK and RTTY. QSL via home calls

either direct, to the (W3) bureau or LoTW. [dx-world.net]

28/01/2011: Daniil, UT5EO will be active from Obcha, Georgia, as 4L0A during the CQWW 160-Meter CW Contest (28-30th January 2011), as a Single-Op/High-Power entry in CQ Zone 21. QSL via LoTW. [NG3K]

01/02/2011: To celebrate the 2011 Canada Games in Nova Scotia, Canada, amateur radio operators in the Provice of Nova Scotia will be permitted to use special prefixes CJ1 and CK1 during the entire month of February 2011. VA1 stations will be allowed to use the special prefix CJ1, while VE1 stations will use the special prefix CK1. QSL via the operators' instuctions. [RAC]

03/02/2011: Randy, W6SJ will operate as C6AWS from Grand Bahama Island (IOTA NA-080, WLOTA 0527) on 3-9th February 2011. Holiday style operation, when not fishing, and will do the WARC bands when possible. QSL to home call. [NG3K]

16/02/2011: Will, AA4NC plans to be active as V31RR from Placencia, Belize, between 16th and 23rd February 2011. His main focus will be on the ARRL DX CW Contest (19-20 February) as a Single-Op entry. Outside the contest look for Will to be QRV on all HF bands, using CW, SSB and RTTY. QSL direct to AI4U, and/or to LoTW. (No bureau QSLs). [NG3K]

16/02/2011: John, W5JON will be active as V47JA from his new Calypso Bay, island of St. Kitts (IOTA NA-104, WW Loc. FK87PG) vacation home, with full view of Caribbean, between 16th February and 30th March 2011. QRV on 80-6 metre SSB, including both the ARRL International DX SSB Contest (5-6 March) and CQWW WPX SSB Contest (26-27th March), both Single-Op/All-Band. Equipment will be TS-590S, KL-400 Amplifier (400 Watts) and Multiband Dipoles. XYL Cathy (W5HAM) will also operate occasionally as V4/W5HAM. All QSL's via W5JON. [NG3K]

COUNTY HUNTING (USA-CA) -

NM2L - Greg - Dec. 31, 2010 to Dec. 31, 2010 - SSB and CW
Starting about 1300z - GA: Walton, Newton, Morgan, Putnam, Baldwin, Johnson, Wilkinson, Jones, Jasper, Newton and Walton. This is a day trip and I have to be back in time to take my XYL to dinner. I am going to try and do some SSB as time permits especially in Johnson, but in others if possible if someone hears me. My SSB signal is a bit puny I think. Run order: 40CW, 40SSB, 80CW, 30CW, 20CW, 17CW, 20SSB. QSL via home call. [County Hunter Web]

NX4C - Wesley - Jan 5, 2011 to Jan 5, 2011 - SSB and CW
First short trip of the New Year in Tennessee. Planning on going to the following counties - TN: Roane, Cumberlain, White, Van Buren, Bledsoe, Rhea and Meigs. TN---Last counties please email your phone number and I will call when I get to your county. Will not run CW in all counties--send CW request via email (nx4c [at] knology [dot] net) and I will run CW for your county. Plan on working 20 and 40 metres. QSL via home call. [County Hunter Web]

AXEL TIGERSTEDT, OH5NW SILENT KEY
Written by Martti Laine, OH2BH

Axel had just passed his 80th birthday and was ready for another Christmas. But it did not happen - time was up for Axel. No more OH5NW. Axel got his license as early as 1950 and soon turned out to be a leading OH station on the the air. His 1957 win in the CQWW Phone Contest gave him the first ever OH World top honors from this Northern soil. With that spirit Axel set a course for youngsters to follow, and in the Sixties he spelled out another target to push his multi-multi team to heights never seen before. They competed locally but suddenly saw their country dominating the multi-multi world for several years as OH2AM and OH5SM.
It was during those other years that Finland began to stand tall in contesting. Axel made all DXCC countries and his legendary rhombics were a treat to see. His house was always open to visiting hams.
Axel also served for fifteen years as President of SRAL - the Finnish Amateur Radio League - and, at the same time, he was cited as a highly recognized resource in IARU Region 1. (Note by PB2T: OH5NW was IARU Region 1 Treasurer 1972-1975)
Many hams from far and near have visited Arboretum Mustila which is today world famous as a unique area of exotic conifer species and introduced horticultural plants in all of Scandinavia. Axel, OH5NW together with his brother Peter, OH5NQ have been at the helm of this national treasure which is worth visiting today. There, nature lives in harmony with huge antenna towers! You may want to study the life and work of the late Axel, OH5NW on the Web at www.mustila.com/index2.htm
The folks in OH pause this Christmas to pay tribute to another powerhouse of Finland, Axel, OH5NW and share these sad moments with the ham family of Carola, OH5SM and Peter, OH5NQ. Axel's signal has faded away. [IARU Region 1.org]

Diego, LU8DIP/Z is currently active from the Teniente de Navio Juan Camara Base [Navy] (WAP ARG-16, WW Loc. GC07BJ), on Half Moon Island, South Shetland Islands (IOTA AN-010). More info to follow.. [dx-world.net]

The 3D2RB team is now on Drawaqa Island. No radios there. They will be back on Denarau Island (IOTA OC-016) and QRV on 2nd January at approx 0600 UTC until 5th January at 1100 UTC, when they will then QRT. They arrive in

Finland on Jan 7, 2011. [dx-world.net]
